**SUBJECT TO COMPLETION
PRELIMINARY PROSPECTUS DATED OCTOBER XX, 2016**

OXIS INTERNATIONAL, INC.

**60,000,000 Class A Units consisting of Common Stock and Warrants and
6,000,000 Class B Units consisting of Series J Convertible Preferred Stock and
Warrants
(120,000,000 shares of Common Stock underlying the Series J Convertible
Preferred Stock and Warrants)**

We are offering 60,000,000 Class A Units (consisting of one share of our common stock and a Series A warrant to purchase one share of our common stock at an exercise price equal to the public offering price of the Class A Units ("Series A warrant")). The shares of common stock and Series A warrants part of a Class A Unit are immediately separable and will be issued separately in this offering.

We are also offering to those purchasers, if any, whose purchase of Class A Units in this offering would otherwise result in the purchaser, together with its affiliates and certain related parties, beneficially owning more than 4.99% of our outstanding common stock immediately following the consummation of this offering, the opportunity, in lieu of purchasing Class A Units, to purchase Class B Units. Each Class B Unit will consist of one share of our Series J Convertible Preferred Stock, or the Series J Preferred, convertible into ten shares of our common stock at the public offering price of the Class A Units times ten, together with the equivalent number of Series A warrants as would have been issued to such purchaser if they had purchased Class A Units based on the public offering price. The Series J Preferred do not generally have any voting rights but are convertible into shares of common stock. The shares of Series J Preferred and Series A warrants are immediately separable and will be issued separately in this offering.

We are also offering the shares of common stock that are issuable from time to time upon conversion of the Series J Preferred and upon exercise of the Series A warrants being offered by this prospectus.

Assuming we sell all 60,000,000 Class A Units (and no Class B Units) being offered in this offering and a public offering price of \$0.20, the reported closing price of our common stock on August 18, 2016, we would issue in this offering an aggregate of 6 0,000,000 shares of our common stock and Series A warrants to purchase 6 0,000,000 shares of our common stock.

Our common stock is listed on the OTCQB under the symbol OXIS. Our common stock is also quoted on several European based exchanges including Berlin (OXI.BE), Frankfurt (OXI.DE), the Euronext (OXI.NX) and Paris, (OXI.PA). The last reported sale price of our common stock on OTCQB on August 18, 2016 was \$0.20 per share. There is no established public trading market for the Series A warrants or Series J Preferred, and we do not expect a market to develop. In addition, the warrants and Series J Preferred are not and will not be listed for trading on any national securities exchange.

Investing in our common stock involves risks, which are described in the "Risk Factors" section beginning on page 9 of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

RISK FACTORS

This offering involves a high degree of risk. You should carefully consider the risks and uncertainties described below in addition to the other information contained in this prospectus before deciding whether to invest in shares of our common stock. If any of the following risks actually occur, our business, financial condition or operating results could be harmed. In that case, the trading price of our common stock could decline and you may lose part or all of your investment. In the opinion of management, the risks discussed below represent the material risks known to the company. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also impair our business operations and adversely affect the market price of our common stock.

Risks Related to Our Business

We have a history of operating losses; we expect to continue to incur losses and we may never be profitable.

As of June 30, 2016, we had an accumulated deficit of \$118,190,000. We do not expect to generate any product sales or royalty revenues for at least four years. We expect to incur significant additional operating losses in the future as we expand research and development and clinical trial efforts.

Our ability to achieve long-term profitability is dependent upon obtaining regulatory approvals for our products and successfully commercializing our products alone or with third parties. However, our operations may not be profitable even if any of our products under development are successfully developed and produced and thereafter commercialized.

Even if we succeed in commercializing one or more of our product candidates, we expect to continue to incur substantial research and development and other expenditures to develop and market additional product candidates. The size of our future net losses will depend, in part, on the rate of future growth of our expenses and our ability to generate revenue. Our prior losses and expected future losses have had and will continue to have an adverse effect on our stockholders' equity and working capital.

We will have to hire additional executive officers and employees to operate our business. If we are unable to hire qualified personnel, we may not be able to implement our business plan and if we are unable to do so, the value of our common stock could be reduced.

We currently have only two full-time employees. The loss of the services of any of our key product or business development employees could delay our product development programs and our research and development efforts. We do not maintain key person life insurance on any of our officers, employees or consultants. In order to develop our business in accordance with our business plan, we will have to hire additional qualified personnel, including in the areas of manufacturing, clinical trials management, regulatory affairs, and business development. We will need to raise sufficient funds to hire the necessary employees and have commenced our search for additional key employees. However, competition for qualified employees among companies in the biotechnology and biopharmaceutical industry is intense, and no assurance can be given that we will be able to attract, hire, retain and motivate the highly skilled employees that we need. If we are unable to hire new skilled personnel, including management, our ability to properly develop our products and to implement our business plan will be adversely affected, which will result in a reduction in the value of our shares of common stock.

Our intellectual property may be compromised.

Part of the value of the Company going forward is vested in the intellectual property that the Company is acquiring the rights to at the present time. There may have been many persons involved in the development of the intellectual property, some of which the Company is not successful in obtaining the rights from. It is possible that in the future, claimants to the property rights may come forward that the Company is not aware of at the present time. It is also possible that the Company may not be successful in protecting its property rights. In either event, it is possible that the Company could lose the value of its intellectual property and if so the business prospects of the Company may suffer.

The fact that we have generated operating losses in the past raises doubt about our ability to continue as a going concern.

The Company has a history of generating operating losses. We have in the past covered any shortfall in operating capital from sales of equity and debt securities, but there can be no assurance that we will continue to be able to do so. The unpredictable economy in the United States and the volatile public equity markets may make it more difficult for us to raise capital as and when we need it, and it is difficult for us to assess the impact this might have on our operations or liquidity. If we cannot raise the funds that we require to continue our business operations, there is a substantial risk that our business will fail.

We are subject to extensive regulation, which can be costly, time consuming and can subject us to unanticipated delays; even if we obtain regulatory approval for some of our products, those products may still face regulatory difficulties.

All of our potential products, processing and manufacturing activities, are subject to comprehensive regulation by the FDA in the United States and by comparable authorities in other countries. The process of obtaining FDA and other required regulatory approvals, including foreign approvals, is expensive and often takes many years and can vary substantially based upon the type, complexity and novelty of the products involved. In addition, regulatory agencies may lack experience with our technologies and products, which may lengthen the regulatory review process, increase our development costs and delay or prevent their commercialization.

If we violate regulatory requirements at any stage, whether before or after marketing approval is obtained, we may be fined, forced to remove a product from the market and experience other adverse consequences including delay, which could materially harm our financial results. Additionally, we may not be able to obtain the labeling claims necessary or desirable for the promotion of our products. We may also be required to undertake post-marketing trials. In addition, if we or others identify side effects after any of our adoptive therapies are on the market, or if manufacturing problems occur, regulatory approval may be withdrawn and reformulations, additional clinical trials, changes in labeling of our products, and additional marketing applications may be required.

It may take longer to complete our clinical trials than we project, or we may not be able to complete them at all.

For budgeting and planning purposes, we have projected the date for the commencement, continuation and completion of our various clinical trials. However, a number of factors, including scheduling conflicts with participating clinicians and clinical institutions, and difficulties in identifying and enrolling patients who meet trial eligibility criteria, may cause significant delays. We may not commence or complete clinical trials involving any of our products as projected or may not conduct them successfully.

We expect to rely on medical institutions, academic institutions or clinical research organizations to conduct, supervise or monitor some or all aspects of clinical trials involving our products. We will have less control over the timing and other aspects of these clinical trials than if we conducted them entirely on our own. If we fail to commence or complete, or experience delays in, any of our planned clinical trials, our stock price and our ability to conduct our business as currently planned could be harmed.

We are exposed to the risk of liability claims, for which we may not have adequate insurance.

Since we participate in the pharmaceutical industry, we may be subject to liability claims by employees, customers, end users and third parties. We do not currently have product liability insurance. We intend to have proper insurance in place; however, there can be no assurance that any liability insurance we purchase will be adequate to cover claims asserted against us or that we will be able to maintain such insurance in the future. We intend to adopt prudent risk management programs to reduce these risks and potential liabilities; however, we have not taken any steps to create these programs and have no estimate as to the cost or time required to do so and there can be no assurance that such programs, if and when adopted, will fully protect us. We may not be able to put risk management programs in place, or obtain insurance, if we are unable to retain the necessary expertise and/or are unsuccessful in raising necessary capital in the future. Adverse rulings in any legal matters, proceedings and other matters could have a material adverse effect on our business.

Pre-clinical and clinical trials are conducted during the development of potential products and other treatments to determine their safety and efficacy for use by humans. Notwithstanding these efforts, when our treatments are introduced into the marketplace, unanticipated side effects may become evident. Manufacturing, marketing, selling and testing our product candidates under development or to be acquired or licensed, entails a risk of product liability claims. We could be subject to product liability claims in the event that our product candidates, processes, or products under development fail to perform as intended. Even unsuccessful claims could result in the expenditure of funds in litigation and the diversion of management time and resources, and could damage our reputation and impair the marketability of our product candidates and processes. While we plan to maintain liability insurance for product liability claims, we may not be able to obtain or maintain such insurance at a commercially reasonable cost. If a successful claim were made against us, and we don't have insurance or the amount of insurance was inadequate to cover the costs of defending against or paying such a claim or the damages payable by us, we would experience a material adverse effect on our business, financial condition and results of operations.

Risks Related to Our Securities

Our common shares are penny stock. Trading of our common shares may be restricted by the SEC's penny stock regulations and the FINRA's sales practice requirements, which may limit a shareholder's ability to buy and sell our common shares.

Our common shares are deemed to be penny stock. The Securities and Exchange Commission has adopted Rule 15c-9 which generally defines "penny stock" to be any equity security that has a market price (as defined) less than \$5.00 per share subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and "accredited investors". The term "accredited investor" refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the common shares that are subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in, and limit the marketability of, our common shares.

In addition to the "penny stock" rules promulgated by the Securities and Exchange Commission, the Financial Industry Regulatory Authority has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, the Financial Industry Regulatory Authority believes that there is a high probability that speculative low-priced securities will not be suitable for at least some customers. The Financial Industry Regulatory Authority requirements make it more difficult for broker-dealers to recommend that their customers buy our common shares, which may limit your ability to buy and sell our shares.

Clearing Brokers may Decline to Deposit the Shares in the Subscriber's Account.

Clearing brokers may decline to deposit into Subscriber's account a stock certificate for a security that (1) is a penny stock or (2) has stale or incomplete filings with the U.S. Securities and Exchange Commission (SEC). In addition to these conditions and limitations, the clearing broker may subject The Company's securities to additional review before accepting such securities for deposit. This review process may (1) take up to two weeks or longer, and (2) may include research into the Company or Subscriber. The characteristics that may trigger additional review include (1) low price of the security or securities under review; (2) large number of shares being deposited with clearing broker into Subscriber's account; (3) the securities in question are non-exchange traded; (4) the stock certificates are recently issued; (5) recent merger activity of the underlying company; and/or (6) change of name of the underlying company issuing these stock certificates. Finally, all of the aforementioned conditions, limitations, and characteristics triggering review may apply to Subscriber's Deposit/Withdrawal At Custodian (DWAC) requests, Automated Customer Account Transfer Account Service (ACATS) requests, and Depository Trust Company (DTC) receipts for deposit requests.

We may be unable to attract and retain qualified, experienced, highly skilled personnel, which could adversely affect the implementation of our business plan.

Our success depends to a significant degree upon our ability to attract, retain and motivate skilled and qualified personnel. As we become a more mature company in the future, we may find recruiting and retention efforts more challenging. If we do not succeed in attracting, hiring and integrating excellent personnel, or retaining and motivating existing personnel, we may be unable to grow effectively. The loss of any key employee, including members of our senior management team, and our inability to attract highly skilled personnel with sufficient experience in our industries could harm our business.

Our common stock is quoted on the OTCQB which may have an unfavorable impact on our stock price and liquidity.

Our common stock is quoted on the OTCQB, which is a significantly more limited trading market than the New York Stock Exchange or The NASDAQ Stock Market. The quotation of the Company's shares on the OTCQB may result in a less liquid market available for existing and potential stockholders to trade shares of our common stock, could depress the trading price of our common stock and could have a long-term adverse impact on our ability to raise capital in the future.

There is limited liquidity on the OTCQB which may result in stock price volatility and inaccurate quote information.

When fewer shares of a security are being traded on the OTCQB, volatility of prices may increase and price movement may outpace the ability to deliver accurate quote information. Due to lower trading volumes in shares of our common stock, there may be a lower likelihood of one's orders for shares of our common stock being executed, and current prices may differ significantly from the price one was quoted at the time of one's order entry.

Our common stock is thinly traded, so you may be unable to sell at or near asking prices or at all if you need to sell your shares to raise money or otherwise desire to liquidate your shares.

Currently, the Company's common stock is quoted in the OTCQB and future trading volume may be limited by the fact that many major institutional investment funds, including mutual funds, as well as individual investors follow a policy of not investing in OTCQB stocks and certain major brokerage firms restrict their brokers from recommending OTCQB stocks because they are considered speculative, volatile and thinly traded. The OTCQB market is an inter-dealer market much less regulated than the major exchanges and our common stock is subject to abuses, volatility and shorting. Thus, there is currently no broadly followed and established trading market for the Company's common stock. An established trading market may never develop or be maintained. Active trading markets generally result in lower price volatility and more efficient execution of buy and sell orders. Absence of an active trading market reduces the liquidity of the shares traded there.

Our common stock is subject to price volatility unrelated to our operations.

The market price of our common stock could fluctuate substantially due to a variety of factors, including market perception of our ability to achieve our planned growth, quarterly operating results of other companies in the same industry, trading volume in our common stock, changes in general conditions in the economy and the financial markets or other developments affecting the Company's competitors or the Company itself. In addition, the OTCBB is subject to extreme price and volume fluctuations in general. This volatility has had a significant effect on the market price of securities issued by many companies for reasons unrelated to their operating performance and could have the same effect on our common stock.

The Company has certain notes which could be converted into common stock, the exercise of which and the conversion of which may dilute the value of shares held by Company shareholders.

The Company has warrants outstanding that if exercised would lead to the issuance of 4,182,016 shares of common stock of the company. There are also certain notes on which the Company is not obligated but which are the subject of litigation in which the Company is involved that parties adverse to the Company have asked the Court to order a conversion of such notes into common shares of the Company. In the event the warrants or any of them are exercised, or if the court orders the described notes to be converted, the stock of the existing stockholders will be diluted.

If you are not an institutional investor, you may purchase securities in this offering only if you reside within the states in which we will apply to have the securities registered or are exempt from registration, and, if required, meet any requisite suitability standards.

Because our common stock is quoted on the OTCQB Marketplace and not listed on a national securities exchange, this offering must be registered, or be exempt from registration, in any state in which the securities are to be offered or sold. We will apply to register the securities, or will seek to obtain an exemption from registration, only in certain states. If you are not an "institutional investor," you must be a resident of these jurisdictions to purchase our securities in the offering. The definition of an "institutional investor" varies from state to state, but generally includes financial institutions, broker-dealers, banks, insurance companies and other qualified entities. If you are not an institutional investor, you may purchase securities in this offering only if you reside in the jurisdictions where there is an effective registration or an available exemption, and, if required, meet any requisite suitability standards.

USE OF PROCEEDS

Unless we state otherwise in the applicable prospectus supplement, we intend to use the net proceeds from the sale of securities described in this prospectus for the further development of our products and for general corporate purposes, which may include, among other things, reducing indebtedness, acquiring other businesses (although we currently have no agreement to acquire any business), and making capital expenditures, as well as for working capital.

DETERMINATION OF OFFERING PRICE

The offering price of the units has been arbitrarily determined and bears no relationship to any objective criterion of value. The price does not bear any relationship to our assets, book value, historical earnings or net worth. No valuation or appraisal has been prepared for our business. Our common stock is listed and traded on the OTCQB under the symbol "OXIS." The closing price of our common stock on August 18, 2016 was \$0.20 per share.

DILUTION

Our net tangible book value of our common stock as of June 30, 2016 was approximately negative \$15,800,000 (\$15,800,000), or approximately \$(0.563) per share of common stock. "Net tangible book value" is total assets minus the sum of liabilities and intangible assets. "Net tangible book value per share" is net tangible book value divided by the total number of shares outstanding.

Assuming that we issue 60,000,000 Units at an assumed offering price of \$0.20 per Unit, the closing price of our common stock on the OTCQB on August 18, 2016, and after deducting placement agents fees and estimated offering expenses payable by us, our adjusted net tangible book value after giving effect to this offering as of June 30, 2016 would have been approximately \$(4,833,625) or \$(0.055) per share of our common stock. This calculation excludes the proceeds, if any, from the exercise of warrants issued in this offering. This amount represents an immediate dilution in net tangible book value of \$0.255 per share to new investors purchasing units in this offering and an immediate increase in net tangible book value of \$0.508 per share to our existing shareholders.

Because there is no minimum offering amount required as a condition to the closing of this offering, the dilution per share to new investors may be more than that indicated above in the event that the actual number of shares sold, if any, is less than the maximum number of shares of our common stock we are offering. If any shares of common stock are issued upon exercise of outstanding options or warrants, including the warrants issued in this offering, you may experience further dilution.

BUSINESS

Overview

OXIS International, Inc., through its wholly owned subsidiary Oxis Biotech, Inc., is an immuno-oncology company with a robust technology platform consisting of bispecific and trispecific scFv constructs, full-length antibodies, proprietary drug payloads, proprietary antibody-drug linkers, dual-drug payload antibody-drug conjugates (ADCs), bispecific targeted ADCs, and NK cell and T-cell antibody directed cell-mediated cytotoxic (ADDCs) agents.

OXIS-1550

OXIS-1550 is a bispecific scFv recombinant fusion protein-drug conjugate composed of the variable regions of the heavy and light chains of anti-CD19 and anti-CD22 antibodies and a modified form of diphtheria toxin as its cytotoxic drug payload. CD19 is a membrane glycoprotein present on the surface of all stages of B-lymphocyte development, and is also expressed on most B-cell mature lymphoma cells and leukemia cells. CD22 is a glycoprotein expressed on B-lineage lymphoid precursors, including precursor acute lymphoblastic leukemia, and often is co-expressed with CD19 on mature B-cell malignancies such as lymphoma.

OXS-1550 targets cancer cells expressing the CD19 receptor or CD22 receptor or both receptors. When OXS-1550 binds to cancer cells, the cancer cells internalize OXS-1550, and are killed due to the action of drug's cytotoxic diphtheria toxin payload. OXS-1550 has demonstrated success in a Phase 1 human clinical trial in patients with relapsed/refractory B-cell lymphoma or leukemia.

Oxis began enrolling patients in a Phase 1/Phase 2 trial of OXS-1550 during the second quarter of 2016. The FDA-approved clinical trial is being conducted at the University of Minnesota's Masonic Cancer Center. There are currently 32 patients who have participated in the clinical trial. The six new patients bring to 32 the number of patients who have participated in the clinical trial. All the new patients are given an approved increased dosage of OXS-1550.

p62/SQSTM1 (Sequestosome-1) Inhibitor Drug Development Program

In humans, the p62/SQSTM1 protein is encoded by the SQSTM1 gene. The p62/SQSTM1 protein is a multifunctional protein involved in autophagy, cell signaling, tumorigenesis, and plays an important role at the crossroad between autophagy and cancer. Cell-cell interactions between multiple myeloma cells and bone marrow stromal cells activate signaling pathways that result in enhanced multiple myeloma cell growth, osteoclast formation, and inhibition of osteoblast differentiation.

Multiple myeloma remains an incurable malignancy with systematic morbidity and a median survival of 3-5 years. Multiple myeloma is characterized by aberrant proliferation of terminally differentiated plasma cells and impairment in apoptosis capacity. Due to the interactions between myeloma cells and cells of the bone marrow microenvironment, the osteolytic bone disease associated with myeloma is inextricably linked with tumor progression. High incidence of bone metastasis in multiple myeloma patients is frequently associated with severe bone pain and pathological bone fracture. Activated osteoclast levels and suppressed osteoblast levels are thought to play a role in multiple myeloma associated osteolytic bone disease.

While a diverse spectrum of novel agents has shown therapeutic potential for the treatment of multiple myeloma including bortezomib, lenalidomide and arsenic trioxide, high relapse rates and drug resistance continue to plague these therapies. Thus, novel targets and new therapeutics for the treatment of multiple myeloma are of critical importance for improved patient outcomes.

It has been demonstrated that the ZZ domain of the p62/SQSTM1 protein is responsible for increased multiple myeloma cell growth and associated osteoclast mediated bone disease. Dr. Xiang-Qun Xie and colleagues at ID4 Pharma LLC have developed novel chemical compounds (e.g., OXS-4235) which inhibit osteoclastic bone destruction in multiple myeloma. Oxis Biotech has exclusively licensed rights to OXS-4135 and other compounds for the treatment of multiple myeloma and associated osteolytic bone disease.

Triple-Negative Breast Cancer Drug Development Program OXS-2175

OXS-2175 is a small molecule therapeutic candidate which has shown promise in early-stage preclinical *in vitro* and *in vivo* models of triple-negative breast cancer. Oxis Biotech is investigating OXS-2175 formulated as an infusible therapy, and as part of an ADC infusible therapy for the treatment of triple-negative breast cancer.

Therapeutic Antibody-Drug Conjugates Drug Development Program

Antibody-drug conjugates (ADCs) are a new class of highly potent biopharmaceutical drugs designed as a targeted therapy for the treatment of cancer. By combining the unique targeting capabilities of monoclonal antibodies with the cancer-killing ability of cytotoxic drugs, antibody-drug conjugates allow sensitive discrimination between healthy and diseased tissue.

Markets

B-cell lymphoma

B-cell lymphoma is a type of cancer that forms in B cells (a type of immune system cell). B-cell lymphomas may be either indolent (slow-growing) or aggressive (fast-growing). Most B-cell lymphomas are non-Hodgkin lymphomas. There are many different types of B-cell non-Hodgkin lymphomas. These include Burkitt lymphoma, chronic lymphocytic leukemia/small lymphocytic lymphoma (CLL/SLL), diffuse large B-cell lymphoma, follicular lymphoma, and mantle cell lymphoma. It is the most common type of non-Hodgkin lymphoma among adults, with an annual incidence of 7–8 cases per 100,000 people per year.

Triple-Negative Breast Cancer (TNBC)

According to the American Cancer Society there were approximately 231,840 new cases of invasive breast cancer last year in the USA and 40,290 deaths from breast cancer during the same period. Women represent 99% of all breast cancer patients. Breast cancer is treated by various combinations of surgery, radiation therapy, chemotherapy, and hormone therapy. TNBC is a type of breast cancer characterized by breast cancer cells that do not express estrogen receptors, progesterone receptors, or large amounts of HER2/neu protein. Approximately 10% - 20% percent of invasive breast cancers are diagnosed as triple-negative breast cancers. TNBC is more likely to affect younger people, African Americans or Hispanics, and those with a BRCA1 gene mutation. TNBC is insensitive to many of the most effective therapies available for the treatment of breast cancer including the HER2-directed therapy Herceptin® (trastuzumab), and endocrine therapies such as tamoxifen or the aromatase inhibitors. The relapse and survival rates of TNBC patients are shorter than for patients with other types of breast cancer.

Multiple Myeloma

Multiple myeloma is a type of cancer that forms in white blood cells, and affects about 26,850 people annually in the USA causing about 11,240 deaths per year. Multiple myeloma causes cancer cells to accumulate in the bone marrow, where they crowd out healthy blood cells. Multiple myeloma is also characterized by destructive lytic bone lesions (rounded, punched-out areas of bone), diffuse osteoporosis, bone pain, and the production of abnormal proteins which accumulate in the urine. Anemia is also present in most multiple myeloma patients at the time of diagnosis and during follow-up. Anemia in multiple myeloma is multifactorial, and is secondary to bone marrow replacement by malignant plasma cells, chronic inflammation, relative erythropoietin deficiency, and vitamin deficiency. Plasma cell leukemia, a condition in which plasma cells comprise greater than 20% of peripheral leukocytes, is typically a terminal stage of multiple myeloma and is associated with short survival.

Manufacturing

We do not currently own or operate manufacturing facilities for the production of clinical or commercial quantities of any of our product candidates. We rely on a small number of third-party manufacturers to produce our compounds, and expect to continue to do so to meet the preclinical and clinical requirements of our potential product candidates as well as for all of our commercial needs. We do not have long-term agreements with any of these third parties. We require in our manufacturing and processing agreements that all third-party contract manufacturers and processors produce active pharmaceutical ingredients, or API, and finished products in accordance with the FDA's current Good Manufacturing Practices, or cGMP, and all other applicable laws and regulations. We maintain confidentiality agreements with potential and existing manufacturers in order to protect our proprietary rights related to our drug candidates.

MultiCell Immunotherapeutics, Inc. (MCIT) License Agreement. Oxis licensed exclusive rights to three antibody-drug conjugates (ADCs) that MCIT will prepare for further evaluation by Oxis as prospective therapeutics for the treatment of triple-negative breast cancer, and multiple myeloma and associated osteolytic bone disease. Under the terms of the agreement, MCIT will develop three ADC product candidates which contain Oxis' lead drug candidates OXS-2175 and OXS-4235. Oxis paid MCIT a license fee of \$500,000 and will reimburse MCIT up to \$1.125 million for its development costs to make the three ADCs exclusively licensed to Oxis. Assuming all clinical development milestones are achieved and manufacturing rights to the three ADCs purchased, Oxis will pay MCIT an additional sum of \$22.75 million and pay a royalty of 3% of net yearly worldwide sales upon marketing approval of the ADCs.

MCIT's ADC platform technology is based on unique multivalent, cleavable linkers that allow drugs tethered to the antibody to be released intracellularly or extracellularly upon binding of the antibody to the target cell. Additionally, the MCIT's ADC technology platform allows multiple drugs to be attached per targeting antibody, and to release the drugs in their original form without modification of the drug.

Research and Development

Expenditures for research and development activities related to continuing operations were \$1,000,000 and \$-0- for the years ended December 31, 2015 and 2014, respectively. During the six months ended June 30, 2016 and 2015, we incurred \$475,000 and \$250,000 of research and development expenses.

Our currently projected expenditures for 2016 include approximately \$4-\$5 million for research and development. The actual cost of our programs could differ significantly from our current projections if we change our planned development process. In the event that actual costs of our clinical program, or any of our other ongoing research activities, are significantly higher than our current estimates, we may be required to significantly modify our planned level of operations.

There is a risk that any drug discovery and development program may not produce revenue because of the risks inherent in drug discovery and development. The successful development of any product candidate is highly uncertain. It is difficult to reasonably estimate or know the nature, timing and costs of the efforts necessary to complete the development of, or the period in which material net cash inflows are expected to commence from any product candidate, due to the numerous risks and uncertainties associated with developing drugs. Any failure to complete any stage of the development of products in a timely manner could have a material adverse effect on our operations, financial position and liquidity.

Competition

The biotechnology and pharmaceutical industries are subject to rapid technological change. Competition from domestic and foreign biotechnology companies, large pharmaceutical companies and other institutions is intense and expected to increase. A number of companies are pursuing the development of pharmaceuticals in our targeted areas. According to the Pharmaceutical Manufacturers Research Association, at the end of 2015 there were 168 drugs in development for the treatment of breast cancer, and there were 135 drugs in development for the treatment of lymphomas (blood cell cancers including multiple myeloma).

Government Regulation

United States

Our research and development activities and the future manufacturing and marketing of any products we develop are subject to significant regulation by numerous government authorities in the United States and other countries. In the United States, the Federal Food, Drug and Cosmetic Act and the Public Health Service Act govern the testing, manufacture, safety, efficacy, labeling, storage, record keeping, approval, advertising and promotion, and distribution of our drug candidates and any products we may develop. In addition, this regulatory framework is subject to changes that may adversely affect approval, delay an application or require additional expenditures.

The steps required before a pharmaceutical compound may be marketed in the United States include: preclinical laboratory and animal testing; submission of an IND to the FDA, which must become effective before clinical trials may commence; conducting adequate and well-controlled clinical trials to establish the safety and efficacy of the drug; submission of a New Drug Application, or NDA, or Biologics License Application, or BLA, to the FDA; satisfactory completion of an FDA pre-approval inspection of the manufacturing facilities to assess compliance with cGMP; and FDA approval of the NDA or BLA prior to any commercial sale or shipment of the drug. In addition to obtaining FDA approval for each product, each drug-manufacturing establishment used must be registered with the FDA and be operated in conformity with cGMP. Drug product manufacturing facilities may also be subject to state and local regulatory requirements.

Preclinical testing includes laboratory evaluation of product chemistry and animal studies to assess the safety and efficacy of the product and its formulation. The results of preclinical testing are submitted to the FDA as part of an IND, and, unless the FDA objects, the IND becomes effective 30 days following its receipt by the FDA.

Clinical trials involve administration of the study drug to healthy volunteers and to patients diagnosed with the condition for which the study drug is being tested under the supervision of qualified clinical investigators. Clinical trials are conducted in accordance with protocols that detail the objectives of the study, the parameters to be used to monitor safety and the efficacy criteria to be evaluated. Each protocol is submitted to the FDA as part of the IND. Each clinical trial is conducted under the auspices of an independent Institutional Review Board, or IRB, in the United States, or Ethics Committee, or EC, outside the United States, for each trial site. The IRB or EC considers, among other matters, ethical factors and the safety of human clinical trial subjects.

Clinical trials are typically conducted in three sequential phases, but the phases may overlap or be repeated. In Phase 1 clinical trials, the drug is initially introduced into healthy human subjects or patients and is tested for adverse effects, dosage tolerance, pharmacokinetics, and clinical pharmacology. Phase 2 clinical trials involve the testing of a limited patient population in order to characterize the actions of the drug in targeted indications, in order to determine drug tolerance and optimal dosage and to identify possible adverse side effects and safety risks. When a compound appears to be effective at a specific dosage and have an acceptable safety profile in Phase 2 clinical trials, Phase 3 clinical trials are undertaken to further evaluate and confirm clinical efficacy and safety within an expanded patient population at multiple clinical trial sites. The FDA reviews the clinical plans and monitors the results of the trials and may discontinue the trials at any time if significant safety issues arise. Similarly, an IRB or EC may suspend or terminate a trial at a study site that is not being conducted in accordance with the IRB or EC's requirements or that has been associated with unexpected serious harm to subjects.

The results of preclinical testing and clinical trials are submitted to the FDA for marketing approval in the form of an NDA or BLA. The submission of an NDA or BLA also requires the payment of user fees, but a waiver of the fees may be obtained under specified circumstances. The testing and approval process is likely to require substantial time, effort and resources and there can be no assurance that any approval will be granted on a timely basis, if at all, or that conditions of any approval, such as warnings, contraindications, or scope of indications will not materially impact the potential market acceptance and profitability of the drug product. Data obtained from clinical trials are not always conclusive, and the FDA may interpret data differently than we interpret the same data. The FDA may refer the application to an advisory committee for review, evaluation and recommendation as to whether the application should be approved and under what conditions. The FDA is not bound by the recommendations of an advisory committee, but it generally follows such recommendations. The approval process is affected by a number of factors, including the severity of the disease, the availability of alternative treatments and the risks and benefits of the product demonstrated in clinical trials.

Additional preclinical testing or clinical trials may be requested during the FDA review period and may delay any marketing approval. After FDA approval for the initial indications, further clinical trials may be necessary to gain approval for the use of the product for additional indications. In addition, after approval, certain types of changes to the approved product, such as manufacturing changes, are subject to further FDA review and approval. The FDA mandates that adverse effects be reported to the FDA, and the regulatory agency may also require post-marketing testing to continue monitoring for expected and unexpected adverse effects, which can involve significant expense. Adverse effects observed during the commercial use of a drug product or which arise in the course of post-marketing studies can result in the need for labeling revisions, including additional warnings and contraindications; and if the findings significantly alter the risk/benefit assessment, the potential withdrawal of the drug from the market.

Among the conditions for FDA approval is the requirement that the prospective manufacturer's quality control and manufacturing procedures conform to the FDA's cGMP requirements. Domestic manufacturing facilities are subject to biannual FDA inspections and foreign manufacturing facilities are subject to periodic inspections by the FDA or foreign regulatory authorities. If the FDA finds that a company is not operating in compliance with cGMPs, the continued availability of the product can be interrupted until compliance is achieved; and if the deficiencies are not corrected within a reasonable time frame, the drug could be withdrawn from the market. In addition, the FDA strictly regulates labeling, advertising and promotion of drugs. Failure to conform to requirements relating to licensing, manufacturing and promoting drug products can result in informal or formal sanctions, including warning letters, injunctions, seizures, civil and criminal penalties, adverse publicity and withdrawal of approval.

Foreign

We are also subject to numerous and varying foreign regulatory requirements governing the design and conduct of clinical trials and marketing approval for pharmaceutical products to be marketed outside of the United States. The approval process varies among countries and regions and can involve additional testing; and the time required to obtain approval may differ from that required to obtain FDA approval.

The steps to obtain approval to market a pharmaceutical compound in the European Union include: preclinical laboratory and animal testing; conducting adequate and well-controlled clinical trials to establish safety and efficacy; submission of a Marketing Authorization Application, or MAA; and the issuance of a product marketing license by the European Commission prior to any commercial sale or shipment of drug. In addition to obtaining a product marketing license for each product, each drug manufacturing establishment must be registered with the European Medicines Agency, or EMA, must operate in conformity with European good manufacturing practice and must pass inspections by the European health authorities.

Upon receiving the MAA, the Committee for Human Medicinal Products, or CHMP, a division of the EMA, will review the MAA and may respond with a list of questions or objections. Answers to questions posed by the CHMP may require additional tests to be conducted. Responses to the list of questions or objections must be provided to and deemed sufficient by the CHMP within a defined time frame. Ultimately, a representative from each of the European Member States will vote whether to approve the MAA.

Foreign regulatory approval processes include all of the risks associated with obtaining FDA approval, and approval by the FDA does not ensure approval by the health authorities of any other country.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

Until the end of 2008, we were engaged in the business of developing and selling clinical and research assay products and out-licensing certain therapeutic compounds addressing conditions and diseases associated with oxidative stress. During 2008, we lost our majority-owned subsidiary, BioCheck, Inc., which was engaged in the production of enzyme immunoassay diagnostic kits for clinical laboratories, and in December 2008 we sold substantially all of the assets of our research assay product line to Percipio Biosciences, Inc. Commencing in 2009, our focus shifted from the clinical and research assay business to developing and marketing nutraceutical products in the field of oxidative stress reduction, with a focus on products that include EGT™ as a component. We conducted limited operations, and had limited revenues from these products in 2013 and in 2014. In July 2014, we began pursuing the acquisition of novel therapeutics from various educational and research institutions.

As shown in the accompanying consolidated financial statements, the Company has incurred an accumulated deficit of \$119,190,000 through June 30, 2016. On a consolidated basis, the Company had cash and cash equivalents of \$355,000 at June 30, 2016. Because our lack of funds, we will have to raise additional capital in order to fund our selling, general and administrative, and research and development expenses. There are no assurances that we will be able to raise the funds necessary to maintain our operations or to implement our business plan. The consolidated financial statements included in this Annual Report do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event we cannot continue our operations.

Recent Developments

License Agreements

Pursuant to a patent license agreement with the ID4, dated December 31, 2015, we received a non-exclusive, worldwide license to certain intellectual property, including intellectual property related to treating a p62-mediated disease (e.g., multiple myeloma).

On March 10, 2015, Oxis licensed exclusive rights to three antibody-drug conjugates (ADCs) that MCIT will prepare for further evaluation by Oxis as prospective therapeutics for the treatment of triple-negative breast cancer, and multiple myeloma and associated osteolytic bone disease. Under the terms of the agreement, MCIT will develop three ADC product candidates which contain Oxis' lead drug candidates OXS-2175 and OXS-4235.

In September 2015, Oxis executed an exclusive worldwide license agreement with Daniel A. Critical Accounting Policies

We consider the following accounting policies to be critical given they involve estimates and judgments made by management and are important for our investors' understanding of our operating results and financial condition.

Basis of Consolidation

The consolidated financial statements contained in this report include the accounts of OXIS International, Inc. and its subsidiaries. All intercompany balances and transactions have been eliminated.

Revenue Recognition

Product Revenue

The Company manufactures, or has manufactured on a contract basis, fine chemicals and nutraceutical products, which are its primary products to be sold to customers. Revenue from the sale of its products, including shipping fees, will be recognized when title to the products is transferred to the customer which usually occurs upon shipment or delivery, depending upon the terms of the sales order and when collectability is reasonably assured. Revenue from sales to distributors of its products will be recognized, net of allowances, upon delivery of product to the distributors. According to the terms of individual distributor contracts, a distributor may return product up to a maximum amount and under certain conditions contained in its contract. Allowances are calculated based upon historical data, current economic conditions and the underlying contractual terms.

Long-Lived Assets

Our long-lived assets include property, plant and equipment, capitalized costs of filing patent applications and goodwill and other assets. We evaluate our long-lived assets for impairment in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Estimates of future cash flows and timing of events for evaluating long-lived assets for impairment are based upon management's judgment. If any of our intangible or long-lived assets are considered to be impaired, the amount of impairment to be recognized is the excess of the carrying amount of the assets over its fair value.

Applicable long-lived assets are amortized or depreciated over the shorter of their estimated useful lives, the estimated period that the assets will generate revenue, or the statutory or contractual term in the case of patents. Estimates of useful lives and periods of expected revenue generation are reviewed periodically for appropriateness and are based upon management's judgment. Goodwill and other assets are not amortized.

Certain Expenses and Liabilities

On an ongoing basis, management evaluates its estimates related to certain expenses and accrued liabilities. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of liabilities that are not readily apparent from other sources. Actual results may differ materially from these estimates under different assumptions or conditions.

Derivative Financial Instruments

During the normal course of business, from time to time, we issue warrants as part of a debt or equity financing. We do not enter into any derivative contracts for speculative purposes. We recognize all derivatives as assets or liabilities measured at fair value with changes in fair value of derivatives reflected as current period income or loss unless the derivatives qualify for hedge accounting and are accounted for as such. During the six months ended June 30, 2016 and 2015, we issued warrants to purchase 3,475,111 and 376,000 shares of common stock, respectively, in connection with equity transactions. In accordance with ASC Topic 815-40, "Derivatives and Hedging — Contracts in Entity's Own Stock" ("ASC 815-40"), the value of these warrants is required to be recorded as a liability, as the holders have an option to put the warrants back to us in certain events, as defined.

Inflation

We believe that inflation has not had a material adverse impact on our business or operating results during the periods presented.

Off-balance Sheet Arrangements

We have no off-balance sheet arrangements as of June 30, 2016.

Holders of our common stock are entitled to one vote for each share of common stock held of record for the election of directors and on all matters submitted to a vote of stockholders. Holders of our common stock are entitled to receive dividends ratably, if any, as may be declared by our board of directors out of legally available funds, subject to any preferential dividend rights of any preferred stock then outstanding. In the event of our dissolution, liquidation or winding up, holders of our common stock are entitled to share ratably in our net assets legally available after the payment of all of our debts and other liabilities, subject to the liquidation preferences of any preferred stock then outstanding. Holders of our common stock have no preemptive, subscription, redemption or conversion rights. The rights, preferences and privileges of holders of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future. All outstanding shares of our common stock are fully paid and nonassessable. Except as described below in "Anti-Takeover Effects of Delaware Law Provisions of Our Amended and Restated Certificate of Incorporation and Our Amended and Restated By-Laws," a majority vote of common stockholders is generally required to take action under our amended and restated certificate of incorporation and amended and restated by-laws.

Preferred Stock

Our board of directors is authorized, without action by the stockholders, to designate and issue up to 15,000,000 shares of preferred stock in one or more series. In the past the board has designated series lettered A through I and issued shares in those series. As of the date of this prospectus, only preferred shares in the series designated C, H, and I have shares issued and outstanding. In connection with this Offering, the board has recently designated series J which is being offered in the Offering as part of the B Units. Our board of directors can fix or alter the rights, preferences and privileges of the shares of each series and any of its qualifications, limitations or restrictions, including dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences and the number of shares constituting a class or series. The issuance of preferred stock could, under certain circumstances, result in one or more of the following adverse effects:

- decreasing the market price of our common stock;
- restricting dividends on our common stock;
- diluting the voting power of our common stock;
- impairing the liquidation rights of our common stock; or
- delaying or preventing a change in control of us without further action by our stockholders.

Our board of directors will make any determination to issue such shares based on its judgment as to our best interests and the best interests of our stockholders. We have no current plans to issue any shares of preferred stock.

Series C

The 96,230 shares of Series C preferred stock are convertible into 111 shares of the Company's common stock at the option of the holders at any time. The conversion ratio is based on the average closing bid price of the common stock for the fifteen consecutive trading days ending on the date immediately preceding the date notice of conversion is given, but cannot be less than .20 or more than .2889 common shares for each Series C preferred share. The conversion ratio may be adjusted under certain circumstances such as stock splits or stock dividends. The Company has the right to automatically convert the Series C preferred stock into common stock if the Company lists its shares of common stock on the Nasdaq National Market and the average closing bid price of the Company's common stock on the Nasdaq National Market for 15 consecutive trading days exceeds \$3,000.00. Each share of Series C preferred stock is entitled to the number of votes equal to .26 divided by the average closing bid price of the Company's common stock during the fifteen consecutive trading days immediately prior to the date such shares of Series C preferred stock were purchased. In the event of liquidation, the holders of the Series C preferred stock shall participate on an equal basis with the holders of the common stock (as if the Series C preferred stock had converted into common stock) in any distribution of any of the assets or surplus funds of the Company. The holders of Series C preferred stock are entitled to noncumulative dividends if and when declared by the Company's board of directors. No dividends to Series C preferred stockholders were issued or unpaid through June 30, 2016.

Series H

Effective February 10, 2010, the Company issued 25,000 shares of its new Series H Convertible Preferred Stock (the "Series H Preferred") in exchange for the 25,000 shares of Series G Stock

The Certificate of Designation of the Series H Preferred is based on, and substantially similar to the form and substance of the Certificate of Designation of the Series G Preferred. Some of the corrections, changes and differences between the Certificate of Designation of the Series G Preferred and the Certificate of Designation of the Series H Preferred include the following:

- As previously disclosed, the holder of the Series H Preferred is entitled to vote with the common stock, and is entitled to a number of votes equal to (i) the number of shares of common stock it can convert into (without any restrictions or limitations on such conversion), (ii) multiplied by 100.
- The holder of the Series H Preferred cannot convert such preferred stock into shares of common stock if the holder and its affiliates after such conversion would own more than 9.9% of the Company's then issued and outstanding shares of common stock.
- The Series G Preferred contained a limitation that the holder of the Series G Preferred could not convert such preferred shares into more than 19.999% of the issued and outstanding shares of common stock without the approval of the stockholders if the rules of the principal market on which the common stock is traded would prohibit such a conversion. Since the rules of the Company's principal market did not require such a limitation, that provision has been deleted.

Series I

The holder of the Series I Preferred Stock is entitled to receive, out of funds legally available, dividends in cash at the annual rate of 8.0% of the Preference Amount (\$0.15), when, as, and if declared by the Board. No dividends or other distributions shall be made with respect to any shares of junior stock until dividends in the same amount per share on the Series I Preferred Stock shall have been declared and paid or set apart during that fiscal year. Dividends on the Series I Preferred Stock are not cumulative and no right accrues to the Series I Preferred Stock by reason of the fact that the Company may fail to declare or pay dividends on the Series I Preferred Stock in the amount of the Dividend Rate per share or in any amount in any previous fiscal year of the Company, whether or not the earnings of the Company in that previous fiscal year were sufficient to pay such dividends in whole or in part.

Each share of Series I Preferred Stock entitles the holder thereof to such number of votes per share as shall equal the number of shares of Common Stock (rounded to the nearest whole number) into which such share of Series I Preferred Stock is then convertible.

Upon any liquidation of the Company, subject to the rights of any series of Preferred Stock that may from time to time come into existence, before any distribution or payment shall be made to the holders of any Junior Stock, the holders of the shares of Series I Preferred Stock then outstanding are entitled to receive and be paid out of the assets of the Company legally available for distribution to its stockholders liquidating distributions in cash or property at its fair market value as determined by the Board in the amount of \$0.15 per share (as adjusted for any stock dividends, combinations or splits with respect to such shares).

Shares of Series I Preferred Stock may, at the option of the holder thereof, be converted at any time or from time to time into fully paid and non-assessable shares of Common Stock. The number of shares of Common Stock which a holder of shares of Series I Preferred Stock shall be entitled to receive upon conversion of such shares shall be the product obtained by multiplying the Conversion Rate by the number of shares of Series I Preferred Stock being converted. Initially, the Series I Preferred Stock is convertible into 6,667 shares of common stock.

In the event that the per-share Market Price of the Common Stock over a period of 20 consecutive trading days is equal to at least 130% of the initial conversion price (130% of \$0.15), all outstanding shares of Series I Preferred Stock shall be converted automatically into the number of shares of Common Stock into which such shares of Series I Preferred Stock are then convertible without any further action by the holders of such shares and whether or not the certificates representing such shares of Series I Preferred Stock are surrendered to the Company or its transfer agent.

As of the date of this prospectus, there are 1,666,667 shares of Series I Preferred Stock issued and outstanding.

Class B Units consist of one share of our Class J Convertible Preferred Stock with a stated value of \$1,000 and convertible into shares of our common stock at the public offering price of the Class A Units, together with the equivalent number of Series A warrants as would have been issued to such purchaser if they had purchased Class A Units based on the public offering price. The shares of common stock and Series A warrant part of a Class A Unit and the Series J Preferred, and Series A warrant part of a Class B Unit are each immediately separable and will be issued separately in this offering.

Common Stock

The material terms of our common stock are described in the section of this prospectus titled "Description of Capital Stock" beginning on page 29 of this prospectus.

Series J Convertible Preferred Stock

The following summary of certain terms and provisions of our Series J Preferred Stock offered in this offering is subject to, and qualified in its entirety by reference to, the terms and provisions set forth in our certificate of designation of preferences, rights and limitations of Series J Convertible Preferred Stock.

General. Our certificate of incorporation authorizes our board of directors to issue up to 15,000,000 shares of our preferred stock, par value \$0.001 per share of which 1,787,897 are issued and outstanding.

Subject to the limitations prescribed by our certificate of incorporation, our board of directors is authorized to establish the number of shares constituting each series of preferred stock and to fix the designations, powers, preferences and rights of the shares of each of those series and the qualifications, limitations and restrictions of each of those series, all without any further vote or action by our stockholders. Our board of directors has designated 13,000,000 of the 15,000,000 authorized shares of preferred stock as Series J Preferred Stock. When issued, the shares of Series J Preferred Stock will be validly issued, fully paid and non-assessable.

Rank. The Series J Preferred Stock will rank:

- senior to all of our common stock to the extent of its liquidation preference of \$0.001 per share;
- senior to any class or series of our capital stock hereafter created specifically ranking by its terms junior to the Series J Preferred Stock to the extent of its liquidation preference of \$0.001 per share;
- on parity to any class or series of our capital stock hereafter created specifically ranking by its terms on parity with the Series J Preferred Stock.

Conversion. Each share of the Series J Preferred Stock is convertible into ten shares of our common stock (subject to adjustment as provided in the related certificate of designation of preferences) at any time at the option of the holder, provided that the holder will be prohibited from converting Series J Preferred Stock into shares of our common stock if, as a result of such conversion, the holder, together with its affiliates, would own more than 4.99% of the total number of shares of our common stock then issued and outstanding. However, any holder may increase or decrease such percentage to any other percentage not in excess of 9.99%, provided that any increase in such percentage shall not be effective until 61 days after such notice to us.

Liquidation Preference. In the event of our liquidation, dissolution or winding up, holders of the Series J Preferred Stock will receive a payment equal to \$0.001 per share of Series J Preferred Stock before any proceeds are distributed to the holders of our common stock. Following the payment described in the preceding sentence, the holders of the Series J Preferred Stock will participate, on an as-if-converted-to-common stock basis, in any distributions to the holders of common stock.

Voting Rights. Shares of Series J Preferred Stock will generally have no voting rights, except as required by law and except that the consent of the holders of the outstanding Series J Preferred Stock will be required to amend any provision of our certificate of incorporation that would have a materially adverse effect on the rights of the holders of the Series J Preferred Stock.

Dividends. Shares of Series J Preferred Stock will not be entitled to receive any dividends, unless and until specifically declared by our board of directors. The holders of the Series J Preferred Stock will participate, on an as-if-converted-to-common stock basis, in any dividends to the holders of common stock.

Redemption. We are not obligated to redeem or repurchase any shares of Series J Preferred Stock. Shares of Series J Preferred Stock are not otherwise entitled to any redemption rights or mandatory sinking fund or analogous fund provisions.

Restrictive Covenant. We are restricted from selling equity securities for the first 60 days following the closing, subject to certain exceptions.

Warrants to Purchase Common Stock

The material terms of the Series A warrants to be issued are summarized below. This summary does not purport to be complete in all respects. This description is subject to and qualified entirely by the terms of the form of warrant filed as an exhibit to the registration statement of which this prospectus is a part.

The Series A warrants to be issued with each Unit will have an exercise price of \$ per share (equal to the public offering price of the Class A Units) and will be exercisable from their date of issuance and at any time up to the date that is five years after their original date of issuance.

The Series A warrants may not be exercised by the holder to the extent that the holder, together with its affiliates, would beneficially own, after such exercise more than 4.99% of the shares of common stock then outstanding (subject to the right of the holder to increase or decrease such beneficial ownership limitation upon notice to us, provided that such limitation cannot exceed 9.99%) and provided that any increase in the beneficial ownership limitation shall not be effective until 61 days after such notice is delivered.

The warrants are exercisable for cash or, solely in the absence of an effective registration statement or prospectus, by cashless exercise.

The exercise price of the warrants is subject to adjustment in the case of stock dividends or other distributions on shares of common stock or any other equity or equity equivalent securities payable in shares of common stock, stock splits, stock combinations, reclassifications or similar events affecting our common stock, and also, subject to limitations, upon any distribution of assets, including cash, stock or other property to our stockholders.

Prior to the exercise of any warrants to purchase common stock, holders of the warrants will not have any of the rights of holders of the common stock purchasable upon exercise, including voting rights, however, the holders of the warrants will have certain rights to participate in distributions or dividends paid on our common stock to the extent set forth in the warrants.

In addition, the warrants provide that if, at any time while such warrants are outstanding, we (1) consolidate or merge with or into another corporation, (2) sell all or substantially all of our assets or (3) are subject to or complete a tender or exchange offer pursuant to which holders of our common stock are permitted to tender or exchange their shares for other securities, cash or property and has been accepted by the holders of 50% or more of the outstanding Common Stock, (4) effect any reclassification, reorganization or recapitalization of our common stock or any compulsory share exchange pursuant to which our common stock is converted into or exchanged for other securities, cash or property, or (5) engage in one or more transactions with another party that results in that party acquiring more than 50% of our outstanding shares of common stock (each, a "Fundamental Transaction"), then the holder of such warrants shall have the right thereafter to receive, upon exercise of the warrant, the same amount and kind of securities, cash or property as it would have been entitled to receive upon the occurrence of such Fundamental Transaction if it had been, immediately prior to such Fundamental Transaction, the holder of the number of warrant shares then issuable upon exercise of the warrant, and any additional consideration payable as part of the Fundamental Transaction. Any successor to us or surviving entity shall assume the obligations under the warrant.

The provisions of the Series A warrants may be amended if we obtain the written consent of holders representing not less than a majority of shares of our common stock then exercisable under the Series A warrants collectively (in which case such amendments shall be binding on all holders of the warrants). However, the number of shares of our common stock exercisable, the exercise price or the exercise period may not be amended without the written consent of the holder of each such warrant.

We do not plan on applying to list the Series J Preferred or any of the warrants on the NASDAQ Capital Market, any other national securities exchange or any other nationally recognized trading system.

PLAN OF DISTRIBUTION

We engaged H.C. Wainwright & Co., LLC ("Wainwright" or the "placement agent") to act as our exclusive placement agent to solicit offers to purchase the securities offered by this prospectus. Wainwright is not purchasing or selling any securities, nor are they required to arrange for the purchase and sale of any specific number or dollar amount of securities, other than to use their "reasonable best efforts" to arrange for the sale of Units by us. Therefore, we may not sell the entire amount of Units being offered. We intend to offer and sell the securities offered hereby to institutional investors in certain states. However, we will not make any offer of these securities in any jurisdiction where the offer is not permitted or exempted. We will enter into a securities purchase agreement directly with certain institutional investors who purchase our securities in this offering. We will not enter into securities purchase agreements with all other investors and such investors shall rely solely on this prospectus in connection with the purchase of our securities in this offering. Wainwright may engage one or more sub-placement agents or selected dealers to assist with the offering.

Upon the closing of this offering, we will pay the placement agent a cash transaction fee equal to 8.0% of the gross proceeds to us from the sale of the Units in the offering and we will issue to the placement agent the Placement Agent Warrants as outlined below.

The following table shows the per Unit and total placement agent fees we will pay in connection with the sale of the securities in this offering, assuming the purchase of all of the securities we are offering.

Per Class A Unit	\$
Per Class B Unit	\$
Total	\$

We estimate the total expenses of this offering, which will be payable by us, excluding the placement agent fees, will be approximately \$71,000. After deducting the fees due to the placement agent and our estimated offering expenses, we expect the net proceeds from this offering to be approximately \$8,979,000.

In addition, we to issue Wainwright on August 5, 2016, 1,000,000 shares of Common Stock (the "Shares"). We will also reimburse the placement agent for its accountable expenses incurred in connection with the offering, including up to \$100,000 for legal fees and expenses, up to \$15,000 for road show expenses, up to \$4,000 per background checks on individuals, not to exceed \$20,000 in the aggregate, up to \$5,000 for tombstone and other advertising efforts, and up to \$10,000 of the fees and expenses of the placement agent's clearing firm.

Subject to certain conditions, we granted to the placement agent in this offering, for a period of twelve months after the date of effectiveness of this registration statement, a right of first refusal to act as lead underwriter, financial advisor or agent in connection with any offering of equity or debt securities, any financing or refinancing of indebtedness or any merger, acquisition or disposition transaction.

Also, we agreed to grant compensation warrants to the placement agent (the "Placement Agent Warrants") to purchase a number of shares of our common stock equal to 8% of the number of shares of Common Stock sold in this offering (including the number of shares of Common Stock issuable upon conversion of shares of Series J Convertible Preferred Stock but excluding any shares of Common Stock underlying the warrants issued in this offering). The compensation warrants will have an exercise price of \$ _____ (110% of the per share equivalent paid by the investors in this offering) and will terminate on the five year anniversary of the effective date of the registration statement of which this prospectus is a part. Pursuant to FINRA Rule 5110(g), the compensation warrants and any shares issued upon exercise of the compensation warrants shall not be sold, transferred, assigned, pledged, or hypothecated, or be the subject of any hedging, short sale, derivative, put, or call transaction that would result in the effective economic disposition of the securities by any person for a period of 180 days immediately following the date of effectiveness or commencement of sales of this offering, except the transfer of any security:

- by operation of law or by reason of reorganization of our company;
- to any FINRA member firm participating in the offering and the officers or partners thereof, if all securities so transferred remain subject to the lock-up restriction set forth above for the remainder of the time period;
- if the aggregate amount of securities of our company held by the holder of the compensation warrants or related persons do not exceed 1% of the securities being offered;
- that is beneficially owned on a pro-rata basis by all equity owners of an investment fund, provided that no participating member manages or otherwise directs investments by the fund, and participating members in the aggregate do not own more than 10% of the equity in the fund; or
- the exercise or conversion of any security, if all securities received remain subject to the lock-up restriction set forth above for the remainder of the time period.

The placement agent may be deemed to be an underwriter within the meaning of Section 2(a)(11) of the Securities Act and any fees received by it and any profit realized on the sale of the securities by it while acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. The placement agent will be required to comply with the requirements of the Securities Act and the Exchange Act of 1934, as amended (the "Exchange Act"), including, without limitation, Rule 10b-5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of our securities by the placement agent. Under these rules and regulations, the placement agent may not (i) engage in any stabilization activity in connection with our securities; and (ii) bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities,

other than as permitted under the Exchange Act, until they have completed their participation in the distribution.

1. The Company and Summary of Significant Accounting Policies

OXIS International, Inc. (collectively, "OXIS" or the "Company") is engaged in discovering, developing and commercializing novel therapeutics from our proprietary product platform in a broad range of disease areas. Currently, OXIS develops innovative drugs focused on the treatment of cancer. OXIS' lead drug candidate, OXS-2175, is a small molecule therapeutic candidate targeting the treatment of triple-negative breast cancer. In *in vitro* and *in vivo* models of TNBC, OXS-2175 demonstrated the ability to inhibit metastasis. OXIS' lead drug candidate, OXS-4235, also a small molecule therapeutic candidate, targets the treatment of multiple myeloma and associated osteolytic lesions. In *in vitro* and *in vivo* models of multiple myeloma, OXS-4235 demonstrated the ability to kill multiple myeloma cells, and decrease osteolytic lesions in bone. OXIS' lead drug candidate, OXS-1550, is a bispecific scFv recombinant fusion protein-drug conjugate composed of the variable regions of the heavy and light chains of anti-CD19 and anti-CD22 antibodies and a modified form of diphtheria toxin as its cytotoxic drug payload. OXS-1550 has demonstrated success in early human clinical trials in patients with relapsed/refractory B-cell lymphoma or leukemia.

In 1965, the corporate predecessor of OXIS, Diagnostic Data, Inc. was incorporated in the State of California. Diagnostic Data changed its incorporation to the State of Delaware in 1972; and changed its name to DDI Pharmaceuticals, Inc. in 1985. In 1994, DDI Pharmaceuticals merged with International BioClinical, Inc. and Bioxytech S.A. and changed its name to OXIS International, Inc.

Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the U.S. ("U.S. GAAP") and the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"). Certain information and disclosures required by U.S. GAAP for complete consolidated financial statements have been condensed or omitted herein. The interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Form 10-K for the year ended December 31, 2015. The unaudited interim condensed consolidated financial information presented herein reflects all normal adjustments that are, in the opinion of management, necessary for a fair statement of the financial position, results of operations and cash flows for the periods presented. The Company is responsible for the unaudited interim consolidated financial statements included in this report. The results of operations of any interim period are not necessarily indicative of the results for the full year.

Going Concern

As shown in the accompanying consolidated financial statements, the Company has incurred an accumulated deficit of \$118,190,000 through June 30, 2016. On a consolidated basis, the Company had cash and cash equivalents of \$355,000 at June 30, 2016. The Company's plan is to raise additional capital until such time that the Company generates sufficient revenues to cover its cash flow needs and/or it achieves profitability. However, the Company cannot assure that it will accomplish this task and there are many factors that may prevent the Company from reaching its goal of profitability.

The current rate of cash usage raises substantial doubt about the Company's ability to continue as a going concern, absent any sources of significant cash flows. In an effort to mitigate this near-term concern the Company intends to seek additional equity or debt financing to obtain sufficient funds to sustain operations. However, the Company cannot provide assurance that it will successfully obtain equity or debt or other financing, if any, sufficient to finance its goals or that the Company will generate future product related revenues. The Company's financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event that the Company cannot continue in existence.

Basis of Consolidation and Comprehensive Income

The accompanying consolidated financial statements include the accounts of OXIS International, Inc. and its subsidiaries. All intercompany balances and transactions have been eliminated. The Company's financial statements are prepared using the accrual method of accounting.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

Concentrations of Credit Risk

The Company's cash and cash equivalents, marketable securities and accounts receivable are monitored for exposure to concentrations of credit risk. The Company maintains substantially all of its cash balances in a limited number of financial institutions. The balances are each insured by the Federal Deposit Insurance Corporation up to \$250,000. The Company does not have balances in excess of this limit at June 30, 2016.

Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, restricted cash, accounts receivable, inventory, accounts payable and accrued expenses approximate fair value because of the short-term nature of these instruments. The fair value of debt is based upon current interest rates for debt instruments with comparable maturities and characteristics and approximates the carrying amount.

Stock Based Compensation to Other than Employees

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with ASC 718. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably determinable. The value of equity instruments issued for consideration other than employee services is determined on the earlier of a performance commitment or completion of performance by the provider of goods or services. In the case of equity instruments issued to consultants, the fair value of the equity instrument is recognized over the term of the consulting agreement.

Impairment of Long Lived Assets

The Company's long-lived assets currently consist of capitalized patents. The Company evaluates its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. If any of the Company's long-lived assets are considered to be impaired, the amount of impairment to be recognized is equal to the excess of the carrying amount of the assets over the fair value of the assets.

Income Taxes

The Company accounts for income taxes using the asset and liability approach, whereby deferred income tax assets and liabilities are recognized for the estimated future tax effects, based on current enacted tax laws, of temporary differences between financial and tax reporting for current and prior periods. Deferred tax assets are reduced, if necessary, by a valuation allowance if the corresponding future tax benefits may not be realized.

Net Income (Loss) per Share

Basic net income (loss) per share is computed by dividing the net loss for the period by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share is computed by dividing the net loss for the period by the weighted average number of common shares outstanding during the period, plus the potential dilutive effect of common shares issuable upon exercise or conversion of outstanding stock options and warrants during the period. The weighted average number of potentially dilutive common shares excluded from the calculation of net income (loss) per share totaled in 12,900,521 and 1,677,144 as of June 30, 2016 and 2015, respectively.

Patents

Acquired patents are capitalized at their acquisition cost or fair value. The legal costs, patent registration fees and models and drawings required for filing patent applications are capitalized if they relate to commercially viable technologies. Commercially viable technologies are those technologies that are projected to generate future positive cash flows in the near term. Legal costs associated with patent applications that are not determined to be commercially viable are expensed as incurred. All research and development costs incurred in developing the patentable idea are expensed as incurred. Legal fees from the costs incurred in successful defense to the extent of an evident increase in the value of the patents are capitalized.

Capitalized cost for pending patents are amortized on a straight-line basis over the remaining twenty year legal life of each patent after the costs have been incurred. Once each patent is issued, capitalized costs are amortized on a straight-line basis over the shorter of the patent's remaining statutory life, estimated economic life or ten years.

Fixed Assets

Fixed assets are stated at cost. Depreciation is computed on a straight-line basis over the estimated useful lives of the assets, which are 3 to 10 years for machinery and equipment and the shorter of the lease term or estimated economic life for leasehold improvements.

Fair Value

The carrying amounts reported in the balance sheets for receivables and current liabilities each qualify as financial instruments and are a reasonable estimate of fair value because of the short period of time between the origination of such instruments and their expected realization and their current market rate of interest. The three levels are defined as follows:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets. The Company's Level 1 assets include cash equivalents, primarily institutional money market funds, whose carrying value represents fair value because of their short-term maturities of the investments held by these funds.
- Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. The Company's Level 2 liabilities consist of liabilities arising from the issuance of convertible securities and in accordance with ASC 815-40: a warrant liability for detachable warrants, as well as an accrued derivative liability for the beneficial conversion feature. These liabilities are remeasured each reporting period. Fair value is determined using the Black-Scholes valuation model based on observable market inputs, such as share price data and a discount rate consistent with that of a government-issued security of a similar maturity.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Research and Development

Research and development costs are expensed as incurred and reported as research and development expense. Research and development costs totaling \$475,000 and \$250,000 for the six months ended June 30, 2016 and 2015, respectively.

Revenue Recognition

License Revenue

License arrangements may consist of non-refundable upfront license fees, exclusive licensed rights to patented or patent pending technology, and various performance or sales milestones and future product royalty payments. Some of these arrangements are multiple element arrangements.

Non-refundable, up-front fees that are not contingent on any future performance by us, and require no consequential continuing involvement on our part, are recognized as revenue when the license term commences and the licensed data, technology and/or compound is delivered. We defer recognition of non-refundable upfront fees if we have continuing performance obligations without which the technology, right, product or service conveyed in conjunction with the non-refundable fee has no utility to the licensee that is separate and independent of our performance under the other elements of the arrangement. In addition, if we have continuing involvement through research and development services that are required because our know-how and expertise related to the technology is proprietary to us, or can only be performed by us, then such up-front fees are deferred and recognized over the period of continuing involvement.

Payments related to substantive, performance-based milestones in a research and development arrangement are recognized as revenue upon the achievement of the milestones as specified in the underlying agreements when they represent the culmination of the earnings process.

Use of Estimates

The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the financial statements. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities revenues and expenses and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

2. Debt

Convertible debentures

On October 25, 2006, the Company entered into a securities purchase agreement ("2006 Purchase Agreement") with four accredited investors (the "2006 Purchasers"). In conjunction with the signing of the 2006 Purchase Agreement, the Company issued secured convertible debentures ("2006 Debentures") and Series A, B, C, D, and E common stock warrants ("2006 Warrants") to the 2006 Purchasers, and the parties also entered into a security agreement (the "2006 Security Agreement") pursuant to which the Company agreed to grant the 2006 Purchasers, *pari passu*, a security interest in substantially all of the Company's assets.

Pursuant to the terms of the 2006 Purchase Agreement, the Company issued the 2006 Debentures in an aggregate principal amount of \$1,694,250 to the 2006 Purchasers. The 2006 Debentures are subject to an original issue discount of 20.318% resulting in proceeds to the Company of \$1,350,000 from the transaction. The 2006 Debentures were due on October 25, 2008. The 2006 Debentures are convertible, at the option of the 2006 Purchasers, at any time prior to payment in full, into shares of common stock of the Company. As a result of the full ratchet anti-dilution provision the current conversion price is \$2.50 per share (the "2006 Conversion Price"). Beginning on the first of the month beginning February 1, 2007, the Company was required to amortize the 2006 Debentures in equal installments on a monthly basis resulting in a complete repayment by the maturity date (the "Monthly Redemption Amounts"). The Monthly Redemption Amounts could have been paid in cash or in shares, subject to certain restrictions. If the Company chose to make any Monthly Redemption Amount payment in shares of common stock, the price per share would have been the lesser of the Conversion Price then in effect and 85% of the weighted average price for the 10-trading days prior to the due date of the Monthly Redemption Amount. The Company did not make any of the required monthly redemption payments.

Pursuant to the provisions of the 2006 Debentures, such non-payment was an event of default and penalty interest has accrued on the unpaid redemption balance at an interest rate equal to the lower of 18% per annum and the maximum rate permitted by applicable law. In addition, each of the 2006 Purchasers has the right to accelerate the cash repayment of at least 130% of the outstanding principal amount of the 2006 Debenture (plus accrued but unpaid liquidated damages and interest) and to sell substantially all of the Company's assets pursuant to the provisions of the 2006 Security Agreement to satisfy any such unpaid balance. On June 6, 2008, the Company received notification from Bristol Investment Fund, Ltd ("Bristol"), that the collateral held under the 2006 Security Agreement would be sold to the highest qualified bidder on Thursday, June 19, 2008. On June 19, 2008, the Company received a Notice of Disposition of Collateral from Bristol in which Bristol notified the Company that Bristol, acting as the agent for itself and the three other 2006 Purchasers, purchased certain assets held as collateral under the 2006 Security Agreement. Bristol purchased 111,025 shares of common stock of BioCheck, Inc., the Company's majority owned subsidiary, on a credit bid of \$50,000, and Bristol also purchased 1,000 shares of the capital stock of OXIS Therapeutics, Inc., a wholly owned subsidiary of OXIS, for a credit bid of \$10,000. In December 2005, OXIS purchased the 111,025 shares of common stock of BioCheck, Inc. for \$3,060,000. After crediting the aggregate amount of \$60,000 to the aggregate amount due under the 2006 Debentures, plus fees and charges due through June 19, 2008, Bristol notified the Company that the Company remains obligated to the 2006 Purchasers in a deficiency in an aggregate amount of \$2,688,000 as of June 19, 2008. As a result of the disposition of the collateral, the Company recorded a net loss aggregating \$2,978,000.

Under the 2006 Purchase Agreement, the 2006 Purchasers also have a right of first refusal to participate in up to 100% of any future financing undertaken by the Company until the 2006 Debentures are no longer outstanding. In addition, the Company is also prohibited from effecting any subsequent financing involving a variable rate transaction until such time as no 2006 Purchaser holds any of the 2006 Debentures. Furthermore, so long as any 2006 Purchaser holds any of the securities issued under the 2006 Purchase Agreement, if the Company issues or sells any common stock or instruments convertible into common stock which a 2006 Purchaser reasonably believes is on terms more favorable to such investors than the terms pursuant to the 2006 Debentures or 2006 Warrants, the Company is obligated to permit such 2006 Purchaser the benefits of such better terms.

Of the 2006 Warrants issued by the Company to the 2006 Purchasers, only the Series A Warrants remain outstanding. The Series A Warrants, which now expire in July 2019, permit the holders to purchase 9,681 shares of common stock at an original exercise price of \$87.50 per share. Such exercise price is adjustable pursuant to a full ratchet anti-dilution provision and upon the occurrence of a stock split or a related event.

OXIS INTERNATIONAL, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2016
(UNAUDITED)

During 2009, Bristol converted \$177,900 of the principal amount of 2006 Debentures for 71,160 shares of the Company's common stock. During 2010, Bristol converted an additional \$401,000 of the principal amount of 2006 Debentures for 160,400 shares of the Company's common stock. During 2011, an additional \$605,000 of the principal amount of 2006 Debentures was converted into 242,000 shares of the Company's common stock. During 2012, an additional \$369,625 of the principal amount of 2006 Debentures was converted into 350,619 shares of the Company's common stock.

The 2006 Debentures do not meet the definition of a "conventional convertible debt instrument" since they are not convertible into a fixed number of shares. The Monthly Redemption Amounts can be paid with common stock at a conversion price that is a percentage of the market price; therefore the number of shares that could be required to be delivered upon "net-share settlement" is essentially indeterminate. Therefore, the 2006 Debentures are considered "non-conventional," which means that the conversion feature must be bifurcated from the debt and shown as a separate derivative liability. This beneficial conversion liability has been calculated to be \$690,000 on October 25, 2006. In addition, since the 2006 Debentures are convertible into an indeterminate number of shares of common stock, it is assumed that the Company could never have enough authorized and unissued shares to settle the conversion of the 2006 Warrants issues in this transaction into common stock. Therefore, the 2006 Warrants have a fair value of \$2,334,000 at October 25, 2006. The value of the 2006 Warrant was calculated using the Black-Scholes model using the following assumptions: Discount rate of 4.5%, volatility of 158% and expected term of 1 to 6 years. The fair value of the beneficial conversion feature and the 2006 Warrant liability will be adjusted to fair value on each balance sheet date with the change being shown as a component of net loss. The fair value of the beneficial conversion feature and the 2006 Warrants at the inception of the 2006 Debentures were \$690,000 and \$2,334,000, respectively. The first \$1,350,000 of these discounts was amortized over the term of the 2006 Debenture and the excess of \$1,674,000 was shown as financing costs in statement of operations.

The Company and Bristol entered into a Forbearance Agreement on December 3, 2015, pursuant to which Bristol agreed to refrain and forbear from exercising certain rights and remedies with respect the 2006 Debentures for three months. In exchange for the Forbearance Agreement, the Company issued an allonge in the amount of \$250,000 increasing the principal amount if the 2006 Debentures.

On October 1, 2009, the Company entered into a financing arrangement with several accredited investors (the "2009 Investors"), pursuant to which it sold various securities in consideration of a maximum aggregate purchase price of \$2,000,000 (the "2009 Financing"). In connection with the 2009 Financing, the Company issued the following securities to the 2009 Investors:

- 0% Convertible Debentures in the principal amount of \$2,000,000 due 24 months from the date of issuance (the "2009 Debentures"), convertible into shares of the Company's common stock at a per share conversion price equal to \$12.50 per share;
- Series A warrant to purchase such number of shares of the Company's common stock equal to 50% of the principal amount invested by each 2009 Investor (the "2009 Class A Warrants") resulting in the issuance of Class A Warrants to purchase 80,000 shares of common stock of the Company.
- Series B warrant to purchase such number of shares of the Company's common stock equal to 50% of the principal amount invested by each 2009 Investor (the "2009 Class B Warrants") resulting in the issuance of Class B Warrants to purchase 80,000 shares of common stock of the Company.

The Class A Warrants and Class B Warrants (collectively, the "2009 Warrants") are exercisable for up to five years from the date of issue at a per share exercise price equal to \$15.625 and \$18.75 for the Class A Warrants and the Class B Warrants, respectively, on a cash or cashless basis. The 2009 Debentures and the 2009 Warrants are collectively referred to herein as the "2009 Securities".

In connection with the sale of the 2009 Securities by the Company, the Company and Bristol entered a Standstill and Forbearance Agreement, pursuant to which Bristol agreed to refrain and forbear from exercising certain rights and remedies with respect to (i) the 2006 Debentures and (ii) certain demand notes (the "Bridge Notes") issued by the Company on October 8, 2008, March 19, 2009, April 7, 2009, April 28, 2009, May 21, 2009 and June 25, 2009 and discussed under the caption "Demand Notes" below. In connection with the sale of the 2009 Securities by the Company, the Company and Bristol have also entered into a waiver agreement (the "Waiver Agreement") pursuant to which Bristol waived certain rights with respect to the 2006 Debentures and Bridge Notes.

The conversion price of the 2009 Debentures and the exercise price of the 2009 Warrants are subject to full ratchet anti-dilution adjustment in the event that the Company thereafter issues common stock or common stock equivalents at a price per share less than the conversion price or the exercise price, respectively, and to other normal and customary anti-dilution adjustment upon certain other events. So long as the 2009 Debentures are outstanding, if the Company effects a subsequent financing, the October 2009 Investors may elect, in their sole discretion, to exchange all or some of the October 2009 Debentures (but not the 2009 Warrants) for any securities or units issued in a subsequent financing on a \$1.00 for \$1.00 basis or to have any particular provisions of the subsequent financing legal documents apply to the documents utilized for the October 2009 Financing.

The Company also agreed that if it determines to prepare and file with the Commission a registration statement relating to an offering for its own account or the account of others, then it shall include the shares of common stock underlying the 2009 Securities on such registration statement. The 2009 Investors have contractually agreed to restrict their ability to convert the 2009 Debentures and exercise the 2009 Warrants and receive shares of our common stock such that the number of shares of the Company common stock held by a 2009 Investor and its affiliates after such conversion or exercise does not exceed 4.9% of the Company's then issued and outstanding shares of common stock.

During 2010, 2009 Investors converted \$1,335,000 of the principal amount of 2009 Debentures for 106,800 shares of the Company's common stock. During 2011, 2009 Investors converted \$610,000 of the principal amount of 2009 Debentures for 48,800 shares of the Company's common stock.

The Company entered into a Forbearance Agreement on December 3, 2015, pursuant to which the remaining 2009 Debenture holder agreed to refrain and forbear from exercising certain rights and remedies with respect to the 2009 Debentures for three months. In exchange for the Forbearance Agreement, the Company issued an allonge in the amount of \$250,000 increasing the principal amount of the 2009 Debentures to \$305,000 as of March 31, 2016.

On June 1, 2011, the Company entered into a financing arrangement with several accredited investors (the "June 2011 Investors"), pursuant to which it sold various securities in consideration of a maximum aggregate purchase price of \$500,000 (the "June 2011 Financing"). In connection with the June 2011 Financing, the Company issued the following securities to the June 2011 Investors:

- 12% Convertible Debentures in the principal amount of \$500,000 due April 15, 2012, convertible into shares of the Company's common stock at a per share conversion price equal to \$25.00 per share; and
- Warrants to purchase 20,000 of shares of the Company's common stock. The warrants are exercisable, on a cash or cashless basis, for up to two years from the date of issue at a per share exercise price equal to \$37.50. During 2015, the exercise price was adjusted to \$1.25 and the exercise date was extended to June 2019.

In November, 2011, the Company entered into a financing arrangement with several accredited investors (the "November 2011 Investors"), pursuant to which it sold various securities in consideration of a maximum aggregate purchase price of \$275,000 (the "November 2011 Financing"). In connection with the November 2011 Financing, the Company issued the following securities to the November 2011 Investors:

- 8% Convertible Debentures in the principal amount of \$275,000 due in two years, convertible into shares of the Company's common stock at a per share conversion price equal to \$12.50 per share; and
- Warrants to purchase 22,000 of shares of the Company's common stock. The Class A Warrants and Class B Warrants (collectively, the "Warrants") are exercisable for up to five years from the date of issue at a per share exercise price equal to \$15.625 and \$18.75 for the Class A Warrants and the Class B Warrants, respectively, on a cash or cashless basis.

In connection with the March 2012 Financing, the Company issued the following securities to the investors:

Pursuant to the anti-dilution provisions in the convertible instruments, the conversion price of certain convertible instruments is now \$2.50 (with the exception of the conversion price of the October 2006 Debenture which is already priced at the lesser of \$2.50 and 60% of the average of the lowest three trading prices occurring at any time during the 20 trading days preceding conversion).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Oxis International, Inc. and subsidiaries as of December 31, 2015 and 2014 and the consolidated results of their operations and their consolidated cash flows for the two years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company has incurred significant recurring losses. The realization of a major portion of its assets is dependent upon its ability to meet its future financing needs and the success of its future operations. These factors raise substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from this uncertainty.

Notes to Consolidated Financial Statements

1. The Company and Summary of Significant Accounting Policies

OXIS International, Inc. (collectively, "OXIS" or the "Company") is engaged in discovering, developing and commercializing novel therapeutics from our proprietary product platform in a broad range of disease areas. Currently, OXIS develops innovative drugs focused on the treatment of cancer. OXIS' lead drug candidate, OXS-2175, is a small molecule therapeutic candidate targeting the treatment of triple-negative breast cancer. In *in vitro* and *in vivo* models of TNBC, OXS-2175 demonstrated the ability to inhibit metastasis. OXIS' lead drug candidate, OXS-4235, also a small molecule therapeutic candidate, targets the treatment of multiple myeloma and associated osteolytic lesions. In *in vitro* and *in vivo* models of multiple myeloma, OXS-4235 demonstrated the ability to kill multiple myeloma cells, and decrease osteolytic lesions in bone. OXIS' lead drug candidate, OXS-1550, is a bispecific scFv recombinant fusion protein-drug conjugate composed of the variable regions of the heavy and light chains of anti-CD19 and anti-CD22 antibodies and a modified form of diphtheria toxin as its cytotoxic drug payload. OXS-1550 has demonstrated success in early human clinical trials in patients with relapsed/refractory B-cell lymphoma or leukemia.

In 1965, the corporate predecessor of OXIS, Diagnostic Data, Inc. was incorporated in the State of California. Diagnostic Data changed its incorporation to the State of Delaware in 1972; and changed its name to DDI Pharmaceuticals, Inc. in 1985. In 1994, DDI Pharmaceuticals merged with International BioClinical, Inc. and Bioxytech S.A. and changed its name to OXIS International, Inc.

Going Concern

As shown in the accompanying consolidated financial statements, the Company has incurred an accumulated deficit of \$145,636,000 through December 31, 2015. On a consolidated basis, the Company had cash and cash equivalents of \$47,000 at December 31, 2015. The Company's plan is to raise additional capital until such time that the Company generates sufficient revenues to cover its cash flow needs and/or it achieves profitability. However, the Company cannot assure that it will accomplish this task and there are many factors that may prevent the Company from reaching its goal of profitability.

The current rate of cash usage raises substantial doubt about the Company's ability to continue as a going concern, absent any sources of significant cash flows. In an effort to mitigate this near-term concern the Company intends to seek additional equity or debt financing to obtain sufficient funds to sustain operations. The Company plans to increase revenues by introducing new nutraceutical products primarily based on its ergothioneine assets. However, the Company cannot provide assurance that it will successfully obtain equity or debt or other financing, if any, sufficient to finance its goals or that the Company will generate future product related revenues. The Company's financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event that the Company cannot continue in existence.

Accounts receivable

The Company carries its accounts receivable at cost less an allowance for doubtful accounts. On a periodic basis, the Company evaluates its accounts receivable and establishes an allowance for doubtful accounts, based on a history of past write-offs and collections and current credit conditions.

Notes to Consolidated Financial Statements

Advertising and promotional fees

Advertising expenses consist primarily of costs incurred in the design, development, and printing of Company literature and marketing materials. The Company expenses all advertising expenditures as incurred. There were no advertising expenses for the years ended December 31, 2015 and 2014, respectively.

Basis of Consolidation and Comprehensive Income

The accompanying consolidated financial statements include the accounts of OXIS International, Inc. and its subsidiaries. All intercompany balances and transactions have been eliminated. The Company's financial statements are prepared using the accrual method of accounting.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

Concentrations of Credit Risk

The Company's cash and cash equivalents, marketable securities and accounts receivable are monitored for exposure to concentrations of credit risk. The Company maintains substantially all of its cash balances in a limited number of financial institutions. The balances are each insured by the Federal Deposit Insurance Corporation up to \$250,000. The Company does not have balances in excess of this limit at December 31, 2015.

Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, restricted cash, accounts receivable, inventory, accounts payable and accrued expenses approximate fair value because of the short-term nature of these instruments. The fair value of debt is based upon current interest rates for debt instruments with comparable maturities and characteristics and approximates the carrying amount.

Stock Based Compensation to Employees

The Company accounts for its stock-based compensation for employees in accordance with Accounting Standards Codification ("ASC") 718. The Company recognizes in the statement of operations the grant-date fair value of stock options and other equity-based compensation issued to employees and non-employees over the related vesting period.

The Company granted stock options to purchase 52,000 and 321,941 shares of the Company's common stock to employees and directors during the year ended December 31, 2015 and 2014, respectively. The fair values of employee stock options are estimated for the calculation of the pro forma adjustments at the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions during 2015: expected volatility of 90%; average risk-free interest rate of 1.50% initial expected life of 5 years; no expected dividend yield; and amortized over the vesting period of typically one to four years. The Company reported an expense for share-based compensation for its employees and directors of \$311,000 and \$162,000 for the year ended December 31, 2015 and 2014, respectively.

OXIS International, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2015

Impairment of Long Lived Assets

The Company's long-lived assets currently consist of capitalized patents. The Company evaluates its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. If any of the Company's long-lived assets are considered to be impaired, the amount of impairment to be recognized is equal to the excess of the carrying amount of the assets over the fair value of the assets.

Income Taxes

The Company accounts for income taxes using the asset and liability approach, whereby deferred income tax assets and liabilities are recognized for the estimated future tax effects, based on current enacted tax laws, of temporary differences between financial and tax reporting for current and prior periods. Deferred tax assets are reduced, if necessary, by a valuation allowance if the corresponding future tax benefits may not be realized.

Net Income (Loss) per Share

Basic net income (loss) per share is computed by dividing the net loss for the period by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share is computed by dividing the net loss for the period by the weighted average number of common shares outstanding during the period, plus the potential dilutive effect of common shares issuable upon exercise or conversion of outstanding stock options and warrants during the period. The weighted average number of potentially dilutive common shares excluded from the calculation of net income (loss) per share totaled in 12,525,721 in 2015 and 3,092,737 in 2014.

Patents

Acquired patents are capitalized at their acquisition cost or fair value. The legal costs, patent registration fees and models and drawings required for filing patent applications are capitalized if they relate to commercially viable technologies. Commercially viable technologies are those technologies that are projected to generate future positive cash flows in the near term. Legal costs associated with patent applications that are not determined to be commercially viable are expensed as incurred. All research and development costs incurred in developing the patentable idea are expensed as incurred. Legal fees from the costs incurred in successful defense to the extent of an evident increase in the value of the patents are capitalized.

Capitalized cost for pending patents are amortized on a straight-line basis over the remaining twenty year legal life of each patent after the costs have been incurred. Once each patent is issued, capitalized costs are amortized on a straight-line basis over the shorter of the patent's remaining statutory life, estimated economic life or ten years.

Fixed Assets

Fixed assets is stated at cost. Depreciation is computed on a straight-line basis over the estimated useful lives of the assets, which are 3 to 10 years for machinery and equipment and the shorter of the lease term or estimated economic life for leasehold improvements.

OXIS International, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2015

Fair Value

The carrying amounts reported in the balance sheets for receivables and current liabilities each qualify as financial instruments and are a reasonable estimate of fair value because of the short period of time between the origination of such instruments and their expected realization and their current market rate of interest. The three levels are defined as follows:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets. The Company's Level 1 assets include cash equivalents, primarily institutional money market funds, whose carrying value represents fair value because of their short-term maturities of the investments held by these funds.
- Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. The Company's Level 2 liabilities consist of liabilities arising from the issuance of convertible securities and in accordance with ASC 815-40: a warrant liability for detachable warrants, as well as an accrued derivative liability for the beneficial conversion feature. These liabilities are remeasured each reporting period. Fair value is determined using the Black-Scholes valuation model based on observable market inputs, such as share price data and a discount rate consistent with that of a government-issued security of a similar maturity.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table represents the Company's assets and liabilities by level measured at fair value on a recurring basis at December 31, 2015.

Description	Level 1	Level 2	Level 3
Assets			
	\$ —	\$ —	\$ —
Liabilities			
Warrant liability	—	44,531,000	—
Accrued expense		4,326,000	

Research and Development

Research and development costs are expensed as incurred and reported as research and development expense. Research and development costs totaling \$900,000 and \$-0- for the years ended December 31, 2015 and 2014, respectively.

Revenue Recognition

Product Revenue

The Company manufactures, or has manufactured on a contract basis, fine chemicals and nutraceutical products, which are its primary products to be sold to customers. Revenue from the sale of its products, including shipping fees, will be recognized when title to the products is transferred to the customer which usually occurs upon shipment or delivery, depending upon the terms of the sales order and when collectability is reasonably assured. Revenue from sales to distributors of its products will be recognized, net of allowances, upon delivery of product to the distributors. According to the terms of individual distributor contracts, a distributor may return product up to a maximum amount and under certain conditions contained in its contract. Allowances are calculated based upon historical data, current economic conditions and the underlying contractual terms.

OXIS International, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2015

License Revenue

License arrangements may consist of non-refundable upfront license fees, exclusive licensed rights to patented or patent pending technology, and various performance or sales milestones and future product royalty payments. Some of these arrangements are multiple element arrangements.

Non-refundable, up-front fees that are not contingent on any future performance by us, and require no consequential continuing involvement on our part, are recognized as revenue when the license term commences and the licensed data, technology and/or compound is delivered. We defer recognition of non-refundable upfront fees if we have continuing performance obligations without which the technology, right, product or service conveyed in conjunction with the non-refundable fee has no utility to the licensee that is separate and independent of our performance under the other elements of the arrangement. In addition, if we have continuing involvement through research and development services that are required because our know-how and expertise related to the technology is proprietary to us, or can only be performed by us, then such up-front fees are deferred and recognized over the period of continuing involvement.

Payments related to substantive, performance-based milestones in a research and development arrangement are recognized as revenue upon the achievement of the milestones as specified in the underlying agreements when they represent the culmination of the earnings process.

Use of Estimates

The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the financial statements. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities revenues and expenses and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

2.
Patents

	December 30, 2015	December 31, 2014
Capitalized patent costs	\$ 642,000	\$ 642,000
Accumulated amortization	(642,000)	(642,000)

Periodically, the Company reviews its patent portfolio and has determined that certain patent applications no longer possessed commercial viability or were abandoned since they were inconsistent with the Company's business development strategy.

3. Debt

Convertible debentures

On October 25, 2006, the Company entered into a securities purchase agreement ("2006 Purchase Agreement") with four accredited investors (the "2006 Purchasers"). In conjunction with the signing of the 2006 Purchase Agreement, the Company issued secured convertible debentures ("2006 Debentures") and Series A, B, C, D, and E common stock warrants ("2006 Warrants") to the 2006 Purchasers, and the parties also entered into a security agreement (the "2006 Security Agreement") pursuant to which the Company agreed to grant the 2006 Purchasers, *pari passu*, a security interest in substantially all of the Company's assets.

Pursuant to the terms of the 2006 Purchase Agreement, the Company issued the 2006 Debentures in an aggregate principal amount of \$1,694,250 to the 2006 Purchasers. The 2006 Debentures are subject to an original issue discount of 20.318% resulting in proceeds to the Company of \$1,350,000 from the transaction. The 2006 Debentures were due on October 25, 2008. The 2006 Debentures are convertible, at the option of the 2006 Purchasers, at any time prior to payment in full, into shares of common stock of the Company. As a result of the full ratchet anti-dilution provision the current conversion price is \$2.50 per share (the "2006 Conversion Price"). Beginning on the first of the month beginning February 1, 2007, the Company was required to amortize the 2006 Debentures in equal installments on a monthly basis resulting in a complete repayment by the maturity date (the "Monthly Redemption Amounts"). The Monthly Redemption Amounts could have been paid in cash or in shares, subject to certain restrictions. If the Company chose to make any Monthly Redemption Amount payment in shares of common stock, the price per share would have been the lesser of the Conversion Price then in effect and 85% of the weighted average price for the 10-trading days prior to the due date of the Monthly Redemption Amount. The Company did not make any of the required monthly redemption payments.

OXIS International, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2015

Pursuant to the provisions of the 2006 Debentures, such non-payment was an event of default and penalty interest has accrued on the unpaid redemption balance at an interest rate equal to the lower of 18% per annum and the maximum rate permitted by applicable law. In addition, each of the 2006 Purchasers has the right to accelerate the cash repayment of at least 130% of the outstanding principal amount of the 2006 Debenture (plus accrued but unpaid liquidated damages and interest) and to sell substantially all of the Company's assets pursuant to the provisions of the 2006 Security Agreement to satisfy any such unpaid balance. On June 6, 2008, the Company received notification from Bristol Investment Fund, Ltd ("Bristol"), that the collateral held under the 2006 Security Agreement would be sold to the highest qualified bidder on Thursday, June 19, 2008. On June 19, 2008, the Company received a Notice of Disposition of Collateral from Bristol in which Bristol notified the Company that Bristol, acting as the agent for itself and the three other 2006 Purchasers, purchased certain assets held as collateral under the 2006 Security Agreement. Bristol purchased 111,025 shares of common stock of BioCheck, Inc., the Company's majority owned subsidiary, on a credit bid of \$50,000, and Bristol also purchased 1,000 shares of the capital stock of OXIS Therapeutics, Inc., a wholly owned subsidiary of OXIS, for a credit bid of \$10,000. In December 2005, OXIS purchased the 111,025 shares of common stock of BioCheck, Inc. for \$3,060,000. After crediting the aggregate amount of \$60,000 to the aggregate amount due under the 2006 Debentures, plus fees and charges due through June 19, 2008, Bristol notified the Company that the Company remains obligated to the 2006 Purchasers in a deficiency in an aggregate amount of \$2,688,000 as of June 19, 2008. As a result of the disposition of the collateral, the Company recorded a net loss aggregating \$2,978,000.

Under the 2006 Purchase Agreement, the 2006 Purchasers also have a right of first refusal to participate in up to 100% of any future financing undertaken by the Company until the 2006 Debentures are no longer outstanding. In addition, the Company is also prohibited from effecting any subsequent financing involving a variable rate transaction until such time as no 2006 Purchaser holds any of the 2006 Debentures. Furthermore, so long as any 2006 Purchaser holds any of the securities issued under the 2006 Purchase Agreement, if the Company issues or sells any common stock or instruments convertible into common stock which a 2006 Purchaser reasonably believes is on terms more favorable to such investors than the terms pursuant to the 2006 Debentures or 2006 Warrants, the Company is obligated to permit such 2006 Purchaser the benefits of such better terms.

Of the 2006 Warrants issued by the Company to the 2006 Purchasers, only the Series A Warrants remain outstanding. The Series A Warrants, which now expire in July 2019, permit the holders to purchase 9,681 shares of common stock at an original exercise price of \$87.50 per share. Such exercise price is adjustable pursuant to a full ratchet anti-dilution provision and upon the occurrence of a stock split or a related event.

During 2009, Bristol converted \$177,900 of the principal amount of 2006 Debentures for 71,160 shares of the Company's common stock. During 2010, Bristol converted an additional \$401,000 of the principal amount of 2006 Debentures for 160,400 shares of the Company's common stock. During 2011, an additional \$605,000 of the principal amount of 2006 Debentures was converted into 242,000 shares of the Company's common stock. During 2012, an additional \$369,625 of the principal amount of 2006 Debentures was converted into 350,619 shares of the Company's common stock.

OXIS International, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2015

The 2006 Debentures do not meet the definition of a "conventional convertible debt instrument" since they are not convertible into a fixed number of shares. The Monthly Redemption Amounts can be paid with common stock at a conversion price that is a percentage of the market price; therefore the number of shares that could be required to be delivered upon "net-share settlement" is essentially indeterminate. Therefore, the 2006 Debentures are considered "non-conventional," which means that the conversion feature must be bifurcated from the debt and shown as a separate derivative liability. This beneficial conversion liability has been calculated to be \$690,000 on October 25, 2006. In addition, since the 2006 Debentures are convertible into an indeterminate number of shares of common stock, it is assumed that the Company could never have enough authorized and unissued shares to settle the conversion of the 2006 Warrants issues in this transaction into common stock. Therefore, the 2006 Warrants have a fair value of \$2,334,000 at October 25, 2006. The value of the 2006 Warrant was calculated using the Black-Scholes model using the following assumptions: Discount rate of 4.5%, volatility of 158% and expected term of 1 to 6 years. The fair value of the beneficial conversion feature and the 2006 Warrant liability will be adjusted to fair value on each balance sheet date with the change being shown as a component of net loss. The fair value of the beneficial conversion feature and the 2006 Warrants at the inception of the 2006 Debentures were \$690,000 and \$2,334,000, respectively. The first \$1,350,000 of these discounts was amortized over the term of the 2006 Debenture and the excess of \$1,674,000 was been shown as financing costs in statement of operations.

The Company and Bristol entered into a Forbearance Agreement on December 3, 2015, pursuant to which Bristol agreed to refrain and forbear from exercising certain rights and remedies with respect the 2006 Debentures for three months. In exchange for the Forbearance Agreement, the Company issued an allonge in the amount of \$250,000 increasing the principal amount if the 2006 Debentures.

On October 1, 2009, the Company entered into a financing arrangement with several accredited investors (the "2009 Investors"), pursuant to which it sold various securities in consideration of a maximum aggregate purchase price of \$2,000,000 (the "2009 Financing"). In connection with the 2009 Financing, the Company issued the following securities to the 2009 Investors:

- 0% Convertible Debentures in the principal amount of \$2,000,000 due 24 months from the date of issuance (the "2009 Debentures"), convertible into shares of the Company's common stock at a per share conversion price equal to \$12.50 per share;
- Series A warrant to purchase such number of shares of the Company's common stock equal to 50% of the principal amount invested by each 2009 Investor (the "2009 Class A Warrants") resulting in the issuance of Class A Warrants to purchase 80,000 shares of common stock of the Company.
- Series B warrant to purchase such number of shares of the Company's common stock equal to 50% of the principal amount invested by each 2009 Investor (the "2009 Class B Warrants") resulting in the issuance of Class B Warrants to purchase 80,000 shares of common stock of the Company.

The Class A Warrants and Class B Warrants (collectively, the "2009 Warrants") are exercisable for up to five years from the date of issue at a per share exercise price equal to \$15.625 and \$18.75 for the Class A Warrants and the Class B Warrants, respectively, on a cash or cashless basis. The 2009 Debentures and the 2009 Warrants are collectively referred to herein as the "2009 Securities".

In connection with the sale of the 2009 Securities by the Company, the Company and Bristol entered a Standstill and Forbearance Agreement, pursuant to which Bristol agreed to refrain and forbear from exercising certain rights and remedies with respect to (i) the 2006 Debentures and (ii) certain demand notes (the "Bridge Notes") issued by the Company on October 8, 2008, March 19, 2009, April 7, 2009, April 28, 2009, May 21, 2009 and June 25, 2009 and discussed under the caption "Demand Notes" below. On December 7, 2012, the Company entered into, and made its initial \$315,000 borrowing under, a short-term loan agreement with two lenders pursuant to which it is permitted to borrow up to an aggregate of \$350,000. The loans made under the loan agreement are evidenced by the Company's notes and secured pursuant to a Security Agreement, that is junior to the Company's existing security arrangements under the Company's October 26, 2006 Debentures but cover the same assets of the Company.

Interest on the Notes is at the rate of 18% per annum, payable on the first day of each month until maturity on May 1, 2013. On April 1, 2013, the Company was required to pay 25.7143% of the Loan, with the remaining balance due on May 1, 2013.

The full principal amount of the Loans may be due upon default under the terms of the Loan Agreement, the Notes or the Security Agreement.

Under the Loan Agreement, the Company is required to issue 266.67 shares of its common stock for each \$1,000 of Loans made. Accordingly, on December 7, 2012, the Company issued 84,000 shares of its common stock. Assuming the entire amounts of Loans permitted under the Loan Agreement are borrowed, the Company will issue 93,334 shares in connection with the Loan Agreement.

In March 2013, the Company entered into, and made an additional \$35,000 borrowing under, a short-term loan agreement with two lenders the Company entered into in December 2012, pursuant to which it is permitted to borrow up to an aggregate of \$350,000. The loans made under the loan agreement are evidenced by the Company's notes and secured pursuant to a Security Agreement, that is junior to the Company's existing security arrangements under the Company's October 26, 2006 Debentures but cover the same assets of the Company.

Financing Agreement

On November 8, 2010, the Company entered into a financing arrangement with Gemini Pharmaceuticals, Inc., a product development and manufacturing partner of the Company, pursuant to which Gemini Pharmaceuticals made a \$250,000 strategic equity investment in the Company and agreed to make a \$750,000 purchase order line of credit facility available to the Company.

The aggregate amount of outstanding Advances available to the Company under the Line of Credit may not exceed \$750,000.00 at any time. The credit amounts available to the Company will be tiered, starting at \$250,000 and will ramp up to \$500,000 and then \$750,000 upon achievement of determined milestones. The Advances requested under the Line of Credit may only be used for purchases of products and inventory from Gemini Pharmaceuticals.

The outstanding principal of all Advances under the Line of Credit will bear interest at the rate of interest of prime plus 2 percent per annum.

In partial consideration of the commitment made by Gemini Pharmaceuticals under the Line of Credit, the Company has issued to Gemini, non-callable 5-year warrants to purchase 1,200 additional shares of Common Stock at a share price of \$30.00. The warrants contain a cashless exercise provision. The warrants vest as follows: 50% immediately, 25% when the credit line is increased to \$500,000, and the remaining 25% when the credit line is increased to \$750,000. Joint Ventures

In March 2011, the Company agreed to form a joint venture with engage:BDR, Inc., an on-line marketing company that offers both premium and placement-specific display marketing solutions and the ability to distribute campaigns through its own display platforms and channels. engage:BDR partners with most of comScore's top 1000 websites (globally) for the most advanced display marketing capabilities. Under the joint venture agreement, engage:BDR will provide a full range of online marketing services to the joint venture, including developing brand strategy, the design of all digital media and interfaces, online media planning and buying, leveraging and integrating social media, and customer analysis.

In March 2012 the Company signed a term sheet with engage:BDR that further evidences its arrangement and that permits both parties to commence operations under the arrangement. The parties contemplate that the existing binding arrangement will be evidenced by a formal limited liability company agreement that the parties are preparing. The following is a summary of the principal provisions of our joint venture arrangement (the "Joint Venture") with engage:BDR, Inc.:

A. The Company has agreed to grant the Joint Venture an exclusive license for the on-line marketing of products containing EGT™. The first product to be marketed and sold through the Joint Venture shall be OXIS' ErgoFlex™ product, which product was successfully test marketed in mail offering in late 2010 and early 2011. Additional OXIS products designated by the Company will be offered by the Joint Venture. If both parties agree, third party products may also be offered through the Joint Venture. However, nothing in the Joint Venture is intended to prohibit the Company from marketing, distributing and selling ErgoFlex™ or any of its other current or future products by means other than through online sales.

B. OXIS and engage:BDR have agreed to make the following contributions to the Joint Venture:

(a) OXIS will contribute up to \$240,000 during the first year following the formation of the Joint Venture. These funds will be provided if, when and as needed by the Joint Venture. OXIS' cash capital contribution will be used (i) to purchase ErgoFlex and other products from OXIS, at OXIS' cost, without any markup, (ii) to purchase website media inventory from engage:BDR, at engage:BDR's cost, plus a 15% administrative mark-up, and (iii) to fund the Joint Venture's other operating costs. engage:BDR has agreed to waive the 15% administrative mark-up through December 31, 2012.

(b) In addition to the cash, OXIS' contribution to the Joint Venture includes the exclusive license for the on-line marketing of any products created by OXIS which utilize its proprietary EGT™.

(c) engage:BDR, at its own cost and expense, is designing, developing and providing to the Joint Venture, on a turnkey basis, all online product offering systems and technologies, including website layouts, landing pages, graphic designs, display advertising, rich media, in-banner and in-stream video development. During the initial start-up phase of the Joint Venture, engage:BDR will, at its own cost and expense, also manage all day-to-day online activities of the Joint Venture. Cash from operations in excess of the amounts needed for its operations and for reasonable reserves, shall be distributed by the Joint Venture in the following order:

(a) First, to OXIS on a cumulative basis, an amount equal to the cash that OXIS contributed to the Joint Venture, and

(b) Thereafter, all excess net operating cash will be distributed 50.1% to OXIS and 49.9% to engage:BDR.

C. The administrative affairs of the Joint Venture shall be managed by a committee consisting of one representative of each Joint Venture member.

Notes to Consolidated Financial Statements
December 31, 2015

As additional consideration for engage:BDR entering into the Joint Venture and for contributing its services in designing, developing and implementing the advertising platform, at the time that the Joint Venture operating agreement is signed, OXIS will grant engage:BDR a two-year option to purchase OXIS securities. The option shall entitle engage:BDR to purchase the type of securities sold by us in a future \$6,000,000 or more financing, on the same terms and conditions, and at the same price, as such securities are sold to third party investors in such financing. The number of such securities that engage:BDR may purchase upon the exercise of the option (determined by assuming all convertible securities are converted and all exercisable securities are exercised) shall be equal to 4.99% of the Company's common stock issued and outstanding on the date the Joint Venture agreement is signed. If the Company has not raised \$6,000,000 by December 31, 2012, commencing on that date, engage:BDR will have a two-year right to purchase OXIS' common stock at a price equal to \$7.50. OXIS has also agreed to issue to engage:BDR a warrant to purchase up to 20,000 shares of its common stock if the Joint Venture, through engage:BDR efforts, attains certain revenue and profits targets. The warrant will have an exercise price of \$7.50 per share. This joint venture ceased operations in 2014.

The Company filed the amended certificate of incorporation with the State of Delaware on December 16, 2015. The Company effected a reverse stock split of the Company's common stock at a ratio of one-for-two hundred fifty and set the number of authorized shares of common stock the Company shall authority to issue following the reverse stock split in an amount of 150,000,000.

Stock Issuances

In January 2015, the Company agreed to issue 39,657 shares of common stock as a price protection to a note holder that originally converted notes at a price of \$2.50 and continues to hold these shares. These additional shares would have been issued if the conversion shares price was \$1.75. Preferred Stock

The 96,230 shares of Series C preferred stock are convertible into 111 shares of the Company's common stock at the option of the holders at any time. The conversion ratio is based on the average closing bid price of the common stock for the fifteen consecutive trading days ending on the date immediately preceding the date notice of conversion is given, but cannot be less than .20 or more than .2889 common shares for each Series C preferred share. The conversion ratio may be adjusted under certain circumstances such as stock splits or stock dividends. The Company has the right to automatically convert the Series C preferred stock into common stock if the Company lists its shares of common stock on the Nasdaq National Market and the average closing bid price of the Company's common stock on the Nasdaq National Market for 15 consecutive trading days exceeds \$3,000.00. Each share of Series C preferred stock is entitled to the number of votes equal to .26 divided by the average closing bid price of the Company's common stock during the fifteen consecutive trading days immediately prior to the date such shares of Series C preferred stock were purchased. In the event of liquidation, the holders of the Series C preferred stock shall participate on an equal basis with the holders of the common stock (as if the Series C preferred stock had converted into common stock) in any distribution of any of the assets or surplus funds of the Company. December 31, 2015

On December 4, 2008, the Company entered into and closed an Agreement (the "Bristol Agreement") with Bristol Investment Fund, Ltd. pursuant to which Bristol agreed to cancel the debt payable by the Company to Bristol in the amount of approximately \$20,000 in consideration of the Company issuing Bristol 25,000 shares of Series G Convertible Preferred Stock, which such shares carry a stated value equal to \$1.00 per share (the "Series G Stock").

The Series G Stock is convertible, at any time at the option of the holder, into common shares of the Company based on a conversion price equal to the lesser of \$2.50 or 60% of the average of the three lowest trading prices occurring at any time during the 20 trading days preceding the conversion. The Series G Stock, as amended, shall have voting rights on an as converted basis multiplied by 100.

In the event of any liquidation or winding up of the Company, the holders of Series G Stock will be entitled to receive, in preference to holders of common stock, an amount equal to the stated value plus interest of 15% per year.

The Series G Stock restricts the ability of the holder to convert the Series G Stock and receive shares of the Company's common stock such that the number of shares of the Company common stock held by Bristol and its affiliates after such conversion does not exceed 4.9% of the Company's then issued and outstanding shares of common stock.

The Series G Stock was previously referred to in an 8-K filed by the Company on December 10, 2008 in error as the "Series E Stock". Further, the Series G Stock initially incorrectly provided that it voted on an as converted basis multiplied by 10. This incorrectly reflected the intent of the Company and the holder.

On October 13, 2009 the Company was informed by Theorem Group, LLC that it had purchased all of the outstanding Series G Preferred Stock and Theorem gave notice to the Company that it intended to exercise its ability to vote on all shareholder matters utilizing the super voting privileges provided by the Series G Stock.

Effective February 10, 2010, the Company issued 25,000 shares of its new Series H Convertible Preferred Stock (the "Series H Preferred") to Theorem Group, LLC, a California limited liability company (the "Stockholder"), in exchange for the 25,000 shares of Series G Stock then owned by the Stockholder. The foregoing exchange was effected pursuant to that certain Exchange Agreement, dated February 10, 2010, between the Company and the Stockholder (the "Exchange Agreement").

The Certificate of Designation of the Series H Preferred is based on, and substantially similar to the form and substance of the Certificate of Designation of the Series G Preferred. Some of the corrections, changes and differences between the Certificate of Designation of the Series G Preferred and the Certificate of Designation of the Series H Preferred include the following:

- As previously disclosed, the holder of the Series H Preferred is entitled to vote with the common stock, and is entitled to a number of votes equal to (i) the number of shares of common stock it can convert into (without any restrictions or limitations on such conversion), (ii) multiplied by 100.
- The holder of the Series H Preferred cannot convert such preferred stock into shares of common stock if the holder and its affiliates after such conversion would own more than 9.9% of the Company's then issued and outstanding shares of common stock.
- The Series G Preferred contained a limitation that the holder of the Series G Preferred could not convert such preferred shares into more than 19.999% of the issued and outstanding shares of common stock without the approval of the stockholders if the rules of the principal market on which the common stock is traded would prohibit such a conversion. Since the rules of the Company's principal market did not require such a limitation, that provision has been deleted.

On November 8, 2010, Gemini Pharmaceuticals purchased 1,666,667 shares of the Company's Series I Preferred Stock, \$.001 par value, at a price of \$0.15 per share (\$250,000).

As the holder of the Series I Preferred Stock, Gemini Pharmaceuticals will be entitled to receive, out of funds legally available, dividends in cash at the annual rate of 8.0% of the Preference Amount (\$0.15), when, as, and if declared by the Board. No dividends or other distributions shall be made with respect to any shares of junior stock until dividends in the same amount per share on the Series I Preferred Stock shall have been declared and paid or set apart during that fiscal year. Dividends on the Series I Preferred Stock shall not be cumulative and no right shall accrue to the Series I Preferred Stock by reason of the fact that the Company may fail to declare or pay dividends on the Series I Preferred Stock in the amount of the Dividend Rate per share or in any amount in any previous fiscal year of the Company, whether or not the earnings of the Company in that previous fiscal year were sufficient to pay such dividends in whole or in part.

OXIS International, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
December 31, 2015

Each share of Series I Preferred Stock shall entitle the holder thereof to such number of votes per share as shall equal the number of shares of Common Stock (rounded to the nearest whole number) into which such share of Series I Preferred Stock is then convertible.

Upon any liquidation of the Company, subject to the rights of any series of Preferred Stock that may from time to time come into existence, before any distribution or payment shall be made to the holders of any Junior Stock, the holders of the shares of Series I Preferred Stock then outstanding shall be entitled to receive and be paid out of the assets of the Company legally available for distribution to its stockholders liquidating distributions in cash or property at its fair market value as determined by the Board in the amount of \$0.15 per share (as adjusted for any stock dividends, combinations or splits with respect to such shares).

Shares of Series I Preferred Stock may, at the option of the holder thereof, be converted at any time or from time to time into fully paid and non-assessable shares of Common Stock. The number of shares of Common Stock which a holder of shares of Series I Preferred Stock shall be entitled to receive upon conversion of such shares shall be the product obtained by multiplying the Conversion Rate by the number of shares of Series I Preferred Stock being converted. Initially, the Series I Preferred Stock is convertible into 6,667 shares of common stock.

In the event that the per-share Market Price of the Common Stock over a period of 20 consecutive trading days is equal to at least 130% of the initial conversion price (130% of \$0.15), all outstanding shares of Series I Preferred Stock shall be converted automatically into the number of shares of Common Stock into which such shares of Series I Preferred Stock are then convertible without any further action by the holders of such shares and whether or not the certificates representing such shares of Series I Preferred Stock are surrendered to the Company or its transfer agent.

5. Income Taxes

Deferred Taxes

Deferred taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes, and operating losses and tax credit carryforwards. The significant components of net deferred income tax assets for the Company are:

	December 31,	
	2015	2014
Deferred tax assets:		
Federal net operating loss carryforward	\$ 15,400,000	\$ 14,481,000
Other	1,028,000	871,000
Patent amortization	(13,000)	(15,000)
Deferred tax assets before valuation	16,415,000	15,337,000
Valuation allowance	(16,415,000)	(15,337,000)
Net deferred income tax assets	\$ —	\$ —

Generally accepted accounting principles requires that the tax benefit of net operating losses, temporary differences and credit carryforwards be recorded as an asset to the extent that management assesses that realization is "more likely than not." Realization of the future tax benefits is dependent on the Company's ability to generate sufficient taxable income within the carryforward period. Because of the Company's history of operating losses, management has provided a valuation allowance equal to its net deferred tax assets.

Tax Carryforward

At December 31, 2015, the Company had net operating loss carryforwards of approximately \$35,800,000 to reduce United States federal taxable income in future years. These carryforwards expire through 2035.

The Company is no longer subject to U.S. and state tax examinations for years ending before the fiscal year ended December 31, 2011. Management does not believe there will be any material changes in our unrecognized tax positions over the next twelve months.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. There was no accrued interest or penalties associated with any unrecognized tax benefits, nor was any interest expense recognized during the years ended December 31, 2015 and 2014.

The Conversion Agreement, Exercise Agreement and Exchange Agreement and the transactions contemplated thereby are described in further detail below.

Under the Conversion Agreement, certain creditors of the Company holding an aggregate of approximately \$15,056,000 (including accrued interest and penalties) of outstanding Debt have agreed to convert all such outstanding Debt into shares of Common Stock at a conversion price of \$1.25 per share upon successful completion by the Company of a \$6 million financing.

The Restructuring Agreements terminated the notes, the warrants, and any anti-dilution protection thereunder. In addition, all creditor and investor parties to the Restructuring Agreements provided a waiver of any and all past defaults and breaches under the Notes, Warrants and Preferred Stock, in consideration of the shares issued pursuant to the Restructuring Agreements.

Item 14. Indemnification of Directors and Officers.

Section 145 of the Delaware General Corporation Law, or DGCL, provides that a corporation may indemnify directors and officers as well as other employees and individuals against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with any threatened, pending or completed actions, suits or proceedings in which such person is made a party by reason of such person being or having been a director, officer, employee or agent to the corporation. The DGCL provides that Section 145 is not exclusive of other rights to which those seeking indemnification may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise.

Section 102(b)(7) of the DGCL permits a corporation to provide in its certificate of incorporation that a director of the corporation shall not be personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability for any breach of the director's duty of loyalty to the corporation or its stockholders, for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, for unlawful payments of dividends or unlawful stock repurchases, redemptions or other distributions, or for any transaction from which the director derived an improper personal benefit.

Our amended and restated certificate of incorporation and amended and restated by-laws include provisions to (i) eliminate the personal liability of our directors for monetary damages resulting from breaches of their fiduciary duty to the extent permitted by Section 102(b) (7) of the DGCL and (ii) require the registrant to indemnify its directors and officers to the fullest extent permitted by Section 145 of the DGCL, including circumstances in which indemnification is otherwise discretionary. Pursuant to Section 145 of the DGCL, a corporation generally has the power to indemnify its present and former directors, officers, employees and agents against expenses incurred by them in connection with any suit to which they are, or are threatened to be made, a party by reason of their serving in such positions so long as they acted in good faith and in a manner they reasonably believed to be in or not opposed to, the best interests of the corporation and with respect to any criminal action, they had no reasonable cause to believe their conduct was unlawful. We believe that these provisions are necessary to attract and retain qualified persons as directors and officers. These provisions do not eliminate the directors' duty of care, and, in appropriate circumstances, equitable remedies such as injunctive or other forms of non-monetary relief will remain available under DGCL. In addition, each director will continue to be subject to liability for breach of the director's duty of loyalty to the registrant, for acts or omissions not in good faith or involving intentional misconduct, for knowing violations of law, for acts or omissions that the director believes to be contrary to the best interests of the registrant or its stockholders, for any transaction from which the director derived an improper personal benefit, for acts or omissions involving a reckless disregard for the director's duty to the registrant or its stockholders when the director was aware or should have been aware of a risk of serious injury to the registrant or its stockholders, for acts or omissions that constitute an unexcused pattern of inattention that amounts to an abdication of the director's duty to the registrant or its stockholders, for improper transactions between the director and the registrant and for improper distributions to stockholders and loans to directors and officers. The provision also does not affect a director's responsibilities under any other law, such as the federal securities law or state or federal environmental laws.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing, we have been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

We have entered into indemnification agreements with our directors and officers. The indemnification agreements will provide indemnification to our directors and officers under certain circumstances for acts or omissions which may not be covered by directors' and officers' liability insurance, and may, in some cases, be broader than the specific indemnification provisions contained under Delaware law.

At present, there is no pending litigation or proceeding involving any of our directors or officers as to which indemnification is being sought nor are we aware of any threatened litigation that may result in claims for indemnification by any officer or director.

We do not have an insurance policy covering our officers and directors with respect to certain liabilities, including liabilities arising under the Securities Act or otherwise.

The foregoing statements are subject to the detailed provisions of the DGCL, our articles and our by-laws.

In consideration of the right to sublicense third parties granted under Section 3.2, Company shall pay to ID4 _____ of all royalties received by Company from its Sublicensees if the sublicense is executed on or before the first anniversary of the Effective Date of the License Agreement signed between the parties, and _____ of all royalties received by Company from its Sublicensees if the Sublicense is executed thereafter. With respect to sales of Products invoiced in United States dollars, the gross sales, Net Sales and royalties payable shall be expressed in United States dollars. With respect to (i) Net Sales invoiced in a currency other than United States dollars and (ii) cash consideration paid in a currency other than United States dollars by Company's sublicensees hereunder, all such amounts shall be expressed both in the currency in which the distribution is invoiced and in the United States dollar equivalent. The United States dollar equivalent shall be calculated using the average of the exchange rate (local currency per US\$1) published in The Wall Street Journal, Western Edition, under the heading "Currency Trading" on the last business day of each month during the applicable calendar quarter.

5.2 Audits.

5.2.1 Upon the written request of ID4 and not more than once in each calendar year, Company shall permit an independent certified public accounting firm of nationally recognized standing selected by ID4 and reasonably acceptable to Company, at ID4's expense, to have access during normal business hours to such of the financial records of Company as may be reasonably necessary to verify the accuracy of the payment reports hereunder for the eight (8) calendar quarters immediately prior to the date of such request (other than records for which ID4 has already conducted an audit under this Section).

5.2.2 If such accounting firm concludes that additional amounts were owed during the audited period, Company shall pay such additional amounts within thirty (30) days after the date ID4 delivers to Company such accounting firm's written report so concluding. The fees charged by such accounting firm shall be paid by ID4; provided, however, if the audit discloses that the royalties payable by Company for such period are more than one hundred ten percent (110%) of the royalties actually paid for such period, then Company shall pay the reasonable fees and expenses charged by such accounting firm.

5.2.3 ID4 shall cause its accounting firm to retain all financial information subject to review under this Section 5.2 in strict confidence; provided, however, that Company shall have the right to require that such accounting firm, prior to conducting such audit, enter into an appropriate non-disclosure agreement with Company regarding such financial information. The accounting firm shall disclose to ID4 only whether the reports are correct or not and the amount of any discrepancy. No other information shall be shared. ID4 shall treat all such financial information as Company's Confidential Information.

6. PAYMENTS

6.1 Payment Terms. Royalties shown to have accrued by each royalty report provided for under Section 5 above shall be due on the date such royalty report is due. Payment of royalties in whole or in part may be made in advance of such due date.

6.2 Exchange Control. If at any time legal restrictions prevent the prompt remittance of part or all royalties with respect to any country in the Territory where the Product is sold, Company shall have the right, in its sole discretion, to make such payments by depositing the amount thereof in local currency to ID4's account in a bank or other depository institution in such country. If the royalty rate specified in this Agreement should exceed the permissible rate established in any country, the royalty rate for sales in such country shall be adjusted to the highest legally permissible or government-approved rate.

6.3 Withholding Taxes. Company shall be entitled to deduct the amount of any withholding taxes, value-added taxes or other taxes, levies or charges with respect to such amounts, other than United States taxes, payable by Company, its Affiliates or sublicensees, or any taxes required to be withheld by Company, its Affiliates or sublicensees, to the extent Company, its Affiliates or sublicensees pay to the appropriate governmental authority on behalf of ID4 such taxes, levies or charges. Company shall use reasonable efforts to minimize any such taxes, levies or charges required to be withheld on behalf of ID4 by Company, its Affiliates or sublicensees. Company promptly shall deliver to ID4 proof of payment of all such taxes, levies and other charges, together with copies of all communications from or with such governmental authority with respect thereto.

7. RESEARCH AND DEVELOPMENT OBLIGATIONS

7.1 Research and Development Efforts. Company shall use its commercially reasonable efforts to conduct such research, development and preclinical and human clinical trials as Company determines are necessary or desirable to obtain regulatory approval to manufacture and market such Products as Company determines are commercially feasible in the Territory, and shall use its commercially reasonable efforts to obtain regulatory approval to market, and following approval to commence marketing and market each such Product in such countries in the Territory as Company determines are commercially feasible.

7.2 Consulting Agreement. ID4 shall use his reasonable efforts in performing the services identified in the Consulting Agreement executed between ID4 and Company on December __, 2014 and attached hereto as Schedule C.

7.3 Records. ID4 and Company shall maintain records, in sufficient detail and in good scientific manner, which shall reflect all work done and results achieved in the performance of its research and development regarding the Products.

7.4 Reports. Within ninety (90) days following the end of each calendar year during the term of this Agreement, ID4 shall prepare and deliver to Company a written summary report which shall describe (a) the research performed to date employing the Licensed IP Rights, (b) the progress of the development, and testing of Products in clinical trials, and (c) the status of obtaining regulatory approvals to market Products.

8. CONFIDENTIALITY

8.1 Confidential Information. Nothing contained in this Agreement shall supersede the confidentiality requirements set forth in the Consulting Agreement and Confidentiality Agreement signed by the parties; each agreement dated December __, 2014 attached hereto as Schedule C and Schedule D, respectively. Said Consulting Agreement and Confidentiality Agreement shall both remain in full force and effect.

9. PATENTS

9.1 Patent Prosecution and Maintenance. Company shall have the right to control, at its sole cost, the preparation, filing, prosecution and maintenance of all patents and patent applications within the Licensed Patent Rights. Company shall give ID4 an opportunity to review and comment on the text of each patent application subject to this Section 9.1 before filing, and shall supply ID4 with a copy of such patent application as filed, together with notice of its filing date and serial number. ID4 shall cooperate with Company, execute all lawful papers and instruments and make all rightful oaths and declarations as may be necessary in the preparation, prosecution and maintenance of all patents and other filings referred to in this Section 9.1. If Company, in its sole discretion, decides to abandon the preparation, filing, prosecution or maintenance of any patent or patent application in the Licensed Patent Rights, then Company shall notify ID4 in writing thereof and following the date of such notice (a) ID4 shall be responsible for and shall control, at its sole cost, the preparation, filing, prosecution and maintenance of such patents and patent applications, and (b) Company shall thereafter have no license under this Agreement to such patent or patent application.

9.2 Notification of Infringement. Each party shall notify the other party of any substantial infringement in the Territory known to such party of any Licensed Patent Rights and shall provide the other party with the available evidence, if any, of such infringement.

9.3 Enforcement of Patent Rights. Company, at its sole expense, shall have the right to determine the appropriate course of action to enforce Licensed Patent Rights or otherwise abate the infringement thereof, to take (or refrain from taking) appropriate action to enforce Licensed Patent Rights, to defend any declaratory judgments seeking to invalidate or hold the Licensed Patent Rights unenforceable, to control any litigation or other enforcement action and to enter into, or permit, the settlement of any such litigation, declaratory judgments or other enforcement action with respect to Licensed Patent Rights, in each case in Company's own name and, if necessary for standing purposes, in the name of ID4 and shall consider, in good faith, the interests of ID4 in so doing. If Company does not, within one hundred twenty (120) days of receipt of notice from ID4, abate the infringement or file suit to enforce the Licensed Patent Rights against at least one infringing party in the Territory, ID4 shall have the right to take whatever action it deems appropriate to enforce the Licensed Patent Rights; provided, however, that, within thirty (30) days after receipt of notice of ID4's intent to file such suit, Company shall have the right to jointly prosecute such suit and to fund up to one-half (½) the costs of such suit. The party controlling any such enforcement action shall not settle the action or otherwise consent to an adverse judgment in such action that diminishes the rights or interests of the non-controlling party without the prior written consent of the other party. All monies recovered upon the final judgment or settlement of any such suit to enforce the Licensed Patent Rights shall be shared, after reimbursement of expenses, in relation to the damages suffered by each party. If Company does not receive sufficient monies from a final judgment or settlement to cover its expenses for such suit, Company shall have the right to credit up to fifty percent (50%) of such expenses against any royalties or other fees owing by Company pursuant to Section 4 above.

9.4 Cooperation. In any suit to enforce and/or defend the License Patent Rights pursuant to this Section 9, the party not in control of such suit shall, at the request and expense of the controlling party, reasonably cooperate and, to the extent possible, have its employees testify when requested and make available relevant records, papers, information, samples, specimens, and the like.

10. TERMINATION

10.1 Expiration. Subject to Sections 10.2 and 10.3 below, this Agreement shall expire on the expiration of Company' obligation to pay royalties to ID4 under Section 4.1 above. The license grant under Section 3.1 shall be effective at all times prior to such expiration and following such expiration of this Agreement (a) Company shall have a fully paid-up, non-exclusive license under the Licensed Know-How Rights to conduct research and to develop, make, have made, use, sell, offer for sale and import Products in the Territory for use in the Field, and (b) Sections 3.4 and 3.5 shall survive.

10.2 Termination by Company. Company may terminate this Agreement, in its sole discretion, upon thirty (30) days prior written notice to ID4. This includes and is not limited to the failure to revive U.S. Patent Application Serial No. 14/237,494 from abandoned status.

10.3 Termination for Cause. Except as otherwise provided in Section 12, ID4 may terminate this Agreement upon or after the breach of any material provision of this Agreement by Company if Company has not cured such breach within ninety (90) days after receipt of express written notice thereof by ID4; provided, however, if any default is not capable of being cured within such ninety (90) day period and Company is diligently undertaking to cure such default as soon as commercially feasible thereafter under the circumstances, ID4 shall have no right to terminate this Agreement.

10.4 Effect of Expiration or Termination. Expiration or termination of this Agreement shall not relieve the parties of any obligation accruing prior to such expiration or termination, and the provisions of Sections 8, 9, 10, 11 and 13 shall survive the expiration or termination of this Agreement. Upon any termination of this Agreement, ID4 shall grant a direct license to any sublicense of Company hereunder having the same scope as such sublicense and on terms and conditions no less favorable to such sublicensee than the terms and conditions of this Agreement, provided that such sublicensee is not in default of any applicable obligations under this Agreement and agrees in writing to be bound by the terms and conditions of such direct license.

11. INDEMNIFICATION

11.1 Indemnification. Company shall defend, indemnify and hold ID4 harmless from all losses, liabilities, damages and expenses (including attorneys' fees and costs) incurred as a result of any claim, demand, action or proceeding arising out of any breach of this Agreement by Company, or the gross negligence or willful misconduct of Company in the performance of its obligations under this Agreement, except in each case to the extent arising from the gross negligence or willful misconduct of ID4 or the breach of this Agreement by ID4.

11.2 Procedure. ID4 promptly shall notify Company of any liability or action in respect of which ID4 intends to claim such indemnification, and Company shall have the right to assume the defense thereof with counsel selected by Company. The indemnity agreement in this Section 11 shall not apply to amounts paid in settlement of any loss, claim, damage, liability or action if such settlement is effected without the consent of Company, which consent shall not be withheld unreasonably. The failure to deliver notice to Company within a reasonable time after the commencement of any such action, if prejudicial to its ability to defend such action, shall relieve Company of any liability to ID4 under this Section 11, but the omission so to deliver notice to Company will not relieve it of any liability that it may have to ID4 otherwise than under this Section 11. ID4 under this Section 11, its employees and agents, shall cooperate fully with Company and its legal representatives in the investigation and defense of any action, claim or liability covered by this indemnification.

11.3 Insurance. Company shall maintain product liability insurance with respect to the research, development, manufacture and sales of Products by Company in such amount as Company customarily maintains with respect to the research, development, manufacture and sales of its similar products. Company shall maintain such insurance for so long as it continues to research, develop, manufacture or sell any Products, and thereafter for so long as Company customarily maintains insurance covering the research, development, manufacture or sale of its similar products.

12. FORCE MAJEURE

Neither party shall be held liable or responsible to the other party nor be deemed to have defaulted under or breached this Agreement for failure or delay in fulfilling or performing any term of this Agreement to the extent, and for so long as, such failure or delay is caused by or results from causes beyond the reasonable control of the affected party including but not limited to fire, floods, embargoes, war, acts of war (whether war be declared or not), acts of terrorism, insurrections, riots, civil commotions, strikes, lockouts or other labor disturbances, acts of God or acts, omissions or delays in acting by any governmental authority or the other party.

13. MISCELLANEOUS

13.1 Notices. Any consent, notice or report required or permitted to be given or made under this Agreement by one of the parties hereto to the other party shall be in writing, delivered by any lawful means to such other party at its address indicated below, or to such other address as the addressee shall have last furnished in writing to the addressor and (except as otherwise provided in this Agreement) shall be effective upon receipt by the addressee.

13.3 Arbitration. Any dispute, controversy or claim initiated by either party arising out of, resulting from or relating to this Agreement, or the performance by either party of its obligations under this Agreement (other than (a) any dispute, controversy or claim regarding the validity, enforceability, claim construction or infringement of any patent rights, or defenses to any of the foregoing, or (b) any bona fide third party action or proceeding filed or instituted in an action or proceeding by a Third Party against a party to this Agreement), whether before or after termination of this Agreement, shall be finally resolved by binding arbitration. Whenever a party shall decide to institute arbitration proceedings, it shall give written notice to that effect to the other party. Any such arbitration shall be conducted under the Commercial Arbitration Rules of the American Arbitration Association by a panel of three arbitrators appointed in accordance with such rules. Any such arbitration shall be held in Los Angeles, California. The method and manner of discovery in any such arbitration proceeding shall be governed by California Code of Civil Procedure § 1282 et seq. (including without limitation California Code of Civil Procedure § 1283.05). The arbitrators shall have the authority to grant specific performance and to allocate between the parties the costs of arbitration in such equitable manner as they determine. Judgment upon the award so rendered may be entered in any court having jurisdiction or application may be made to such court for judicial acceptance of any award and an order of enforcement, as the case may be. In no event shall a demand for arbitration be made after the date when institution of a legal or equitable proceeding based upon such claim, dispute or other matter in question would be barred by the applicable statute of limitations. Notwithstanding the foregoing, either party shall have the right, without waiving any right or remedy available to such party under this Agreement or otherwise, to seek and obtain from any court of competent jurisdiction any interim or provisional relief that is necessary or desirable to protect the rights or property of such party, pending the selection of the arbitrators hereunder or pending the arbitrators' determination of any dispute, controversy or claim hereunder.

13.4 Assignment. Company shall not assign its rights or obligations under this Agreement without the prior written consent of ID4; provided, however, that Company may, without such consent, assign this Agreement and its rights and obligations hereunder (a) to any Affiliate, or (b) in connection with the transfer or sale of all or substantially all of its business to which this Agreement relates, or in the event of its merger, consolidation, change in control or similar transaction. Any permitted assignee shall assume all obligations of its assignor under this Agreement.

13.5 Waivers and Amendments. No change, modification, extension, termination or waiver of this Agreement, or any of the provisions herein contained, shall be valid unless made in writing and signed by duly authorized representatives of the parties hereto.

13.6 Entire Agreement. This Agreement embodies the entire agreement between the parties and supersedes any prior representations, understandings and agreements between the parties regarding the subject matter hereof. There are no representations, understandings or agreements, oral or written, between the parties regarding the subject matter hereof that are not fully expressed herein.

13.7 Severability. Any of the provisions of this Agreement which are determined to be invalid or unenforceable in any jurisdiction shall be ineffective to the extent of such invalidity or unenforceability in such jurisdiction, without rendering invalid or unenforceable the remaining provisions hereof and without affecting the validity or enforceability of any of the terms of this Agreement in any other jurisdiction.

13.8 Waiver. The waiver by either party hereto of any right hereunder or the failure to perform or of a breach by the other party shall not be deemed a waiver of any other right hereunder or of any other breach or failure by said other party whether of a similar nature or otherwise.

13.9 Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

IN WITNESS WHEREOF, the parties have executed this Agreement effective as of the Effective Date.

These terms and conditions to the Exclusive Patent License Agreement ("Terms and Conditions") govern the grant of license by Regents of the University of Minnesota ("University") to the Licensee identified in the Exclusive Patent License Agreement (the "EPLA"). These Terms and Conditions are incorporated by reference into the EPLA. All section references in these Terms and Conditions refer to provisions in these Terms and Conditions unless explicitly stated otherwise.

1. Definitions. For purposes of interpreting this Agreement, the following terms have the following meanings:

An entity shall be deemed to have control of the controlled entity if it (i) owns, directly or indirectly, fifty percent (50%) or more of the outstanding voting securities of the controlled entity, or (ii) has the right, power or authority, directly or indirectly, to direct or cause the direction of the policy decisions of the controlled entity, whether by ownership of securities, by representation on the controlled entity's governing body, by contract, or otherwise.

1.2 "Change of Control" means (A) acquisition of ownership -- either directly or indirectly, by any person or group -- of the capital stock of Licensee representing more than 50% of either the aggregate ordinary voting power or the aggregate equity value represented by the issued and outstanding capital stock of the Licensee; and/or (B) the sale of all or substantially all the Licensee's assets and/or business in one transaction or in a series of related transactions.

"Licensed Patent" also means any reissues or reexaminations of a Licensed Patent that contain one or more valid claims directed to Licensed Technology. Any claim of an unexpired Licensed Patent is presumed to be valid unless it has been held to be invalid by a final judgment of a court of competent jurisdictions from which no appeal can be or is taken.

1.6 "Licensed Product(s)" means any product or part of a product in the Field of Use:

(i) the making, using, importing or selling of which, absent this license, infringes, induces infringement, or contributes to infringement of a Licensed Patent; or

1.7 "Licensee" means the entity identified in section 1 of the EPLA.

1.11 "Performance Milestone" means an act or event specified in section 5.1 and described in section 9 of the EPLA.

The term of this Agreement commences on the Effective Date as defined in section 4 of the EPLA and, unless terminated earlier as provided in section 8, expires on the date on which both no Licensed Patent is active in the Territory and no Licensed Patent Application is pending in the Territory (the "Term").

3. Grant of License.

3.1 The Licensee's Rights.

Licensee will ensure all obligations of these provisions are met.*

4. Applications and Patents.

4.1 Pre-EPLA Patent Filings. The Licensee acknowledges that it has reviewed each Licensed Patent and each Licensed Patent Application and that it will not dispute the inventorship, validity, or enforceability of any of the claims made in a Licensed Patent or a Licensed Patent Application. The Licensee further represents that as of the Effective Date, it has not and does not manufacture, have manufactured, offer to sell, sell, offer to lease, lease, or import (a) any product or good that infringes (including under the doctrine of equivalents) a claim in any Licensed Patent or Licensed Patent Application, or (b) any product or good that is made using a process or machine that infringes (including under the doctrine of equivalents) a claim in a Licensed Patent or Licensed Patent Application.

The Contact Person shall respond to the University's request for consultation and cooperation on a pending matter within five business days or sooner as may be required under the circumstances. If the Contact Person fails to respond in such time period, the University, exercising its own judgment and discretion, may respond to the matter as it deems appropriate. Except as provided in subsection 4.2.2, the Licensee shall reimburse the University for all Patent-Related Expenses as provided in section 6.3 and in section 6 of the EPLA.

4.2.3 No provision of this Agreement limits, conditions, or otherwise affects the University's right to prosecute a patent application with respect to the Licensed Technology in any country. The University retains the sole and exclusive right to file or otherwise prosecute a patent application with respect to the Licensed Technology. In no event shall the Licensee file a patent application with respect to the Licensed Technology. With respect to each invoice, the University shall use reasonable efforts to specify the date on which the Patent-Related Expense was incurred and the purpose of the expense (including, as applicable, a summary of patent attorney services giving rise to the expense); provided, however, the University is not required to disclose to the Licensee any information that is protected by the University's attorney-client privilege. Patent-Related Expenses incurred as of the Effective Date are set forth in section 6 of the EPLA. The University reserves the right to require that Licensee provide and maintain a reasonable advance deposit with the University or some other form of security to ensure payment of Patent-Related Expenses.

The Licensee shall deliver such written report to the University even if the Licensee is not required hereunder to pay to the University a payment for sales, leases, or other dispositions of Licensed Products during the semi-annual period. The Licensee shall deliver along with such sales reports its payment for royalties owed on all Net Sales of Licensed Products by the Licensee and the sublicensees during such semi-annual period.

The Licensee shall cooperate in the audit, including providing at no cost, commodious space in the Licensee's place of business for the auditor. The Licensee shall cause each sublicensee and each non-affiliated Third Party that manufactures, sells, leases, or otherwise disposes of Licensed Products on behalf of the Licensee to grant the University a right to inspect and audit the sublicensee's or Third Party's records substantially similar to the rights granted the University in this subsection. In connection with, and before the commencement of, an audit, if the Licensee requests in writing to the University, then prior to conducting such audit, the Licensee, the University and the auditor must enter into an agreement prohibiting the auditor and the University from disclosing the Licensee's nonpublic, proprietary information to any Third Party without the Licensee's prior written consent; provided, however, that consistent with generally accepted auditing standards and the auditor's professional judgment, the auditor may disclose such information to the University and its agents, counsel, or consultants. The Licensee acknowledges that such an agreement is adequate to protect its legitimate interests, and the parties agree that there shall be no additional nondisclosure agreement demanded as a condition to the commencement of an audit and the University's exercising its rights under this subsection.

6.6 Currency and Checks. All computations and payments made under this Agreement shall be in United States dollars. To determine the dollar value of transactions conducted in non-United States dollar currencies, the parties shall use the exchange rate for the currency into dollars as reported in the *Wall Street Journal* as the New York foreign exchange mid-range rate on the last business day of the month in which the transaction occurred.

7. Infringement.

Prior to commencing any action to enforce a Licensed Patent, the parties shall enter into good faith negotiations on the desirability of bringing suit, the parties to the action, the selection of counsel, and such other matters as the parties may agree to discuss. No provision of this Agreement limits, conditions, or otherwise affects a party's statutory and common-law rights to commence an action to enforce a Licensed Patent. In any such action, the parties agree to cooperate fully with each other and will use reasonable efforts to permit access to relevant personnel, records, papers, information, samples and specimens during regular business hours. Any amounts recovered (less amounts actually paid for reasonable attorney's fees and legal expenses) by Licensee in any such action or settlement that constitute compensation for lost profits or sales will be considered subject to the royalty rate in subsection 11.4.1 of the EPLA. All other amounts recovered (less amounts actually paid for reasonable attorney's fees and legal expenses) by Licensee in such action or settlement shall be considered subject to the rate for Sublicense Revenues in subsection 11.5.2 of the EPLA.

7.2. If any suit, action or proceeding is brought or commenced against the Licensee alleging the infringement of a patent or other intellectual property right owned by a Third Party by reason of the manufacture, use or sale of Licensed Products, the Licensee shall give the University prompt notice thereof. If the validity of a Licensed Patent is questioned in such suit, action or proceeding, the Licensee shall have no right to make any settlement or compromise which affects the scope, validity, enforceability or otherwise the Licensed Patent without the University's prior written approval.

If Oxis, in its sole discretion, decides to abandon the preparation, filing, prosecution or maintenance of any patent or patent application in the Licensed Patent Rights, then Oxis shall notify Licensor in writing thereof and following the date of such notice (a) Licensor shall be responsible for and shall control, at its sole cost, the preparation, filing, prosecution and maintenance of such patents and patent applications, and (b) Oxis shall thereafter have no license under this Agreement to such patent or patent application.

9.2 Notification of Infringement. Each party shall notify the other party of any substantial infringement in the Territory known to such party of any Licensed Patent Rights and shall provide the other party with the available evidence, if any, of such infringement.

9.3 Enforcement of Patent Rights. Oxis, at its sole expense, shall have the right to determine the appropriate course of action to enforce Licensed Patent Rights or otherwise abate the infringement thereof, to take (or refrain from taking) appropriate action to enforce Licensed Patent Rights, to defend any declaratory judgments seeking to invalidate or hold the Licensed Patent Rights unenforceable, to control any litigation or other enforcement action and to enter into, or permit, the settlement of any such litigation, declaratory judgments or other enforcement action with respect to Licensed Patent Rights, in each case in Oxis' own name and, if necessary for standing purposes, in the name of Licensor and shall consider, in good faith, the interests of Licensor in so doing. If Oxis does not, within one hundred twenty (120) days of receipt of notice from Licensor, abate the infringement or file suit to enforce the Licensed Patent Rights against at least one infringing party in the Territory, Licensor shall have the right to take whatever action it deems appropriate to enforce the Licensed Patent Rights; provided, however, that, within thirty (30) days after receipt of notice of Licensor's intent to file such suit, Oxis shall have the right to jointly prosecute such suit and to fund up to one-half (½) the costs of such suit. The party controlling any such enforcement action shall not settle the action or otherwise consent to an adverse judgment in such action that diminishes the rights or interests of the non-controlling party without the prior written consent of the other party. All monies recovered upon the final judgment or settlement of any such suit to enforce the Licensed Patent Rights shall be shared, after reimbursement of expenses, in relation to the damages suffered by each party. If Oxis does not receive sufficient monies from a final judgment or settlement to cover its expenses for such suit, Oxis shall have the right to credit up to fifty percent (50%) of such expenses against any royalties or other fees owing by Oxis pursuant to Section 4 above.

9.4 Cooperation. In any suit to enforce and/or defend the License Patent Rights pursuant to this Section 9, the party not in control of such suit shall, at the request and expense of the controlling party, reasonably cooperate and, to the extent possible, have its employees testify when requested and make available relevant records, papers, information, samples, specimens, and the like.

10. TERMINATION

10.1 Expiration. Subject to Sections 10.2 and 10.3 below, this Agreement shall expire on the expiration of Oxis' obligation to pay royalties to Licensor under Section 4.1 above. The license grant under Section 3.1 shall be effective at all times prior to such expiration and following such expiration of this Agreement (a) Oxis shall have a fully paid-up, non-exclusive license under the Licensed Know-How Rights to conduct research and to develop, make, have made, use, sell, offer for sale and import Products in the Territory for use in the Field, and (b) Sections 3.4 and 3.5 shall survive.

10.2 Termination by Oxis. Oxis may terminate this Agreement, in its sole discretion, upon thirty (30) days prior written notice to Licensor. This includes and is not limited to the failure of U.S. Patent Application Serial No. 13/256,812 to issue as a U.S. patent, or for Product to fail during clinical development.

10.3 Termination for Cause. Except as otherwise provided in Section 12, Licensor may terminate this Agreement upon or after the breach of any material provision of this Agreement by Oxis if Oxis has not cured such breach within ninety (90) days after receipt of express written notice thereof by Licensor; provided, however, if any default is not capable of being cured within such ninety (90) day period and Oxis is diligently undertaking to cure such default as soon as commercially feasible thereafter under the circumstances, Licensor shall have no right to terminate this Agreement.

10.3.1 Termination by Licensor: Estimated costs associated with DT2219 ARL are estimated to be _____ as per the University of Minnesota Clinical Trial Office's 3 year budget, hereby included as Exhibit A. Licensor may terminate this agreement if Oxis does not fund over the next three years all costs associated with the _____ subjects (patients) needed

to finish the Phase 1-2 trial estimated to be _____. Oxis's obligations to Licensor shall be considered to be in compliance once the _____ subjects have been treated or if Oxis has paid _____ towards the budget for the Clinical trial, or the Clinical Trial is cancelled.

10.4 : Expiration or termination of this Agreement shall not relieve the parties of any obligation accruing prior to such expiration or termination, and the provisions of Sections 8, 11, 13 shall survive the expiration or termination of this Agreement brought about by a default or non-compliance by Licensor of any portion or provision of this agreement. Upon termination of this agreement, Licensor shall grant a direct license to any sublicense of Oxis hereunder having the same scope as such sublicense and on terms and conditions no less favorable to such sublicensee than the terms and conditions of this Agreement, provided that such sublicensee is not in default of any applicable obligations under this Agreement and agrees in writing to be bound by the terms and conditions of such direct license. However, upon any termination of this agreement brought about by a default or non-compliance of any portion or provision of this agreement by Licensee shall result in the revocation of Oxis's license and any sublicenses for DT2219 ARL (Product).

11. INDEMNIFICATION

11.1 Indemnification. Oxis shall defend, indemnify and hold Licensor harmless from all losses, liabilities, damages and expenses (including attorneys' fees and costs) incurred as a result of any claim, demand, action or proceeding arising out of any breach of this Agreement by Oxis, or the gross negligence or willful misconduct of Oxis in the performance of its obligations under this Agreement, except in each case to the extent arising from the gross negligence or willful misconduct of Licensor or the breach of this Agreement by Licensor.

11.2 Procedure. Licensor promptly shall notify Oxis of any liability or action in respect of which Licensor intends to claim such indemnification, and Oxis shall have the right to assume the defense thereof with counsel selected by Oxis. The indemnity agreement in this Section 11 shall not apply to amounts paid in settlement of any loss, claim, damage, liability or action if such settlement is effected without the consent of Oxis, which consent shall not be withheld unreasonably. The failure to deliver notice to Oxis within a reasonable time after the commencement of any such action, if prejudicial to its ability to defend such action, shall relieve Oxis of any liability to Licensor under this Section 11, but the omission so to deliver notice to Oxis will not relieve it of any liability that it may have to Licensor otherwise than under this Section 11. Licensor under this Section 11, its employees and agents, shall cooperate fully with Oxis and its legal representatives in the investigation and defense of any action, claim or liability covered by this indemnification.

11.3 Insurance. Oxis shall maintain product liability insurance with respect to the research, development, manufacture and sales of Products by Oxis in such amount as Oxis customarily maintains with respect to the research, development, manufacture and sales of its similar products. Oxis shall maintain such insurance for so long as it continues to research, develop, manufacture or sell any Products, and thereafter for so long as Oxis customarily maintains insurance covering the research, development, manufacture or sale of its similar products.

12. FORCE MAJEURE

Neither party shall be held liable or responsible to the other party nor be deemed to have defaulted under or breached this Agreement for failure or delay in fulfilling or performing any term of this Agreement to the extent, and for so long as, such failure or delay is caused by or results from causes beyond the reasonable control of the affected party including but not limited to fire, floods, embargoes, war, acts of war (whether war be declared or not), acts of terrorism, insurrections, riots, civil commotions, strikes, lockouts or other labor disturbances, acts of God or acts, omissions or delays in acting by any governmental authority or the other party.

13. MISCELLANEOUS

13.1 Notices. Any consent, notice or report required or permitted to be given or made under this Agreement by one of the parties hereto to the other party shall be in writing, delivered by any lawful means to such other party at its address indicated below, or to such other address as the addressee shall have last furnished in writing to the addressor and (except as otherwise provided in this Agreement) shall be effective upon receipt by the addressee.

13.7 Waiver. The waiver by either party hereto of any right hereunder or the failure to perform or of a breach by the other party shall not be deemed a waiver of any other right hereunder or of any other breach or failure by said other party whether of a similar nature or otherwise.

OXIS shall have the right to sub-license the Right of Reference to its sub-licensees and Affiliates provided said sub-licensees and Affiliates comply fully with all applicable terms herein. MCIT shall promptly notify OXIS of any written or oral notices received from, or inspections by any Competent Authority relating to any such Registrations, and shall promptly inform OXIS of any responses to such written notices or inspections and the resolution of any issue raised by such Competent Authority. OXIS shall be entitled to attend any and all meetings and participate in telephone calls with the Competent Authorities, including without limitation any meeting preparation, meeting co-ordination and preparation of minutes.

3.6 Notwithstanding anything to the contrary herein, all rights not specifically and expressly granted in the license above to OXIS shall be reserved and remain always with MCIT.

4.4 Manufacturing Rights to Licensed Human Therapeutic Products.

4.4.1 MCIT hereby grants to OXIS the option to obtain a worldwide license to make or have made Licensed Human Therapeutic Products for sale in the Exclusive Field ("Option").

4.4.2 The Option shall expire THREE (3) YEARS from the Effective Date ("Option Period") and must be exercised in full prior to the lapse of the foregoing Option Period.

4.4.3 OXIS may exercise the Option, during the term of this Agreement, by delivering to MCIT, prior to the lapse of the Option Period, (i) a written notice of its election to exercise the Option; and (ii) the sum of _____. Failure to deliver both (i) and (ii) in the preceding sentence during the term of this Agreement and prior to the lapse of the Option Period shall void the Option.

5. Reports and Payments.

5.1. On or before the last business day of January, April, July, and October of each calendar year of this Agreement, OXIS shall submit to MCIT a written report with respect to the preceding calendar quarter (the "Payment Report") stating:

6. Payments.

6.1 Royalties shown to have accrued by each royalty report provided for under Section 5 above shall be due on the date such royalty report is due. Payment of royalties in whole or in part may be made in advance of such due date.

6.2 If at any time legal restrictions prevent the prompt remittance of part or all royalties with respect to any country in the Territory where the Licensed Human Therapeutic Product is sold, OXIS shall have the right, in its sole discretion, to make such payments by depositing the amount thereof in local currency to MCIT's account in a bank or other depository institution in such country. If the royalty rate specified in this Agreement should exceed the permissible rate established in any country, the royalty rate for sales in such country shall be adjusted to the highest legally permissible or government-approved rate.

6.3 OXIS shall be entitled to deduct the amount of any withholding taxes, value-added taxes or other taxes, levies or charges with respect to such amounts, other than United States taxes, payable by OXIS, its Affiliates or sub-licensees, or any taxes required to be withheld by OXIS, its Affiliates or sub-licensees, to the extent OXIS, its Affiliates or sub-licensees pay to the appropriate governmental authority on behalf of [Licensor] such taxes, levies or charges. OXIS shall use reasonable efforts to minimize any such taxes, levies or charges required to be withheld on behalf of Licensor by OXIS, its Affiliates or sub-licensees. OXIS promptly shall deliver to Licensor proof of payment of all such taxes, levies and other charges, together with copies of all communications from or with such governmental authority with respect thereto.

7. Research and Development Obligations.

7.1 OXIS shall conduct such research, development and preclinical and human clinical trials as OXIS determines are necessary or desirable to obtain regulatory approval to manufacture and market such Licensed Human Therapeutic Products as OXIS determines are commercially feasible in the Territory and as otherwise required to commence a Phase I clinical trial for a Licensed Human Therapeutic Product on or before the 3rd anniversary of the Effective Date, and shall use its commercially reasonable efforts to obtain regulatory approval to market, and following approval to commence marketing and market each such Licensed Human Therapeutic Product in such countries in the Territory as OXIS determines are commercially feasible.

7.2 OXIS shall maintain records, in sufficient detail and in good scientific manner, which shall reflect all work done and results achieved in the performance of its research and development regarding the Licensed Human Therapeutic Products.

7.3 No less often than every SIX (6) MONTH anniversary after the Effective Date OXIS shall report in writing to MCIT on progress made toward the objectives set forth above.

7.4 Notwithstanding anything else to the contrary, OXIS shall be required to commence a Phase I clinical trial for a Licensed Human Therapeutic Product anywhere in the Territory on or before the 3rd anniversary of the Effective Date.

8. Patents.

8.1 If OXIS determines that it desires a patent application to be made covering Licensed Human Therapeutic Products, OXIS will appoint qualified counsel after reasonable consultation with MCIT and to whom MCIT has no reasonable objection, and in consultation with patent counsel appointed by MCIT, OXIS will prepare and prosecute such application in MCIT's name and in countries designated by OXIS. OXIS will handle the filing of the patent applications with the appropriate patent offices. OXIS shall promptly provide copies to MCIT of any proposed patent application filing. OXIS shall in good faith take into consideration the advice and suggestions of MCIT and its patent counsel with regard to each such proposed patent application or communication. OXIS will reimburse MCIT for reasonable expenses it has incurred and will pay reasonable expenses incurred in the future in so filing and prosecuting such applications, including attorneys' fees, taxes, annuities, issue fees, working fees, maintenance fees and renewal charges. Each party hereto agrees to cooperate with the other party to execute all lawful papers and instruments, to make all rightful oaths and declarations and to provide consultation and assistance as may be necessary in the preparation, prosecution, maintenance, and reinforcement of all such patent applications and patents. All such patent applications and any letters patent issued thereupon shall be added to MCIT Patent Rights and subject to the licenses herein.

8.2 Each party shall notify the other party of any substantial infringement in the Territory known to such party of any MCIT Patent Rights, and shall provide the other party with the available evidence, if any, of such infringement.

8.3 MCIT shall have the right to exclusively determine the appropriate course of action to enforce MCIT Patent Rights or otherwise abate the infringement thereof, to take (or refrain from taking) appropriate action to enforce MCIT Patent Rights, to defend any declaratory judgments seeking to invalidate or hold the MCIT Patent Rights unenforceable, to control any litigation or other enforcement action and to enter into, or permit, the settlement of any such litigation, declaratory judgments or other enforcement action with respect to MCIT Patent Rights, in each case in MCIT's own name. If MCIT does not, within one hundred twenty (120) days of receipt of notice from OXIS, abate the infringement or file suit to enforce the MCIT Patent Rights against at least one infringing party in the Territory, OXIS shall have the right to take whatever action it deems appropriate to enforce the MCIT Patent Rights; provided, however, that, within thirty (30) days after receipt of notice of OXIS' intent to file such suit, MCIT shall have the right to jointly prosecute such suit and to fund up to one-half (½) the costs of such suit. The party controlling any such enforcement action shall not settle the action or otherwise consent to an adverse judgment in such action that diminishes the rights or interests of the non-controlling party without the prior written consent of the other party. All monies recovered upon the final judgment or settlement of any such suit to enforce the Licensed Patent Rights shall be shared, after reimbursement of each party's legal expenses, on a 50%/50% basis by each party.

8.4 In any suit to enforce and/or defend the MCIT Patent Rights pursuant to this Section 8, the party not in control of such suit shall, at the request and expense of the controlling party, reasonably cooperate and, to the extent possible, have its employees testify when requested and make available relevant records, papers, information, samples, specimens, and the like.

9. Confidentiality.

9.1 During the term of this Agreement, and for a period of five (5) years following the expiration or earlier termination hereof, each party shall maintain in confidence all information of the other party that is disclosed by the other party and identified as, or acknowledged to be, confidential at the time of disclosure (the "Confidential Information"), and shall not use, disclose or grant the use of the Confidential Information except (i) with respect to OXIS, as expressly permitted below; and (ii) with respect to MCIT except on a need-to-know basis to those directors, officers, affiliates, employees, permitted licensees, permitted assignees and agents, consultants, clinical investigators or contractors, to the extent such disclosure is reasonably necessary in connection MCIT's performing its obligations or exercising its rights under this Agreement. To the extent that disclosure is authorized by this Agreement, prior to disclosure, each party hereto shall obtain agreement of any such Person to hold in confidence and not make use of the Confidential Information for any purpose other than those permitted by this Agreement. Each party shall notify the other promptly upon discovery of any unauthorized use or disclosure of the other party's Confidential Information.

9.1.1 Notwithstanding anything else to the contrary herein, any disclosure by OXIS of Confidential Information to any employee, officer or director of OXIS is prohibited unless (i) said individual needs to know the information in order for OXIS to perform its obligations or exercise its rights under this Agreement; and (ii) said individual is bound by written obligations of confidentiality, non-use and intellectual property ownership to OXIS, no less restrictive as the corresponding obligations binding OXIS hereunder and under the RA; and

9.1.2 Notwithstanding anything else to the contrary herein, any disclosure by OXIS of Confidential Information to any Third Party including but not limited to consultants, agents, independent contractors, investors, or business partners is prohibited, except that OXIS is permitted to disclose portions of Confidential Information to employees of ***[REDACTED]*** who have a need to know the information in order for OXIS to be able to exercise the rights licensed to OXIS under Section 3.1(i) but only provided the minimum information is disclosed as required for such purpose; and (ii) each such recipient is, in each case, bound to OXIS by written obligations of confidentiality, non-use and intellectual property ownership, no less restrictive as the corresponding obligations binding OXIS hereunder and under the RA.

9.2 The confidentiality obligations contained in Section 9.1 above shall not apply to the extent that (a) any receiving party (the "Recipient") is required (i) to disclose information by law, regulation or order of a governmental agency or a court of competent jurisdiction, or (ii) to disclose information to any governmental agency for purposes of obtaining approval to test or market a product, provided in either case that the Recipient shall provide written notice thereof to the other party and sufficient opportunity to object to any such disclosure or to request confidential treatment thereof; or (b) the Recipient can demonstrate that (i) the disclosed information was public knowledge at the time of such disclosure to the Recipient, or thereafter became public knowledge, other than as a result of actions of the Recipient in violation hereof; (ii) the disclosed information was rightfully known by the Recipient (as shown by its written records) prior to the date of disclosure to the Recipient by the other party hereunder; (iii) the disclosed information was disclosed to the Recipient on an unrestricted basis from a source unrelated to any party to this Agreement and not under a duty of confidentiality to the other party; or (iv) the disclosed information was independently developed by the Recipient without use of the Confidential Information disclosed by the other party or breach of this Agreement.

9.3 Disclosure of Terms of this Agreement.

9.3.1 Except as otherwise provided in Section 9.3.2, MCIT and OXIS shall not disclose any terms or conditions of this Agreement to any Third Party without the prior consent of the other party hereto provided, however, that each party hereto may indicate the existence of this license with the other party and its terms and conditions in any of its filings with U.S. Securities Exchange Commission ("SEC").

9.3.2 Each party may issue a press release stating that they have entered into this Agreement. Said party's press release must be approved by the other party in advance of publication, and such approval will not be unreasonably withheld.

10. Prohibition Against Use of the Other Party's Name.

10.1. Neither party will not use the other party's the name, insignia, symbols, or combination thereof, or the name of employee for any purpose whatsoever without the other party's prior written consent, provided, however, that each party hereto may indicate the existence of this license with the other party in any of its SEC filings.

11. Compliance with Governmental Obligations.

11.1 Notwithstanding any provision in this Agreement, MCIT disclaims any obligation or liability arising under the license provisions of this Agreement if OXIS is charged in a governmental action for not complying with or fails to comply with governmental regulations in the course of taking steps to bring any Licensed Human Therapeutic Product to a point of practical application.

11.2. OXIS shall comply with all governmental requests directed to OXIS or (upon reasonable notice from MCIT) to LICENSOR and provide all information and assistance reasonably necessary to comply with legitimate governmental requests.

11.3 OXIS shall insure that research, development, and marketing under this Agreement complies with all government regulations in force and effect including, but not limited to, Federal, state, and municipal legislation.

12. Indemnification.

12.1 OXIS shall defend, indemnify and hold MCIT and its directors, officers, employees, agents and affiliates harmless from all losses, liabilities, damages and expenses (including attorneys' fees and costs) incurred as a result of any claim, demand, action or proceeding arising out of (i) any breach of the representations, warranties and covenants of OXIS in Section 2.2; (ii) any use of the MCIT Patent Rights and/or MCIT Technology Know-How by OXIS, whether authorized or not; (iii) any manufacture, storage, transportation, sale or use of Licensed Human Therapeutic Products; (iv) the use of any Licensed Research Products *in vivo* in humans; and (v) the negligence or willful misconduct of OXIS in the performance of its obligations under this Agreement.

12.2 MCIT promptly shall notify OXIS of any liability or action in respect of which MCIT intends to claim such indemnification and OXIS shall have the right to assume the defense thereof with counsel selected by OXIS. The indemnity agreement in this Section 12 shall not apply to amounts paid in settlement of any loss, claim, damage, liability or action if such settlement is effected without the consent of OXIS, which consent shall not be withheld unreasonably. The failure to deliver notice to OXIS within a reasonable time after the commencement of any such action, if prejudicial to its ability to defend such action, shall relieve OXIS of any liability to Licensor under this Section 12, but the omission so to deliver notice to OXIS will not relieve it of any liability that it may have to Licensor otherwise than under this Section 12. MCIT under this Section 12, its employees and agents, shall cooperate fully with OXIS and its legal representatives in the investigation and defense of any action, claim or liability covered by this indemnification.

12.3 OXIS shall maintain product liability insurance with respect to the research, development, manufacture and sales of Licensed Human Therapeutic Products by OXIS in such amount as OXIS customarily maintains with respect to the research, development, manufacture and sales of its similar products. OXIS shall maintain such insurance for so long as it continues to research, develop, manufacture or sell any Licensed Human Therapeutic Products, and thereafter for so long as OXIS customarily maintains insurance covering the research, development, manufacture or sale of its similar products.

12.4 NOTWITHSTANDING ANYTHING TO THE CONTRARY HEREIN, EXCEPT FOR OXIS' VIOLATION OF MCIT'S INTELLECTUAL PROPERTY RIGHTS OR EXCEEDING SCOPE OF ANY LICENSE RIGHTS HEREIN, NO PARTY SHALL BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES, WHETHER FORESEEABLE OR NOT, THAT ARE IN ANY WAY RELATED TO THIS AGREEMENT OR THE BREACH THEREOF, ANY TRANSACTIONS RESULTING FROM THIS AGREEMENT, LOSS OF GOODWILL OR PROFITS, LOST BUSINESS HOWEVER CHARACTERIZED AND/OR FROM ANY OTHER CAUSE WHATSOEVER, EVEN THOUGH THE PARTY MAY HAVE BEEN ADVISED OR MAY OTHERWISE KNOW OF THE POSSIBILITY OF SUCH DAMAGES.

13. Force Majeure.

13.1 Neither party shall be held liable or responsible to the other party nor be deemed to have defaulted under or breached this Agreement for failure or delay in fulfilling or performing any term of this Agreement to the extent, and for so long as, such failure or delay is caused by or results from causes beyond the reasonable control of the affected party including but not limited to fire, floods, embargoes, war, acts of war (whether war be declared or not), acts of terrorism, insurrections, riots, civil commotions, strikes, lockouts or other labor disturbances, acts of God or acts, omissions or delays in acting by any governmental authority or the other party.

14. Export Control Laws.

14.1 This Agreement is made subject to any restrictions concerning the export of products or technical information from the United States of America which may be imposed from time to time by the government of the United States of America. Furthermore, each party hereto agrees that it will not export or re-export, directly or indirectly, any technical information acquired from the other under this Agreement or any products using such technical information to any country for which the United States government or any agency thereof at the time of export requires an export license or other governmental approval, without first obtaining the written consent to do so from the Department of Commerce or other agency of the United States government when required by an applicable statute or regulation.

15. Termination.

15.1 Subject to Sections 15.2 and 15.3 below, this Agreement shall expire on the expiration of OXIS' obligation to pay royalties to MCIT under Section 4 above. The licenses granted under Section 3.1, and if the Option is fully exercised as permitted herein, 3.3, shall be effective at all times prior to such expiration.

15.2 OXIS may terminate this Agreement, in its sole discretion, upon THIRTY (30) DAYS prior written notice to MCIT.

15.3 Except as otherwise provided in Section 13, MCIT may terminate this Agreement upon or after the breach of any provision of this Agreement by OXIS if OXIS has not cured such breach within THIRTY (30) DAYS after receipt of express written notice thereof by MCIT.

15.4 Expiration or termination of this Agreement shall not relieve the parties of any obligation accruing prior to such expiration or termination, and the provisions of Sections 8, 9, 10, 11, 12, 14, and 15 and any other provisions which, by their terms, survive termination in order to give effect to their terms, shall survive the expiration or termination of this Agreement.

16. Miscellaneous.

16.3 Neither party shall assign its rights or obligations under this Agreement without the prior written consent of the other party; provided, however, that either party may, without such consent, assign this Agreement and its rights and obligations hereunder (a) to any Affiliate, or (b) in connection with the transfer or sale of all or substantially all of its business to which this Agreement relates, or in the event of its merger, consolidation, change in control or similar transaction. Any permitted assignee shall assume all obligations of its assignor under this Agreement.

16.3 This Agreement shall be governed by and construed in accordance with the laws of the State of California, without regard to the conflicts of law principles thereof.

16.4 Any dispute, controversy or claim initiated by either party arising out of, resulting from or relating to this Agreement, or the performance by either party of its obligations under this Agreement (other than (a) any dispute, controversy or claim regarding the validity, enforceability, claim construction or infringement of any patent rights, or defenses to any of the foregoing, or (b) any bona fide third party action or proceeding filed or instituted in an action or proceeding by a Third Party against a party to this Agreement), whether before or after termination of this Agreement, shall be finally resolved by binding arbitration. Whenever a party shall decide to institute arbitration proceedings, it shall give written notice to that effect to the other party. Any such arbitration shall be conducted under the Commercial Arbitration Rules of the American Arbitration Association by a panel of three arbitrators appointed in accordance with such rules. Any such arbitration shall be held in San Francisco, California. The method and manner of discovery in any such arbitration proceeding shall be governed by California Code of Civil Procedure § 1282 et seq. (including without limitation California Code of Civil Procedure § 1283.05). The arbitrators shall have the authority to grant specific performance and to allocate between the parties the costs of arbitration in such equitable manner as they determine. Judgment upon the award so rendered may be entered in any court having jurisdiction or application may be made to such court for judicial acceptance of any award and an order of enforcement, as the case may be. In no event shall a demand for arbitration be made after the date when institution of a legal or equitable proceeding based upon such claim, dispute or other matter in question would be barred by the applicable statute of limitations. Notwithstanding the foregoing, either party shall have the right, without waiving any right or remedy available to such party under this Agreement or otherwise, to seek and obtain from any court of competent jurisdiction any interim or provisional relief that is necessary or desirable to protect the rights or property of such party, pending the selection of the arbitrators hereunder or pending the arbitrators' determination of any dispute, controversy or claim hereunder.

16.5 OXIS will inform MCIT within five (5) business days of any regulatory approval for a Licensed Human Therapeutic Product, and will assist MCIT to apply for applicable extension of exclusivity, whether by patent extension, special protection certificate, data exclusivity, or the like.

16.6 No change, modification, extension, termination or waiver of this Agreement, or any of the provisions herein contained, shall be valid unless made in writing and signed by duly authorized representatives of the parties hereto.

16.7 This Agreement embodies the entire agreement between the parties and supersedes any prior representations, understandings and agreements between the parties regarding the subject matter hereof. There are no representations, understandings or agreements, oral or written, between the parties regarding the subject matter hereof that are not fully expressed herein.

16.8 Any of the provisions of this Agreement which are determined to be invalid or unenforceable in any jurisdiction shall be ineffective to the extent of such invalidity or unenforceability in such jurisdiction, without rendering invalid or unenforceable the remaining provisions hereof and without affecting the validity or enforceability of any of the terms of this Agreement in any other jurisdiction.

16.9 The waiver by either party hereto of any right hereunder or the failure to perform or of a breach by the other party shall not be deemed a waiver of any other right hereunder or of any other breach or failure by said other party whether of a similar nature or otherwise.

16.10 This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

IN WITNESS THEREOF, MCIT and OXIS have caused this Agreement to be executed by their duly authorized representatives as of the day and year first written above.

Notwithstanding anything to the contrary set forth in Section 6 below, each Note Holder hereby consents to the Financing and waives any and all rights of notice, participation or price-based anti-dilution adjustments it may have in connection with the Financing.

(b) Delivery of Shares. Within five (5) business days from the receipt of the physical Notes (or Affidavit, as applicable) from any Note Holder, the Company shall deliver the applicable Note Conversion Shares to such Note Holder in accordance with Section 1, provided the Note Holders shall not be required to surrender any Note that is not completely converted.

6. **Waiver and Release**. Effective immediately upon the Note Conversion with respect to the Notes held by each Note Holder:

(a) Such Note Holder expressly forfeits and waives any and all anti-dilution and piggyback registration rights under any and all Prior Transaction Documents or otherwise applicable to the Notes, including any anti-dilution rights such Note Holder may have with respect to the issuances of any capital stock or other securities of the Company pursuant to previous transactions and pursuant to this Agreement.

(b) Such Note Holder unconditionally, irrevocably and absolutely releases and discharges the Company, and any parent and subsidiary corporations, divisions and affiliated corporations, partnerships or other entities of the Company, past and present, as well as the Company's past and present employees, officers, directors, agents, principals, shareholders, successors and assigns from all claims, losses, demands, interests, causes of action, suits, debts, controversies, liabilities, costs, expenses and damages related to the waiver of anti-dilution and piggyback registration rights above, any security interest pursuant to any Prior Transaction Documents or otherwise over any collateral of the Company, or related in any way to any rights such Note Holder may have to equity or debt securities of the Company, other than as set forth on the schedules hereto. This release includes, but is not limited to, any tort, contract, common law, constitution or other statutory claims (including but not limited to any claims for attorneys' fees, costs and expenses).

(c) Such Note Holders and the Company expressly waives such Note Holder's or Company's (as applicable) right to recovery of any type, including damages or reinstatement, in any administrative court or action, whether state or federal, and whether brought by such Note Holder or Company or on such Note Holder's or Company's (as applicable) behalf, related in any way to the matters released herein.

(d) Such Note Holder and the Company acknowledges that it may discover facts or law different from, or in addition to, the facts or law that it knows or believes to be true with respect to the claims released in this Agreement and agrees, nonetheless, that this Agreement and the release contained in it shall be and remain effective in all respects notwithstanding such different or additional facts or the discovery of them.

(e) Such Note Holder and the Company declares and represents that it intends this Agreement to be complete and not subject to any claim of mistake, and that the release of the claims described herein expresses a full and complete release and it intends the release of such claims to be final and complete.

(f) The parties acknowledge that this release is not intended to bar any claims that, by statute, may not be waived.

7. **Trading Restrictions.** At all times during the one-year period immediately following the Closing in which any Note Holder participates, beginning on the Closing Date, such Note Holder hereby agrees with the Company and the other Note Holders that such Note Holder shall not sell any shares of the Company's capital stock in excess of the greater of the following volume limitations: (a) on any one day, the number of shares equal to 10% of the Company's trading volume for the immediately preceding trading day and (b) in any 22 trading day period, the number of shares equal to 10% of the Company's trading volume for such 22 trading day period. Notwithstanding the foregoing, the restrictions set forth in this Section 7 will terminate with respect to any Note Conversion Shares that are covered by an effective registration statement that may be filed by the Company. The parties hereto acknowledge and agree that, except as set forth in this Agreement, the Company is under no obligation to register any of the Note Conversion Shares.

8. **Miscellaneous.**

(a) **Legends.**

i. The Note Holders hereby acknowledge that a legend may be placed on any certificates representing any of the Note Conversion Shares to the effect that the Note Conversion Shares represented by such certificates are subject to a hold period and may not be traded until the expiry of such hold period except as permitted by applicable securities legislation.

ii. The Note Holders hereby acknowledge and agree to the Company making a notation on its records or giving instructions to the registrar and transfer agent of the Company (along with any successor transfer agent of the Company, the "***Transfer Agent***") in order to implement the restrictions on transfer set forth and described in this Agreement.

iii. Certificates evidencing the Note Conversion Shares shall not contain any legend (including any legend under this Section 8(a)): (i) while a registration statement covering the resale of such security is effective under the Securities Act, (ii) following any sale of such Note Conversion Shares pursuant to Rule 144, (iii) if such Note Conversion Shares are eligible for sale under Rule 144 or (iv) if such legend is not required under applicable requirements of the Securities Act (including judicial interpretations and pronouncements issued by the staff of the Securities and Exchange Commission). The Company shall cause its counsel to issue a legal opinion to the Transfer Agent promptly if required by the Transfer Agent to effect the removal of the legend hereunder. If all or any portion of a Note is converted at a time when there is an effective registration statement to cover the resale of the Note Conversion Shares, or if the Note Conversion Shares may be sold under Rule 144 or if such legend is not otherwise required under applicable requirements of the Securities Act (including judicial interpretations and pronouncements issued by the staff of the Commission) then such Note Conversion Shares shall be issued free of all legends. The Company agrees that following such time as such legend is no longer required under this Section 8(a), it will, no later than three business days following the delivery by a Note Holder to the Company or the Transfer Agent of a certificate representing Note Conversion Shares issued with a restrictive legend (such third business day, the "***Legend Removal Date***"), deliver or cause to be delivered to such Note Holder a certificate representing such shares that is free from all restrictive and other legends. The Company may not make any notation on its records or give instructions to the Transfer Agent that enlarge the restrictions on transfer set forth in this Section 8. Certificates for Note Conversion Shares subject to legend removal hereunder shall be transmitted by the Transfer Agent to the Note Holder by crediting the account of the Note Holder's prime broker with the Depository Trust Company System as directed by such Note Holder.

iv. In addition to the Note Holder's other available remedies, the Company shall pay to a Note Holder, in cash, as partial liquidated damages and not as a penalty, for each \$1,000 of Note Conversion Shares (based on the VWAP of the Common Stock of the Company on the date such Note Conversion Shares are submitted to the Transfer Agent) delivered for removal of the restrictive legend and subject to Section 8(a)(iii), \$10 per business day (increasing to \$20 per business day five (5) business days after such damages have begun to accrue) for each business day after the Legend Removal Date until such certificate is delivered without a legend. Nothing herein shall limit such Note Holder's right to pursue actual damages for the Company's failure to deliver certificates representing any Note Conversion Shares as required by this Agreement, and such Note Holder shall have the right to pursue all remedies available to it at law or in equity including, without limitation, a decree of specific performance and/or injunctive relief. For the purposes of this section, "**VWAP**" means, for any date, the price determined by the first of the following clauses that applies: (a) if the Common Stock is then listed or quoted on a Trading Market, the daily volume weighted average price of the Common Stock for such date (or the nearest preceding date) on the Trading Market on which the Common Stock is then listed or quoted as reported by Bloomberg L.P. (d) Furnishing of Information.

i. The payments to which a Note Holder shall be entitled pursuant to this Section 8(d)(ii) are referred to herein as "**Public Information Failure Payments**." Public Information Failure Payments shall be paid on the earlier of (i) the last day of the calendar month during which such Public Information Failure Payments are incurred and (ii) the third (3rd) business day after the event or failure giving rise to the Public Information Failure Payments is cured. In the event the Company fails to make Public Information Failure Payments in a timely manner, such Public Information Failure Payments shall bear interest at the rate of 1.5% per month (prorated for partial months) until paid in full. Nothing herein shall limit such Note Holder's right to pursue actual damages for the Public Information Failure, and such Note Holder shall have the right to pursue all remedies available to it at law or in equity including, without limitation, a decree of specific performance and/or injunctive relief.

REGISTRATION RIGHTS

1.1 **Company Registration.** If the Company shall determine to register any of its securities either for its own account or the account of a security holder or holders, other than a registration relating solely to employee benefit plans, a registration relating to a corporate reorganization or other Rule 145 transaction, or a registration on any registration form that does not permit secondary sales, the Company will:

- (a) promptly give written notice of the proposed registration to all Note Holders; and
- (b) use its commercially reasonable efforts to include in such registration (and any related qualification under blue sky laws or other compliance), except as set forth in Section 1.2 of this Exhibit B below, and in any underwriting involved therein, all of such Registrable Securities as are specified in a written request or requests made by any Note Holder or Note Holders received by the Company within 10 days after such written notice from the Company is mailed or delivered. Such written request may specify all or a part of a Note Holder's Registrable Securities.

1.2 **Underwriting.** If the registration of which the Company gives notice is for a registered public offering involving an underwriting, the Company shall so advise the Note Holders as a part of the written notice given pursuant to Section 1.1(a) of this Exhibit B. In such event, the right of any Note Holder to registration pursuant to this Section 1.2 shall be conditioned upon such Note Holder's participation in such underwriting and the inclusion of such Note Holder's Registrable Securities in the underwriting to the extent provided herein. All Note Holders proposing to distribute their securities through such underwriting shall (together with the Company, the Other Selling Stockholders and other holders of securities of the Company with registration rights to participate therein distributing their securities through such underwriting) enter into an underwriting agreement in customary form with the representative of the underwriter or underwriters selected by the Company.

Notwithstanding any other provision of this Section 1.2, if the underwriters advise the Company in writing that marketing factors require a limitation on the number of shares to be underwritten, the underwriters may (subject to the limitations set forth below) limit the number of Registrable Securities to be included in, the registration and underwriting. The Company shall so advise all holders of securities requesting registration, and the number of shares of securities that are entitled to be included in the registration and underwriting shall be allocated, as follows: (i) first, to the Company for securities being sold for its own account, and (ii) second, to the Note Holders and Other Selling Stockholders requesting to include Registrable Securities and Other Shares in such registration statement based on the *pro rata* percentage of Registrable Securities and Other Shares held by such Note Holders and Other Selling Stockholders, assuming conversion and (iii) third, to the Other Selling Stockholders requesting to include Other Shares in such registration statement based on the *pro rata* percentage of Other Shares held by such Other Selling Stockholders, assuming conversion.

If a person who has requested inclusion in such registration as provided above does not agree to the terms of any such underwriting, such person shall also be excluded therefrom by written notice from the Company or the underwriter. The Registrable Securities or other securities so excluded shall also be withdrawn from such registration. Any Registrable Securities or other securities excluded or withdrawn from such underwriting shall be withdrawn from such registration.

1.3 **Right to Terminate Registration.** The Company shall have the right to terminate or withdraw any registration initiated by it under this Exhibit B prior to the effectiveness of such registration whether or not any Note Holder has elected to include securities in such registration.

1.4 **Definitions.** The following definitions shall apply for the purposes of this Exhibit B:

- (a) **"Other Selling Stockholders"** shall mean persons other than Note Holders who, by virtue of agreements with the Company, are entitled to include their Other Shares in certain registrations hereunder.
- (b) **"Other Shares"** shall mean shares of Common Stock, other than Registrable Securities (as defined below), with respect to which registration rights have been granted.
- (c) **"Registrable Securities"** shall mean (i) shares of Common Stock issued or issuable pursuant to the conversion of the Notes and (ii) any Common Stock issued as a dividend or other distribution with respect to or in exchange for or in replacement of the shares referenced in (i) above; provided, however, that Registrable Securities shall not include any shares of Common Stock described in clause (i) or (ii) above which have previously been registered or which have been sold to the public either pursuant to a registration statement or Rule 144, or which have been sold in a private transaction in which the transferor's rights under this Agreement are not validly assigned in accordance with this Agreement.

(d) Valid Issuance of Stock. The Warrant Shares, when issued, sold and delivered in compliance with the provisions of this Agreement, will be duly and validly issued, fully paid and nonassessable and issued in compliance with applicable federal and state securities laws. Such Warrant Shares will also be free and clear of any liens or encumbrances; provided, however, that the Warrant Shares shall be subject to the provisions of this Agreement and restrictions on transfer under state and/or federal securities laws. The Warrant Shares are not subject to any preemptive rights, rights of first refusal or restrictions on transfer.

(e) Offering. Subject in part on the accuracy of the Warrant Holder's representations in Sections 4 and 5 (if applicable) hereof, the offer, sale and issuance of the Warrant Shares in conformity with the terms of this Agreement constitute transactions exempt from registration under the Securities Act of 1933, as amended (the "**Securities Act**") and from all applicable state securities laws.

(f) Governmental Consents. No consent, approval, qualification or authority of, or registration or filing with, any local, state or federal governmental authority on the part of the Company is required in connection with the valid execution, delivery or performance of this Agreement, or the offer, sale or issuance of the Shares, or the consummation of any transaction contemplated hereby, except (i) such filings as have been made prior to the date hereof and (ii) such additional post-closing filings as may be required to comply with applicable federal and state securities laws (including but not limited to any Form D or Form 8-K filings), and with applicable general corporation laws of the various states, each of which will be filed with the proper authority by the Company in a timely manner.

(g) Disclosure. As soon as practicable following the date of this Agreement, but in any event not later than four (4) business days following the date of this Agreement, the Company shall file with the Securities and Warrant Exercise Commission a Current Report on Form 8-K the ("**Current Report**") relating to the transactions contemplated by, and describing the material terms and conditions of, this Agreement. Upon filing of the Current Report with the Securities and Exchange Commission, the Warrant Holders shall not be in possession of any material, nonpublic information received from the Company, any of its subsidiaries or any of their respective officers, directors, employees or agents, that is not disclosed in the Current Report.

4. Representations and Warranties of all Warrant Holders. Each Warrant Holder, for itself and for no other person, hereby represents and warrants as of the date hereof to the Company as follows:

(a) Organization and Standing. The Warrant Holder is either an individual or an entity duly organized, validly existing under, and by virtue of, the laws of the jurisdiction of its incorporation or formation, and is in good standing under such laws.

(b) Corporate Power. The Warrant Holder has all right, corporate, partnership, limited liability company or similar power and authority to execute and deliver this Agreement, to effect the Warrant Exercise hereunder, and to carry out and perform its obligations under the terms of this Agreement and the transactions contemplated hereby.

(c) Authorization. All corporate, partnership, limited liability company or similar action, as applicable on the part of such Warrant Holder, necessary for the authorization, execution, delivery and performance of this Agreement, the Warrant Exercise and the performance of all of such Warrant Holder's obligations hereunder have been taken or will be taken prior to the Closing. This Agreement has been duly executed by the Warrant Holder and constitutes valid and legally binding obligations of such Warrant Holder, enforceable against such Warrant Holder in accordance with their respective terms, subject to the laws of general application relating to bankruptcy, insolvency and the relief of debtors and rules of law governing specific performance, injunctive relief or other equitable remedies.

(d) Governmental Consents. No consent, approval, qualification or authority of, or registration or filing with, any local, state or federal governmental authority on the part of the Company is required in connection with the valid execution, delivery or performance of this Agreement, or the offer, sale or issuance of the Warrant Shares, or the consummation of any transaction contemplated hereby, except such filings as have been made prior to the date hereof.

(e) Own Account. Such Warrant Holder understands that the Warrant Shares are "restricted securities" and have not been registered under the Securities Act or any applicable state securities law in reliance upon exemptions from regulation for non-public offerings and is acquiring the Warrant Shares as principal for its own account and not with a view to or for distributing or reselling such Warrant Shares or any part thereof in violation of the Securities Act or any applicable state securities law, has no present intention of distributing any such Warrant Shares in violation of the Securities Act or any applicable state securities law and has no direct or indirect arrangement or understandings with any other persons to distribute or regarding the distribution of such Warrant Shares in violation of the Securities Act or any applicable state securities law. Such Warrant Holder agrees that the Warrant Shares or any interest therein will not be sold or otherwise disposed of by such Warrant Holder unless the shares are subsequently registered under the Securities Act and under appropriate state securities laws or unless the Company receives an opinion of counsel satisfactory to it that an exception from registration is available.

(f) Warrant Holder Status. The Warrant Holder is either: (i) an "accredited investor" as defined in Rule 501(a)(1), (a)(2), (a)(3), (a)(7) or (a)(8) under the Securities Act or (ii) a "qualified institutional buyer" as defined in Rule 144A under the Securities Act. Such Warrant Holder is not required to be registered as a broker-dealer under Section 15 of the Securities Exchange Act of 1934, as amended (the "**Exchange Act**").

(g) Experience of Warrant Holder. (h) Ability to Bear Risk. Such Warrant Holder understands and acknowledges that an investment in the Company is highly speculative and involves substantial risks. Such Warrant Holder is able to bear the economic risk of an investment in the Warrant Shares and is able to afford a complete loss of such investment.

(i) General Solicitation. Such Warrant Holder is not accepting the Warrant Shares as a result of any advertisement, article, notice or other communication regarding the Warrant Shares published in any newspaper, magazine or similar media or broadcast over television or radio or presented at any seminar or any other general solicitation or general advertisement.

(j) Disclosure of Information. Such Warrant Holder has had the opportunity to receive all additional information related to the Company requested by it and to ask questions of, and receive answers from, the Company regarding the Company, including the Company's business management and financial affairs, and the terms and conditions of this offering of the Warrant Shares. Such questions were answered to such Warrant Holder's satisfaction. Such Warrant Holder has also had access to copies of the Company's filings with the Securities Exchange Commission under the Securities Act and Exchange Act. The Warrant Holder believes that it has received all the information such Warrant Holder considers necessary or appropriate for deciding whether to consummate the Warrant Exercise. The Warrant Holder understands that such discussions, as well as any information issued by the Company, were intended to describe certain aspects of the Company's business and prospects, but were not necessarily a thorough or exhaustive description. The Warrant Holder acknowledges that any business plans prepared by the Company have been, and continue to be, subject to change and that any projections included in such business plans or otherwise are necessarily speculative in nature and it can be expected that some or all of the assumptions underlying the projections will not materialize or will vary significantly from actual results.

(k) Residency. The residency of the Warrant Holder (or in the case of a partnership or corporation, such entity's principal place of business) is correctly set forth on the signature pages attached hereto.

(l) Security Holdings. The Warrants held by each Warrant Holder, as applicable, as of the date hereof are correctly described on Schedule B attached hereto. The Warrant Holder does not hold any other securities or equity interests in the Company other than what is set forth opposite such Warrant Holder's name on Schedule B attached hereto, Schedule B to the Note Conversion Agreement, dated January 7, 2016 and Schedule B to the Preferred Stock Exchange Agreement, dated January 7, 2016, each of which is incorporated herein by reference as though fully set forth herein and made a part of this Agreement.

(m) Tax Matters. The Warrant Holder has reviewed with its own tax advisors the U.S. federal, state, local and foreign tax consequences of this investment and the transaction contemplated by this Agreement. The Warrant Holder understands that it (and not the Company) shall be responsible for its own tax liability that may arise as a result of this investment and the transactions contemplated by this Agreement.

(n) Restrictions on Transferability; No Endorsement. The Warrant Holder has been informed of and understand the following:

i. there are substantial restrictions on the transferability of the Warrant Shares; or

ii. no federal or state agency has made any finding or determination as to the fairness for public investment, nor any recommendation nor endorsement of the Warrant Shares.

(o) No Other Representation by the Company. None of the following information has ever been represented, guaranteed or warranted to the Warrant Holder, expressly or by implication by any broker, the Company, or agent or employee of the foregoing, or by any other Person:

i. the approximate or exact length of time that the Warrant Holder will be required to remain a holder of the Warrant Shares;

5. Representations, Warranties and Covenants of Non-US Warrant Holders. Each Warrant Holder who is a Non-U.S. Person (as defined herein) hereby represents and warrants to the Company as follows (provided however a Warrant Holder may not make the representation in this Section 5 if it so indicates on such Warrant Holder's signature page):

ii. in issuing and selling the Warrant Shares to such Non-U.S. Warrant Holder pursuant to hereto, the Company is relying upon the "safe harbor" provided by Regulation S and/or on Section 4(a)(2) under the Securities Act;

iii. it is a condition to the availability of the Regulation S "safe harbor" that the Warrant Shares not be offered or sold in the United States or to a U.S. person until the expiration of a period of one year following the Closing Date; notwithstanding the foregoing, prior to the expiration of one year after the Closing (the "**Restricted Period**"), the Warrant Shares may be offered and sold by the holder thereof only if such offer and sale is made in compliance with the terms of this Agreement and either: (A) if the offer or sale is within the United States or to or for the account of a U.S. person, the securities are offered and sold pursuant to an effective registration statement or pursuant to Rule 144 under the Securities Act or pursuant to an exemption from registration requirements of the Securities Act, or (B) the offer and sale is outside the United States and to other than a U.S. person.

(d) Certain Restrictions on Warrant Shares. Such Non-U.S. Warrant Holder agrees that with respect to the Shares until the expiration of the Restricted Period:

i. such Non-U.S. Warrant Holder, its agents or its representatives have not and will not solicit offers to buy, offer for sale or sell any of the Shares or any beneficial interest therein in the United States or to or for the account of a U.S. person during the Restricted Period; notwithstanding the foregoing, prior to the expiration of the Restricted Period, the Warrant Shares may be offered and sold by the holder thereof only if such offer and sale is made in compliance with the terms of this Agreement and either: (A) if the offer or sale is within the United States or to or for the account of a U.S. person, the securities are offered and sold pursuant to an effective registration statement or pursuant to Rule 144 under the Securities Act or pursuant to an exemption from registration requirements of the Securities Act; or (B) the offer and sale is outside the United States and to a person other than a U.S. person; and

ii. such Non-U.S. Warrant Holder shall not engage in hedging transactions with regards to the Warrant Shares unless in compliance with the Securities Act.

The foregoing restrictions are binding upon subsequent transferees of the Warrant Shares, except for transferees pursuant to an effective registration statement. Such Non-U.S. Warrant Holder agrees that after the Restricted Period, the Warrant Shares may be offered or sold within the United States or to or for the account of a U.S. person only pursuant to applicable securities laws.

(e) Directed Selling. Such Non-U.S. Warrant Holder has not engaged, nor is it aware that any party has engaged, and such Non-U.S. Warrant Holder will not engage or cause any third party to engage, in any directed selling efforts (as such term is defined in Regulation S) in the United States with respect to the Shares.

(f) Location of Non-U.S. Warrant Holder. Such Non-U.S. Warrant Holder: (i) is domiciled and has its principal place of business or registered office outside the United States; (ii) certifies it is not a U.S. person and is not acquiring the Warrant Shares for the account or benefit of any U.S. person; and (iii) at the time of Closing, the Non-U.S. Warrant Holder or persons acting on the Non-U.S. Warrant Holder's behalf in connection therewith are located outside the United States.

(g) Distributor; Dealer. Such Non-U.S. Warrant Holder is not a "distributor" (as defined in Regulation S) or a "dealer" (as defined in the Securities Act).

(h) Notation of Restrictions. Such Non-U.S. Warrant Holder acknowledges that the Company shall make a notation in its stock books regarding the restrictions on transfer set forth in this section and shall transfer such shares on the books of the Company only to the extent consistent therewith.

(i) Compliance with Laws. Such Non-U.S. Warrant Holder is satisfied as to the full observance of the laws of such Non-U.S. Warrant Holder's jurisdiction in connection with the Warrant Exercise, including (i) the legal requirements within such Non-U.S. Warrant Holder's jurisdiction for the Warrant Exercise, (ii) any foreign Warrant Exercise restrictions applicable to such Warrant Exercise, (iii) any governmental or other consents that may need to be obtained and (iv) the income tax and other tax consequences, if any, that may be relevant to the Warrant Exercise, holding, redemption, sale or transfer of such securities. Such Non-U.S. Warrant Holder's participation in the Warrant Exercise, and such Non-U.S. Warrant Holder's continued beneficial ownership of the Warrant Shares will not violate any applicable securities or other laws of such Non-U.S. Warrant Holder's jurisdiction.

6. Waiver and Release.

(a) Each Warrant Holder expressly forfeits and waives any and all anti-dilution and piggyback registration rights under any and all Prior Transaction Documents or otherwise applicable to the Warrants, including any anti-dilution rights such Warrant Holder may have with respect to the issuances of any capital stock or other securities of the Company pursuant to previous transactions and pursuant to this Agreement.

(b) Each Warrant Holder unconditionally, irrevocably and absolutely releases and discharges the Company, and any parent and subsidiary corporations, divisions and affiliated corporations, partnerships or other entities of the Company, past and present, as well as the Company's past and present employees, officers, directors, agents, principals, shareholders, successors and assigns from all claims, losses, demands, interests, causes of action, suits, debts, controversies, liabilities, costs, expenses and damages related to the waiver of anti-dilution and piggyback registration rights above, any security interest pursuant to any Prior Transaction Documents or otherwise over any collateral of the Company, or related in any way to any rights such Warrant Holder may have to equity or debt securities of the Company, other than as set forth on the schedules hereto. This release includes, but is not limited to, any tort, contract, common law, constitution or other statutory claims (including but not limited to any claims for attorneys' fees, costs and expenses).

(c) Each of the Warrant Holders and the Company expressly waives such Warrant Holder's or Company's (as applicable) right to recovery of any type, including damages or reinstatement, in any administrative court or action, whether state or federal, and whether brought by such Warrant Holder or Company or on such Warrant Holder's or Company's (as applicable) behalf, related in any way to the matters released herein.

(d) Each of the Warrant Holders and the Company acknowledges that it may discover facts or law different from, or in addition to, the facts or law that it knows or believes to be true with respect to the claims released in this Agreement and agrees, nonetheless, that this Agreement and the release contained in it shall be and remain effective in all respects notwithstanding such different or additional facts or the discovery of them.

(e) Each of the Warrant Holders and the Company declares and represents that it intends this Agreement to be complete and not subject to any claim of mistake, and that the release of the claims described herein expresses a full and complete release and it intends the release of such claims to be final and complete.

(f) The parties acknowledge that this release is not intended to bar any claims that, by statute, may not be waived.

7. **Trading Restrictions.** At all times during the one-year period immediately following the Closing, beginning on the Closing Date, each Warrant Holder hereby agrees with the Company and the other Warrant Holders that such Warrant Holder shall not sell any shares of the Company's capital stock in excess of the greater of the following volume limitations: (a) on any one day, the number of shares equal to 10% of the Company's trading volume for the immediately preceding trading day and (b) in any 22 trading day period, the number of shares equal to 10% of the Company's trading volume for such 22 trading day period. Notwithstanding the foregoing, the restrictions set forth in this Section 7 will terminate with respect to any Warrant Shares that are covered by an effective registration statement that may be filed by the Company. The parties hereto acknowledge and agree that the Company is under no obligation to register any of the Warrant Shares.

8. **Miscellaneous.**

(a) **Legends.**

i. The Warrant Holders hereby acknowledge that a legend may be placed on any certificates representing any of the Warrant Shares to the effect that the Warrant Shares represented by such certificates are subject to a hold period and may not be traded until the expiry of such hold period except as permitted by applicable securities legislation.

ii. The Warrant Holders hereby acknowledge and agree to the Company making a notation on its records or giving instructions to the registrar and transfer agent of the Company (along with any successor transfer agent of the Company, the "***Transfer Agent***") in order to implement the restrictions on transfer set forth and described in this Agreement.

iii. Certificates evidencing the Warrant Shares shall not contain any legend (including any legend under this Section 8(a)): (i) while a registration statement covering the resale of such security is effective under the Securities Act, (ii) following any sale of such Warrant Shares pursuant to Rule 144, (iii) if such Warrant Shares are eligible for sale under Rule 144 or (iv) if such legend is not required under applicable requirements of the Securities Act (including judicial interpretations and pronouncements issued by the staff of the Securities and Exchange Commission). The Company shall cause its counsel to issue a legal opinion to the Transfer Agent promptly if required by the Transfer Agent to effect the removal of the legend hereunder. If all or any portion of a Warrant is exercised at a time when there is an effective registration statement to cover the resale of the Warrant Shares, or if the Warrant Shares may be sold under Rule 144 or if such legend is not otherwise required under applicable requirements of the Securities Act (including judicial interpretations and pronouncements issued by the staff of the Commission) then such Warrant Shares shall be issued free of all legends. The Company agrees that following such time as such legend is no longer required under this Section 8(a), it will, no later than three business days following the delivery by a Warrant Holder to the Company or the Transfer Agent of a certificate representing Warrant Shares issued with a restrictive legend (such third business day, the "**Legend Removal Date**"), deliver or cause to be delivered to such Warrant Holder a certificate representing such shares that is free from all restrictive and other legends. The Company may not make any notation on its records or give instructions to the Transfer Agent that enlarge the restrictions on transfer set forth in this Section 8. Certificates for Warrant Shares subject to legend removal hereunder shall be transmitted by the Transfer Agent to the Warrant Holder by crediting the account of the Warrant Holder's prime broker with the Depository Trust Company System as directed by such Warrant Holder.

iv. In addition to the Warrant Holder's other available remedies, the Company shall pay to a Warrant Holder, in cash, as partial liquidated damages and not as a penalty, for each \$1,000 of Warrant Shares (based on the VWAP of the Common Stock of the Company on the date such Warrant Shares are submitted to the Transfer Agent) delivered for removal of the restrictive legend and subject to Section 8(a)(iii), \$10 per business day (increasing to \$20 per business day five (5) business days after such damages have begun to accrue) for each business day after the Legend Removal Date until such certificate is delivered without a legend. Nothing herein shall limit such Warrant Holder's right to pursue actual damages for the Company's failure to deliver certificates representing any Warrant Shares as required by this Agreement, and such Warrant Holder shall have the right to pursue all remedies available to it at law or in equity including, without limitation, a decree of specific performance and/or injunctive relief. For the purposes of this section, "**VWAP**" means, for any date, the price determined by the first of the following clauses that applies: (a) if the Common Stock is then listed or quoted on a Trading Market, the daily volume weighted average price of the Common Stock for such date (or the nearest preceding date) on the Trading Market on which the Common Stock is then listed or quoted as reported by Bloomberg L.P. (based on a Trading Day from 9:30 a.m. (New York City time) to 4:02 p.m. (New York City time)), (b) if the OTC Bulletin Board is not a Trading Market, the volume weighted average price of the Common Stock for such date (or the nearest preceding date) on the OTC Bulletin Board, (c) if the Common Stock is not then listed or quoted for trading on the OTC Bulletin Board and if prices for the Common Stock are then reported in the "Pink Sheets" published by Pink OTC Markets, Inc. (or a similar organization or agency succeeding to its functions of reporting prices), the most recent bid price per share of the Common Stock so reported, or (d) in all other cases, the fair market value of a share of Common Stock as determined by an independent appraiser selected in good faith by the Purchasers of a majority in interest of the Securities then outstanding and reasonably acceptable to the Company, the fees and expenses of which shall be paid by the Company. For the purposes of this section, "**Trading Market**" means any of the following markets or exchanges on which the Common Stock is listed or quoted for trading on the date in question: the NYSE MKT, the Nasdaq Capital Market, the Nasdaq Global Market, the Nasdaq Global Select Market, the New York Stock Exchange, the OTC Bulletin Board, or any market of the OTC Markets, Inc. (or any successors to any of the foregoing).

(b) Registration Rights. Holders of Warrant Shares will have the registration rights described in Exhibit B hereto.

(c) Transfers. Subject to Section 7 above, the Company hereby confirms that it will not require a legal opinion or "no action" letter from any Warrant Holder who desires to transfer the Warrant Shares in compliance with Rule 144 promulgated by the Securities and Exchange Commission under the Securities Act ("**Rule 144**").

(d) Tacking. Each party hereto acknowledges that the holding period for the Warrant Shares may be tacked back to the date such Warrant exercised therefor was initially issued.

(e) Furnishing of Information.

i. Until the earliest of the time that no Warrant Holder owns Warrant or Warrant Shares, the Company covenants to maintain the registration of its Common Stock under Section 12(b) or 12(g) of the Exchange Act. During the period that the Warrant Holders own Warrants or Warrant Shares, the Company shall timely file (or obtain extensions in respect thereof and file within the applicable grace period) all reports required to be filed by the Company pursuant to the Exchange Act, even if the Company is not then subject to the reporting requirements of the Exchange Act.

ii. At any time during the period commencing on the Closing Date and ending at such time that all of the Warrant Shares may be sold without the requirement for the Company to be in compliance with Rule 144(c)(1) and otherwise without restriction or limitation pursuant to Rule 144, if the Company shall fail for any reason to satisfy the current public information requirement under Rule 144(c) (a "**Public Information Failure**") then, in addition to such Warrant Holder's other available remedies, the Company shall pay to a Warrant Holder, in cash, as partial liquidated damages and not as a penalty, by reason of any such delay in or reduction of its ability to sell the Warrants or Warrant Shares, an amount in cash equal to two percent (2.0%) of the aggregate exercise price of the Warrants that were exercised by such Warrant Holder pursuant to this Agreement on the day of a Public Information Failure and on every thirtieth (30th) day (pro rated for periods totaling less than thirty days) thereafter until the earlier of: (a) the date such Public Information Failure is cured, and (b) such time that such public information is no longer required for the Warrant Holders to transfer the Warrant Shares pursuant to Rule 144. The payments to which a Warrant Holder shall be entitled pursuant to this Section 8(d)(ii) are referred to herein as "**Public Information Failure Payments**." Public Information Failure Payments shall be paid on the earlier of (i) the last day of the calendar month during which such Public Information Failure Payments are incurred and (ii) the third (3rd) business day after the event or failure giving rise to the Public Information Failure Payments is cured. In the event the Company fails to make Public Information Failure Payments in a timely manner, such Public Information Failure Payments shall bear interest at the rate of 1.5% per month (prorated for partial months) until paid in full. Nothing herein shall limit such Warrant Holder's right to pursue actual damages for the Public Information Failure, and such Warrant Holder shall have the right to pursue all remedies available to it at law or in equity including, without limitation, a decree of specific performance and/or injunctive relief.

(f) Reliance on Representations and Warranties by the Company. Each Warrant Holder acknowledges that the representations and warranties contained herein are made by it with the intention that such representations and warranties may be relied upon by the Company and its legal counsel in determining the Warrant Holder's eligibility to purchase the Warrant Shares under applicable securities legislation, or (if applicable) the eligibility of others on whose behalf it is contracting hereunder to purchase the Warrant Shares under applicable securities legislation. The Warrant Holder further agrees that the representations and warranties made by the Warrant Holder will survive the Warrant Exercise and will continue in full force and effect notwithstanding any subsequent disposition of the Warrant Holder of such Warrant Shares.

(g) Fees and Expenses. Each party shall pay the fees and expenses of its advisors, counsel, accountants and other experts, if any, and all other expenses incurred by such party incident to the preparation, execution, delivery and performance of this Agreement.

(h) Entire Agreement. This Agreement, together with the schedules attached hereto, contain the entire understanding of the parties with respect to the subject matter hereof and supersede all prior agreements and understandings, oral or written with respect to such matters.

(i) Notices. All notices, demands requests, consents, approvals, and other communications required or permitted hereunder shall be in writing and, unless otherwise specified herein, shall be (i) personally served, (ii) deposited in the mail, registered or certified, return receipt requested, postage prepaid, (iii) delivered by reputable air courier service with charges prepaid, or (iv) transmitted by hand delivery, telegram or facsimile, addressed as set forth below or to such other address as such party shall have specified most recently by written notice. Any notice or other communication required or permitted to be given hereunder shall be deemed effective (a) upon hand delivery or delivery by facsimile, with accurate confirmation generated by the transmitting facsimile machine, at the address or number designated below (if delivered on a business day during normal business hours where such notice is to be received), or the first business day following such delivery (if delivered other than on a business day during normal business hours where such notice is to be received) or (b) on the second business day following the date of mailing by express courier service, fully prepaid, addressed to such address, or upon actual receipt of such mailing, whichever shall occur first. The addresses for such communications shall be: (i) if to the Company, to: OXIS International, Inc., Attn: Chief Executive Officer, 4830 West Kennedy Blvd., Suite 600, Tampa, Florida 33609, facsimile: 813-436-5588, with a copy (which shall not constitute notice) to DLA Piper LLP (US), Attn: Paul Hurdlow, 401 Congress Avenue, Suite 2500, Austin, Texas 78701, facsimile: +1.512.457.7001, attn.: Paul Hurdlow, and (iii) if to the Warrant Holders, to the addresses and fax numbers as indicated on the signature pages attached hereto.

(j) Amendments; Waivers. No provision of this Agreement may be waived, modified, supplemented or amended except in a written instrument signed, in the case of an amendment, by the Company and the Warrant Holders holding at least a majority in interest of the Shares then outstanding or, in the case of a waiver, by the party against whom enforcement of any such waived provision is sought; provided, that all waivers, modifications, supplements or amendments effected by less than all Warrant Holders impact all Warrant Holders in the same fashion. No waiver with respect to any provision, condition or requirement of this Agreement shall be deemed to be a continuing waiver in the future or a waiver of any other provision, condition or requirement hereof, nor shall any delay or omission of any party to exercise any right hereunder in any manner impair the exercise of any such right.

(k) Headings. The headings herein are for convenience only, do not constitute a part of this Agreement and shall not be deemed to limit or affect any of the provisions hereof.

(l) Successors and Assigns. This Agreement shall be binding upon and inure to the benefit of the parties and their successors and permitted assigns.

(m) No Third-Party Beneficiaries. This Agreement is intended for the benefit of the parties hereto and their respective successors and assigns, and is not for the benefit of, nor may any provision hereof be enforced by, any other Person.

(n) Governing Law. All questions concerning the construction, validity, enforcement and interpretation of this Agreement and the transactions contemplated hereby shall be governed by and construed and enforced in accordance with the internal laws of the State of Delaware, without regard to the principals of conflicts of law thereof. Each party agrees that all legal proceedings concerning the interpretations, enforcement and defense of the transactions contemplated by this Agreement (whether brought against a party hereto or its respective affiliates, directors, officers, shareholders, partners, members, employees or agents) shall be commenced exclusively in the state and federal courts of Delaware. Each party hereby irrevocably submits to the exclusive jurisdiction of the state and federal courts of Delaware for the adjudication of any dispute hereunder or in connection herewith or the transaction contemplated hereby or discussed herein, and hereby irrevocably waives, and agrees not to assert in any suit, action or proceeding, any claim that it is not venue for such proceeding. Each party hereby irrevocably waives personal service of process and consents to process being served in any such suit, action or proceeding by mailing a copy thereof via registered or certified mail or overnight delivery (with evidence of delivery) to such party at the address in effect for notices to it under this Agreement and agrees that such service shall constitute good and sufficient service of process and notice thereof.

(o) Survival. The representations and warranties contained herein shall survive the Closing for the applicable statute of limitations.

(p) Execution. This Agreement may be executed in one or more counterparts, all of which when taken together shall be considered one and the same agreement, it being understood that the parties need not sign the same counterpart. In the event that any signature is delivered by facsimile transmission or by email delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature was an original thereof.

(q) Severability. If any term, provision, covenant or restriction of this Agreement is held by a court of competent jurisdiction to be invalid, illegal, void or unenforceable, the remainder of the terms, provisions, covenants and restrictions set forth herein shall remain in full force and effect and shall in no way be affected, impaired or invalidated, and the parties hereto shall use their commercially reasonable efforts to find and employ, an alternative means to achieve the same or substantially the same result as that contemplated by such term, provision, covenant or restriction. It is hereby stipulated and declared to be the intention of the parties that they would have executed the remaining terms, provisions, covenants and restrictions without including any of such that may be hereafter declared invalid, illegal, void or unenforceable.

(r) Independent Nature of Obligations and Rights. The obligations of each Warrant Holder and hereunder are several and not joint with the obligations of any other Warrant Holder, and no Warrant Holder shall be responsible in any way for the performance or non-performance of the obligations of any other Warrant Holder hereunder. Nothing contained herein and no action taken by any Warrant Holder hereto shall be deemed to constitute the Warrant Holders as a partnership, an association, a joint venture or any other kind of entity, or create a presumption that the Warrant Holders are in any way acting in concert or as a group with respect to such obligations or the transactions contemplated hereby.

(s) No Third Party Beneficiaries. Nothing in this Agreement shall provide any benefit to any third party nor entitle any third party to any claim, cause of action, remedy or right of any kind, it being the intent of the parties hereto that this Agreement shall not otherwise be construed as a third party beneficiary contract.

(t) Construction. The parties hereto agree that each of them and/or their respective counsel have reviewed and have had an opportunity to revise this Agreement and the schedules attached hereto. This Agreement shall be construed according to its fair meaning and not strictly for or against any party. The word "including" shall be construed to include the words "without limitation." In this Agreement, unless the context otherwise requires, references to the singular shall include the plural and vice versa.

(u) **WAIVER OF JURY TRIAL.** IN ANY ACTION, SUIT OR PROCEEDING IN ANY JURISDICTION BROUGHT BY ANY PARTY AGAINST ANY OTHER PARTY, THE PARTIES EACH KNOWINGLY AND INTENTIONALLY, TO THE GREATEST EXTENT PERMITTED BY APPLICABLE LAW, HEREBY ABSOLUTELY, UNCONDITIONALLY, IRREVOCABLY AND EXPRESSLY WAIVES FOREVER TRIAL BY JURY.

REGISTRATION RIGHTS

1.1 **Company Registration.** If the Company shall determine to register any of its securities either for its own account or the account of a security holder or holders, other than a registration relating solely to employee benefit plans, a registration relating to a corporate reorganization or other Rule 145 transaction, or a registration on any registration form that does not permit secondary sales, the Company will:

- (a) promptly give written notice of the proposed registration to all Warrant Holders; and
- (b) use its commercially reasonable efforts to include in such registration (and any related qualification under blue sky laws or other compliance), except as set forth in Section 1.2 of this Exhibit B below, and in any underwriting involved therein, all of such Registrable Securities as are specified in a written request or requests made by any Warrant Holder or Warrant Holders received by the Company within 10 days after such written notice from the Company is mailed or delivered. Such written request may specify all or a part of a Warrant Holder's Registrable Securities.

1.2 **Underwriting.** If the registration of which the Company gives notice is for a registered public offering involving an underwriting, the Company shall so advise the Warrant Holders as a part of the written notice given pursuant to Section 1.1(a) of this Exhibit B. In such event, the right of any Warrant Holder to registration pursuant to this Section **Error! Reference source not found.** shall be conditioned upon such Warrant Holder's participation in such underwriting and the inclusion of such Warrant Holder's Registrable Securities in the underwriting to the extent provided herein. All Warrant Holders proposing to distribute their securities through such underwriting shall (together with the Company, the Other Selling Stockholders and other holders of securities of the Company with registration rights to participate therein distributing their securities through such underwriting) enter into an underwriting agreement in customary form with the representative of the underwriter or underwriters selected by the Company.

Notwithstanding any other provision of this Section **Error! Reference source not found.**, if the underwriters advise the Company in writing that marketing factors require a limitation on the number of shares to be underwritten, the underwriters may (subject to the limitations set forth below) limit the number of Registrable Securities to be included in, the registration and underwriting. The Company shall so advise all holders of securities requesting registration, and the number of shares of securities that are entitled to be included in the registration and underwriting shall be allocated, as follows: (i) first, to the Company for securities being sold for its own account, and (ii) second, to the Warrant Holders and Other Selling Stockholders requesting to include Registrable Securities and Other Shares in such registration statement based on the *pro rata* percentage of Registrable Securities and Other Shares held by such Warrant Holders and Other Selling Stockholders, assuming exercise and (iii) third, to the Other Selling Stockholders requesting to include Other Shares in such registration statement based on the *pro rata* percentage of Other Shares held by such Other Selling Stockholders, assuming exercise.

If a person who has requested inclusion in such registration as provided above does not agree to the terms of any such underwriting, such person shall also be excluded therefrom by written notice from the Company or the underwriter. The Registrable Securities or other securities so excluded shall also be withdrawn from such registration. Any Registrable Securities or other securities excluded or withdrawn from such underwriting shall be withdrawn from such registration.

1.3 **Right to Terminate Registration.** The Company shall have the right to terminate or withdraw any registration initiated by it under this Exhibit B prior to the effectiveness of such registration whether or not any Warrant Holder has elected to include securities in such registration.

1.4 **Definitions.** The following definitions shall apply for the purposes of this Exhibit B:

(a) **"Other Selling Stockholders"** shall mean persons other than Warrant Holders who, by virtue of agreements with the Company, are entitled to include their Other Shares in certain registrations hereunder.

(b) **"Other Shares"** shall mean shares of Common Stock, other than Registrable Securities (as defined below), with respect to which registration rights have been granted.

(c) **"Registrable Securities"** shall mean (i) shares of Common Stock issued or issuable pursuant to the exercise of the Warrants and (ii) any Common Stock issued as a dividend or other distribution with respect to or in exchange for or in replacement of the shares referenced in (i) above; *provided, however*, that Registrable Securities shall not include any shares of Common Stock described in clause (i) or (ii) above which have previously been registered or which have been sold to the public either pursuant to a registration statement or Rule 144, or which have been sold in a private transaction in which the transferor's rights under this Agreement are not validly assigned in accordance with this Agreement.

PREFERRED STOCK EXCHANGE AGREEMENT

This Preferred Stock Exchange Agreement (this "**Agreement**") is entered into as of January 8, 2016, by and among OXIS International, Inc., a Delaware corporation (the "**Company**"), and the parties listed on Schedule A hereto.

WHEREAS, Theorem Group LLC and Canyons Trust (together, the "**Series H Stockholders**") currently hold shares of Series H Convertible Preferred Stock of the Company (the "**Series H Preferred Stock**") pursuant to the Series H Preferred Stock Agreement, dated February 10, 2010 (the "**Series H Preferred SPA**");

WHEREAS, Adam Kasower (the "**Series I Stockholder**") currently hold shares of Series I Convertible Preferred Stock of the Company (the "**Series I Preferred Stock**") pursuant to the Series I Preferred Stock Purchase Agreement, dated November 8, 2010 (the "**Series I Preferred SPA**");

WHEREAS, Series H Preferred Stock and Series I Preferred Stock are herein collectively referred to as the "**Preferred Stock**";

WHEREAS, Series H Stockholders and Series I Stockholders are herein collectively referred to as the "**Investors**" or "**Preferred Stockholders**";

WHEREAS, the Series H Preferred SPA and Series I Preferred SPA are herein collectively referred to as the "**Prior Subscription Agreements**" or "**Prior Transaction Documents**";

WHEREAS, each Preferred Stockholder hereby agrees to exchange all shares of Preferred Stock held by such Preferred Stockholder, and the Company agrees to issue to each Preferred Stockholder in exchange for such shares, and for no additional consideration, the number of shares of Common Stock set forth opposite such Preferred Stockholder's name on Schedule B hereto (the "**Exchange Shares**");

NOW, THEREFORE, in consideration of the rights and benefits that they will each receive in connection with this Agreement, the parties, intending to be legally bound, agree as follows:

1. Exchange of Preferred Stock. Subject to the terms and conditions of this Agreement, at the Closing (as defined herein) the Company shall issue to each Preferred Stockholder, in exchange for the shares of Preferred Stock then held by such Preferred Stockholder, such number of Exchange Shares set forth beside such Preferred Stockholder's name on Schedule B attached hereto (the "**Exchange**"). From and after the Closing, the Preferred Stock shall solely represent the right to receive the Exchange Shares hereunder.

2. Closing.

(a) **Closing.** Subject to Sections 2(c) and 2(d), the closing of the Exchange (the "**Closing**") shall occur automatically and with no further action by the parties hereto subject to and effective immediately prior to the consummation by the Company of the sale and issuance of shares of the capital stock of the Company primarily for capital-raising purposes for an aggregate purchase price of at least \$6,000,000 (the "**Financing**," and the closing date of such Financing and the Exchange, the "**Closing Date**"). Prior the Closing, or within five (5) business days thereafter, the Investors shall deliver their physical certificates representing shares of Preferred Stock (the "**Preferred Stock Certificates**") (or if such Preferred Stock Certificates are lost, mutilated or destroyed, a lost stock certificate affidavit, as applicable, in a form acceptable to the Company (each, an "**Affidavit**")) to the Company for cancellation.

(b) Reverse Stock Split; Delivery of Shares. Within 90 days from the receipt of the physical Preferred Stock Certificates (or Affidavit, as applicable), the Company shall use its commercially reasonable efforts to file an amendment to its certificate of incorporation to increase the authorized shares of Common Stock under its certificate of incorporation and effect a reverse stock split in an amount to be determined by the Board of Directors of the Company (the "**Charter Amendment**"). Promptly following the effectiveness of the Charter Amendment, the Company shall deliver the Exchange Shares to the Investors in accordance with Schedule B. For the avoidance of doubt, notwithstanding the fact that the Charter Amendment may be filed prior to the effective date of this Agreement and/or prior to the Closing, the shares set forth on Schedule B are on a pre-split basis.

(c) Conditions to Investors' Obligations at Closing. The obligations of each Investor participating at the Closing are subject to the fulfillment at or before Closing of each of the following conditions, any of which may be waived in writing by the Investors who will be entitled to receive at least a majority of the Exchange Shares under this Agreement (the "**Majority-in-Interest Investors**");

- i. The representations and warranties of the Company contained in Section 5 shall be true and correct on and as of the Closing.
- ii. The Company shall have performed or fulfilled all agreements and obligations contained herein required to be performed or fulfilled by the Company before the Closing.
- iii. The Company shall have complied with, and the offer and sale or exchange of the Exchange Shares pursuant to this Agreement shall be effective under, all federal and state securities laws applicable to the offer and sale or exchange of the Exchange Shares to the Investors.

(d) Conditions to the Company's Obligations at Closing. The obligations of the Company to close with each Investor participating at the Closing are subject to the fulfillment at or before the Closing of each of the following conditions, any of which may be waived in writing by the Company.

- i. The representations and warranties of such Investor contained in Sections 4 and 5 (if applicable) shall be true and correct on and as of the Closing.
- ii. Such Investor shall have performed or fulfilled all agreements, obligations and conditions contained herein and required to be performed or fulfilled by such Investor before the Closing.
- iii. All authorizations, approvals or permits, if any, of any governmental authority or regulatory body of the United States or any state or foreign country that are required in connection with the lawful issuance of the Exchange Shares pursuant to this Agreement shall be duly obtained and effective as of the Closing. The Company shall have obtained all necessary state securities law permits and qualifications, or have the availability of exemptions therefrom, required by any state for the offer and sale of the Exchange Shares.

3. Representations and Warranties of the Company. The Company hereby represents and warrants to each Investor as of the date hereof as follows:

(a) Organization and Standing. The Company is a corporation duly organized, validly existing under, and by virtue of, the laws of the State of Delaware, and is in good standing under such laws. The Company has all requisite corporate power and authority to own and operate its properties and assets and to carry on its business as presently conducted. The Company is duly qualified and authorized to transact business and is in good standing as a foreign corporation in each jurisdiction in which the failure to so qualify would have a material adverse effect on its business, properties or financial condition.

(b) Corporate Power. The Company has all requisite legal and corporate power and authority to execute and deliver this Agreement, to sell and issue the Exchange Shares hereunder, and to carry out and perform its obligations under the terms of this Agreement and the transactions contemplated hereby.

(c) Authorization. All corporate action on the part of the Company, its officers, directors and stockholders necessary for the authorization, execution, delivery and performance of this Agreement, the authorization, sale, issuance and delivery of the Exchange Shares and the performance of all of the Company's obligations hereunder, other than the Charter Amendment, have been taken or will be taken prior to the Closing. This Agreement has been duly executed by the Company and constitutes valid and legally binding obligations of the Company, enforceable against the Company in accordance with their respective terms, subject to the laws of general application relating to bankruptcy, insolvency and the relief of debtors and rules of law governing specific performance, injunctive relief or other equitable remedies.

(d) Valid Issuance of Stock. The Exchange Shares, when issued, sold and delivered in compliance with the provisions of this Agreement, will be duly and validly issued, fully paid and nonassessable and issued in compliance with applicable federal and state securities laws. Such Exchange Shares will also be free and clear of any liens or encumbrances; provided, however, that the Exchange Shares shall be subject to the provisions of this Agreement and restrictions on transfer under state and/or federal securities laws. The Exchange Shares are not subject to any preemptive rights, rights of first refusal or restrictions on transfer.

(e) Offering. Subject in part on the accuracy of the Investor's representations in Sections 4 and 5 (if applicable) hereof, the offer, sale and issuance of the Exchange Shares in conformity with the terms of this Agreement constitute transactions exempt from registration under the Securities Act of 1933, as amended (the "*Securities Act*") and from all applicable state securities laws.

(f) Governmental Consents. No consent, approval, qualification or authority of, or registration or filing with, any local, state or federal governmental authority on the part of the Company is required in connection with the valid execution, delivery or performance of this Agreement, or the offer, sale or issuance of the Shares, or the consummation of any transaction contemplated hereby, except (i) such filings as have been made prior to the date hereof, (ii) the Charter Amendment and (iii) such additional post-closing filings as may be required to comply with applicable federal and state securities laws (including but not limited to any Form D or Form 8-K filings), and with applicable general corporation laws of the various states, each of which will be filed with the proper authority by the Company in a timely manner.

(g) Disclosure. As soon as practicable following the Closing Date, but in any event not later than four (4) business days following the Closing date, the Company shall file with the Securities and Exchange Commission a Current Report on Form 8-K the ("*Current Report*") relating to the transactions contemplated by, and describing the material terms and conditions of, this Agreement. The Current Report shall include a copy of this Agreement as an exhibit. Upon filing of the Current Report with the Securities and Exchange Commission, the Investors shall not be in possession of any material, nonpublic information received from the Company, any of its subsidiaries or any of their respective officers, directors, employees or agents, that is not disclosed in the Current Report.

4. **Representations and Warranties of all Investors.** Each Investor, for itself and for no other person, hereby represents and warrants as of the date hereof to the Company as follows:

(a) **Organization and Standing.** The Investor is either an individual or an entity duly organized, validly existing under, and by virtue of, the laws of the jurisdiction of its incorporation or formation, and is in good standing under such laws.

(b) **Corporate Power.** The Investor has all right, corporate, partnership, limited liability company or similar power and authority to execute and deliver this Agreement, to effect the Exchange hereunder, and to carry out and perform its obligations under the terms of this Agreement and the transactions contemplated hereby.

(c) **Authorization.** All corporate, partnership, limited liability company or similar action, as applicable on the part of such Investor, necessary for the authorization, execution, delivery and performance of this Agreement, the Exchange and the performance of all of such Investor's obligations hereunder have been taken or will be taken prior to the Closing. This Agreement has been duly executed by the Investor and constitutes valid and legally binding obligations of such Investor, enforceable against such Investor in accordance with their respective terms, subject to the laws of general application relating to bankruptcy, insolvency and the relief of debtors and rules of law governing specific performance, injunctive relief or other equitable remedies.

(d) **Governmental Consents.** No consent, approval, qualification or authority of, or registration or filing with, any local, state or federal governmental authority on the part of the Company is required in connection with the valid execution, delivery or performance of this Agreement, or the offer, sale or issuance of the Exchange Shares, or the consummation of any transaction contemplated hereby, except such filings as have been made prior to the date hereof.

(e) **Own Account.** Such Investor understands that the Exchange Shares are "restricted securities" and have not been registered under the Securities Act or any applicable state securities law in reliance upon exemptions from regulation for non-public offerings and is acquiring the Exchange Shares as principal for its own account and not with a view to or for distributing or reselling such Exchange Shares or any part thereof in violation of the Securities Act or any applicable state securities law, has no present intention of distributing any such Exchange Shares in violation of the Securities Act or any applicable state securities law and has no direct or indirect arrangement or understandings with any other persons to distribute or regarding the distribution of such Exchange Shares in violation of the Securities Act or any applicable state securities law. Such Investor agrees that the Exchange Shares or any interest therein will not be sold or otherwise disposed of by such Investor unless the shares are subsequently registered under the Securities Act and under appropriate state securities laws or unless the Company receives an opinion of counsel satisfactory to it that an exception from registration is available.

(f) **Investor Status.** The Investor is either: (i) an "accredited investor" as defined in Rule 501(a)(1), (a)(2), (a)(3), (a)(7) or (a)(8) under the Securities Act or (ii) a "qualified institutional buyer" as defined in Rule 144A under the Securities Act. iii. it is a condition to the availability of the Regulation S "safe harbor" that the Exchange Shares not be offered or sold in the United States or to a U.S. person until the expiration of a period of one year following the Closing Date; notwithstanding the foregoing, prior to the expiration of one year after the Closing (the "**Restricted Period**"), the Exchange Shares may be offered and sold by the holder thereof only if such offer and sale is made in compliance with the terms of this Agreement and either: (A) if the offer or sale is within the United States or to or for the account of a U.S. person, the securities are offered and sold pursuant to an effective registration statement of the Securities Act, or (B) the offer and sale is outside the United States and to other than a U.S. person.

ii. such Non-U.S. Investor shall not engage in hedging transactions with regards to the Exchange Shares unless in compliance with the Securities Act.

The foregoing restrictions are binding upon subsequent transferees of the Exchange Shares, except for transferees pursuant to an effective registration statement. Such Non-U.S. Investor agrees that after the Restricted Period, the Exchange Shares may be offered or sold within the United States or to or for the account of a U.S. person only pursuant to applicable securities laws.

(e) Directed Selling. Such Non-U.S. Investor has not engaged, nor is it aware that any party has engaged, and such Non-U.S. Investor will not engage or cause any third party to engage, in any directed selling efforts (as such term is defined in Regulation S) in the United States with respect to the Shares.

(f) Location of Non-U.S. Investor. (g) Distributor; Dealer. Such Non-U.S. Investor is not a "distributor" (as defined in Regulation S) or a "dealer" (as defined in the Securities Act).

(h) Notation of Restrictions. Such Non-U.S. Investor acknowledges that the Company shall make a notation in its stock books regarding the restrictions on transfer set forth in this section and shall transfer such shares on the books of the Company only to the extent consistent therewith.

(i) Compliance with Laws. Such Non-U.S. Investor is satisfied as to the full observance of the laws of such Non-U.S. Investor's jurisdiction in connection with the Exchange, including (i) the legal requirements within such Non-U.S. Investor's jurisdiction for the Exchange, (ii) any foreign exchange restrictions applicable to such Exchange, (iii) any governmental or other consents that may need to be obtained and (iv) the income tax and other tax consequences, if any, that may be relevant to the exchange, holding, redemption, sale or transfer of such securities. Such Non-U.S. Investor's participation in the Exchange, and such Non-U.S. Investor's continued beneficial ownership of the Exchange Shares will not violate any applicable securities or other laws of such Non-U.S. Investor's jurisdiction.

6. Waiver and Release.

(a) Each Investor expressly forfeits and waives any and all anti-dilution and piggyback registration rights under any and all Prior Transaction Documents or otherwise applicable to the Preferred Stock, including any anti-dilution rights such Investor may have with respect to the issuances of any capital stock or other securities of the Company pursuant to previous transactions and pursuant to this Agreement.

(b) Each Investor unconditionally, irrevocably and absolutely releases and discharges the Company, and any parent and subsidiary corporations, divisions and affiliated corporations, partnerships or other entities of the Company, past and present, as well as the Company's past and present employees, officers, directors, agents, principals, shareholders, successors and assigns from all claims, losses, demands, interests, causes of action, suits, debts, controversies, liabilities, costs, expenses and damages related to the waiver of anti-dilution and piggyback registration rights above, any security interest pursuant to any Prior Transaction Documents or otherwise over any collateral of the Company, or related in any way to any rights such Investor may have to equity or debt securities of the Company, other than as set forth on the schedules hereto. (c) Each of the Investors and the Company expressly waives such Investor's or Company's (as applicable) right to recovery of any type, including damages or reinstatement, in any administrative court or action, whether state or federal, and whether brought by such Investor or Company or on such Investor's or Company's (as applicable) behalf, related in any way to the matters released herein.

(d) Each of the Investors and the Company acknowledges that it may discover facts or law different from, or in addition to, the facts or law that it knows or believes to be true with respect to the claims released in this Agreement and agrees, nonetheless, that this Agreement and the release contained in it shall be and remain effective in all respects notwithstanding such different or additional facts or the discovery of them.

(e) Each of the Investors and the Company declares and represents that it intends this Agreement to be complete and not subject to any claim of mistake, and that the release of the claims described herein expresses a full and complete release and it intends the release of such claims to be final and complete.

(f) The parties acknowledge that this release is not intended to bar any claims that, by statute, may not be waived.

8. **Miscellaneous.**

The Investor further agrees that the representations and warranties made by the Investor will survive the Exchange and will continue in full force and effect notwithstanding any subsequent disposition of the Investor of such Exchange Shares.

(d) Fees and Expenses. Each party shall pay the fees and expenses of its advisors, counsel, accountants and other experts, if any, and all other expenses incurred by such party incident to the preparation, execution, delivery and performance of this Agreement.

SERIES A WARRANT CERTIFICATE

Date Issued: _____

This certificate (the "Certificate") represents _____ Series "A" Warrants (individually a "Warrant" or collectively the "Warrants") of Oxis International, Inc., a Delaware corporation (the "Company"). This Certificate is issued to _____ (the "Holder") by the Company.

1. Purchase of Shares. Subject to the terms and conditions hereinafter set forth, the Holder or assigns (collectively hereafter the "Holder") is entitled, upon surrender of this Certificate at the principal office of the Company (or at such other place as the Company shall notify the Holder hereof in writing), to purchase one common share (a "Share" or in the aggregate the "Shares") of the Company for each Warrant represented hereby, at an exercise price of \$ ____ per Share (such price, as may be adjusted from time to time, is herein referred to as the "Exercise Price").
2. Exercise Period. Each Warrant shall be exercisable during the term commencing on the issue date of this Certificate and ending at 5 p.m. Eastern time five years thereafter (the "Exercise Period").
3. Method of Exercise. The Warrants are exercised by: (i) the surrender of the Certificate, together with a notice of exercise to the Secretary of the Company at its principal offices; and (ii) the payment to the Company of an amount equal to the aggregate Exercise Price for the number of Shares being purchased.
4. Exercise of Warrants; Amendment of Certificate. Upon the exercise of any Warrants represented hereby, one or more certificates for the number of Shares so purchased shall be issued as soon as practicable thereafter, and in any event within thirty (30) days of the delivery of the Notice of Exercise. If less than all of the Warrants represented hereby are exercised, the Company shall issue an amended Certificate representing the remaining Warrants. All other terms and conditions of such amended Certificate shall be identical to those contained herein.
5. Issuance of Shares. The Company covenants that (i) the Shares, when issued pursuant to the exercise of the Warrants, will be duly and validly issued, fully paid and nonassessable and free from all taxes, liens, and charges with respect to the issuance thereof, (ii) during the Exercise Period the Company will reserve from its authorized and unissued common stock sufficient Shares in order to perform its obligations under this Certificate.
6. Adjustment of Exercise Price and Number of Shares. The number of and kind of securities purchasable upon exercise of the Warrants and the Exercise Price shall be subject to adjustment from time to time as follows:
 - a) Subdivisions, Combinations and Other Issuances. If the Company shall at any time before the expiration of the Warrants subdivide the Shares, by split-up or otherwise, or combine its Shares, or issue additional shares of its Shares as a dividend, the number of Shares issuable on the exercise of the Warrants shall forthwith be proportionately increased in the case of a subdivision or stock dividend, or proportionately decreased in the case of a combination. Appropriate adjustments shall also be made to the purchase price payable per share, but the aggregate purchase price payable for the total number of Shares purchasable under the Warrants (as adjusted) shall remain the same. Any adjustment under this Section 6(a) shall become effective at the close of business on the date the subdivision or combination becomes effective, or as of the record date of such dividend, or in the event that no record date is fixed, upon the making of such dividend.

- b) Reclassification, Reorganization and Consolidation. In case of any reclassification, capital reorganization, or change in the capital stock (including because of a change of control) of the Company (other than as a result of a subdivision, combination, or stock dividend provided for in Section 6(a) above), then the Company shall make appropriate provision so that the holder of the Warrants shall have the right at any time before the expiration of the Warrants to purchase, at a total price equal to that payable upon the exercise of the Warrants, the kind and amount of shares of stock and other securities and property receivable in connection with such reclassification, reorganization, or change by a holder of the same number of Shares as were purchasable by the holder of the Warrants immediately before such reclassification, reorganization, or change. In any such case appropriate provisions shall be made with respect to the rights and interest of the holder of the Warrants so that the provisions hereof shall thereafter be applicable with respect to any shares of stock or other securities and property deliverable upon exercise hereof, and appropriate adjustments shall be made to the purchase price per share payable hereunder, provided the aggregate purchase price shall remain the same.
- c) Notice of Adjustment. When any adjustment is required to be made in the number or kind of shares purchasable upon exercise of the Warrants, or in the Exercise Price, the Company shall promptly notify the Holder of such event and of the number of Shares or other securities or property thereafter purchasable upon exercise of the Warrants.

7. No Fractional Shares or Scrip. No fractional shares or scrip representing fractional shares shall be issued upon the exercise of the Warrants, but in lieu of such fractional shares the Company shall make a cash payment therefor on the basis of the Exercise Price then in effect.

8. Representations of the Company. The Company represents that all corporate actions on the part of the Company, its officers, directors and stockholders necessary for the sale and issuance of this Warrant have been taken.

9. Representations and Warranties by the Holder. By acceptance of this Certificate, the Holder represents and warrants to the Company as follows:

(a) The Warrants and the Shares issuable upon exercise thereof are being acquired for its own account, for investment and not with a view to, or for resale in connection with, any distribution or public offering thereof within the meaning of the Securities Act of 1933, as amended (the "Act"). Upon exercise of the Warrants, the Holder shall, if so requested by the Company, confirm in writing, in a form satisfactory to the Company, that the securities issuable upon exercise of the Warrants are being acquired for investment and not with a view toward distribution or resale.

(b) The Holder has such knowledge and experience in financial and business matters that it is capable of evaluating the merits and risks of the purchase of the Warrants and the Shares purchasable pursuant to the terms of the Warrants and of protecting its interests in connection therewith.

(c) The Holder is able to bear the economic risk of the purchase of the Shares pursuant to the terms of the Warrants.

10. Warrants Transferable. Subject to compliance with the terms and conditions of this Section 11, the Warrants and all rights hereunder are transferable, without charge to the Holder (except for transfer taxes, if any), upon surrender of this Certificate properly endorsed and accompanied by written instructions of transfer. With respect to any offer, sale or other disposition of the Warrants or any Shares acquired pursuant to the exercise of the Warrants before registration of such Warrants or Shares, the Holder agrees to give written notice to the Company prior thereto, describing briefly the manner thereof, together with a written opinion of Holder's counsel, or other evidence, if requested by the Company, to the effect that such offer, sale or other disposition may be effected without registration or qualification (under the Act as then in effect or any federal or state securities law then in effect) of the Warrants or the Shares and indicating whether or not under the Act certificates for the Warrants or the Shares to be sold or otherwise disposed of require any restrictive legend as to applicable restrictions on transferability in order to ensure compliance with such law. Upon receiving such written notice and reasonably satisfactory opinion or other evidence, if so requested, the Company, as promptly as practicable, shall notify the Holder that the Holder may sell or otherwise dispose of the Warrants or the Shares, all in accordance with the terms of the notice delivered to the Company. If a determination has been made pursuant to this Section 11 that the opinion of counsel for the Holder or other evidence is not reasonably satisfactory to the Company, the Company shall so notify the Holder promptly with details thereof after such determination has been made. Each certificate representing the Warrants or the Shares transferred in accordance with this Section 11 shall bear a legend as to the applicable restrictions on transferability in order to ensure compliance with such laws, unless in the aforesaid opinion of counsel for the Holder, such legend is not required. In order to ensure compliance with such laws, the Company may issue stop transfer instructions to its transfer agent in connection with such restrictions.

11. Rights of Stockholders. STRICTLY CONFIDENTIAL

OXIS International, Inc.
468 N. Camden Drive, 2nd Floor
Beverly Hills, California 90210
Attn: Anthony J. Cataldo, Chief Executive Officer

Dear Mr. Cataldo:

This letter agreement (this "Agreement") constitutes the agreement between OXIS International, Inc. (the "Company") and Rodman & Renshaw, a unit of H.C. Wainwright & Co., LLC ("Rodman"), that Rodman shall serve as the exclusive agent, advisor or underwriter in any offering (each, an "Offering") of securities of the Company ("Securities") during the Term (as defined below) of this Agreement. Additionally, in the event that the Company undertakes a restructuring of its outstanding debt or equity securities, or engages in a strategic transaction during the Term, Rodman shall, at its option, be the exclusive investment banking firm in respect of such restructuring on commercially reasonable terms to be determined at the time of such restructuring, or in respect of any strategic transaction on the terms set forth in Paragraph B below. The terms of each Offering and the Securities issued in connection therewith shall be mutually agreed upon by the Company and Rodman and nothing herein implies that Rodman would have the power or authority to bind the Company and nothing herein implies that the Company shall have an obligation to issue any Securities. It is understood that Rodman's assistance in an Offering will be subject to the satisfactory completion of such investigation and inquiry into the affairs of the Company as Rodman deems appropriate under the circumstances and to the receipt of all internal approvals of Rodman in connection with the transaction. The Company expressly acknowledges and agrees that Rodman's involvement in an Offering is strictly on a reasonable best efforts basis and that the consummation of an Offering will be subject to, among other things, market conditions. The execution of this Agreement does not constitute a commitment by Rodman to purchase the Securities and does not ensure a successful Offering of the Securities or the success of Rodman with respect to securing any other financing on behalf of the Company. Rodman may retain other brokers, dealers, agents or underwriters on its behalf in connection with an Offering.

A. Compensation; Reimbursement. At the closing of each Offering (each, a "Closing"), the Company shall compensate Rodman as follows:

1. *Cash Fee.* The Company shall pay to Rodman a cash fee, or as to an underwritten Offering an underwriter discount, equal to 8% of the aggregate gross proceeds raised in each Offering.
2. *Warrant Coverage.* The Company shall issue to Rodman or its designees at each Closing, warrants (the "Rodman Warrants") to purchase that number of shares of common stock of the Company equal to 8% of the aggregate number of shares of Common Stock placed in each Offering (if the Securities are convertible or include a "greenshoe" or "additional investment" option component, such shares of Common Stock underlying such Securities or options). If the Securities included in an Offering are non-convertible, the Rodman Warrants shall be determined by dividing the gross proceeds raised in such Offering divided by the then market price of the Common Stock. The Rodman Warrants shall have the same terms as the warrants issued to investors in the applicable Offering. If no warrants are issued to investors in an Offering, the Rodman Warrants shall be in a customary form reasonably acceptable to Rodman, have a term of 5 years and an exercise price equal to 110% of the then market price of the Common Stock.

3. *Common Stock Issuance.* The Company shall issue to Rodman or its designees on the date hereof, 1,000,000 shares of Common Stock (the "Shares"), which Shares shall be registered for resale on the next registration statement, if any, filed by the Company.
4. *Expense Allowance.* Out of the proceeds of each Closing, the Company agrees to reimburse Rodman for the following accountable expenses incurred in connection with an Offering: (a) up to \$100,000 for legal fees and expenses incurred by Rodman, of which \$25,000 shall be paid upon execution of this Agreement, (b) up to \$15,000 for road show expenses, (c) up to \$4,000 per background checks on individuals, not to exceed \$20,000 in the aggregate, (d) up to \$10,000 with respect to the fees and expenses of Rodman's clearing firm and (e) up to \$5,000 for tombstone and other advertising efforts. Notwithstanding anything herein to the contrary, such reimbursement amount in no way limits or impairs the indemnification and contribution provisions of this Agreement.
5. *Tail Fee.* Rodman shall be entitled to compensation under clauses (1) and (2) hereunder, calculated in the manner set forth therein, with respect to any public or private offering or other financing or capital-raising transaction of any kind ("Tail Financing") to the extent that such financing or capital is provided to the Company by investors whom Rodman has arranged either a call or meeting with the Company or invested in a Offering during the Term, if such Tail Financing is consummated at any time within the 6-month period following the expiration or termination of this Agreement.
6. *Right of First Refusal.* If within the 12-month period following consummation of each Offering, the Company or any of its subsidiaries (a) decides to dispose of or acquire business units or acquire any of its outstanding securities or make any exchange or tender offer or enter into a merger, consolidation or other business combination or any recapitalization, reorganization, restructuring or other similar transaction, including, without limitation, an extraordinary dividend or distributions or a spin-off or split-off, and the Company decides to retain a financial advisor for such transaction, Rodman (or any affiliate designated by Rodman) shall have the right to act as the Company's exclusive financial advisor for any such transaction; or (b) decides to finance or refinance any indebtedness using a manager or agent, Rodman (or any affiliate designated by Rodman) shall have the right to act as lead manager, lead placement agent or lead agent with respect to such financing or refinancing; or (c) decides to raise funds by means of a public offering or a private placement of equity or debt securities using an underwriter or placement agent, Rodman (or any affiliate designated by Rodman) shall have the right to act as lead underwriter or lead placement agent for such financing. If Rodman or one of its affiliates decides to accept any such engagement, the agreement governing such engagement will contain, among other things, provisions for customary fees for transactions of similar size and nature and the provisions of this Agreement, including indemnification, which are appropriate to such a transaction.
7. *Payment In Kind.* Solely in connection with the closing on or about August 8, 2016 of \$250,000 in principal amount of the 10% Senior Convertible Debenture due November 3, 2016, Rodman and the Company agree that H.C. Wainwright & Co., LLC or its designees shall receive 150,000 shares of Common Stock of the Company, contemporaneously with the closing, in lieu of the Cash Fee provided for in Section A.1. and the Expense Allowance provided for in Section A.4. of this Agreement.
- B. *Strategic Transactions.* Rodman shall also serve as the Company's exclusive advisor for strategic transactions such as acquisitions or dispositions of assets; acquisitions of other businesses, by merger or otherwise; sale of the Company, by merger or otherwise; or licensing transactions, each a "Transaction", during the Term.

1. *Licensing.* For a Transaction involving the licensing or sale of one or more of the Company's assets and/or the acquisition or licensing of another party's assets, not to exceed 50% of the enterprise value of the Company or the other party, respectively, Rodman shall be entitled to a Transaction Fee. The Transaction Fee shall be 7% of the total value of a licensing Transaction.

2. *Merger.* For a Transaction involving the licensing or sale of one or more of the Company's assets and/or the acquisition or licensing of another party's assets, exceeding 50% of the enterprise value of the Company or the other party, respectively, the Transaction Fee shall be calculated by applying the Double Lehman Formula (10% of the first \$10M, 8% of the second \$10M, 6% of the third \$10M, 4% of the fourth \$10M, and 2% of any amount thereafter) to the total value of the Transaction.

For the purposes of this Section B, total value is defined as the total value of all consideration (including cash, securities, debt and liabilities assumed, or other property) to be paid by the Company or to be paid to the Company under the terms of any agreement governing a Transaction, directly or indirectly, as mutually agreed upon by the Company and Rodman. Payment of any Transaction Fee(s) shall be in cash via wire transfer, or in a mix of cash and equity on terms mutually agreed upon by the Company and Rodman, and will be due upon the closing of any Transaction(s), and will be a condition to the closing of such Transaction(s). To the extent consideration in a Transaction is paid over time pursuant to the terms of the Transaction, the Transaction Fee will similarly be paid to Rodman as consideration is paid by or received by the Company.

Notwithstanding any other provision within this Agreement, the Transaction Fee described in this Section B shall be subject to a minimum threshold of \$100,000 per Transaction.

C. Term and Termination of Engagement; Exclusivity as to Offerings. The term of Rodman's exclusive engagement as to Offerings and Transactions will begin on the date hereof and end 12 months after the date hereof (the "Term"). Notwithstanding anything to the contrary contained herein, the Company agrees that the provisions relating to the payment of fees, reimbursement of expenses, indemnification and contribution, confidentiality, conflicts, independent contractor and waiver of the right to trial by jury will survive any termination of this Agreement. During Rodman's engagement hereunder: (i) the Company will not, and will not permit its representatives to, other than in coordination with Rodman, contact or solicit institutions, corporations or other entities or individuals as potential purchasers of the Securities and (ii) the Company will not pursue any financing transaction which would be in lieu of a Offering. Furthermore, the Company agrees that during Rodman's engagement hereunder, all inquiries, whether direct or indirect, from prospective investors as to an Offering will be referred to Rodman and will be deemed to have been contacted by Rodman in connection with an Offering.

D. Information; Reliance. The Company shall furnish, or cause to be furnished, to Rodman all information requested by Rodman for the purpose of rendering services hereunder (all such information being the "Information"). In addition, the Company agrees to make available to Rodman upon request from time to time the officers, directors, accountants, counsel and other advisors of the Company. The Company recognizes and confirms that Rodman (a) will use and rely on the Information, including any documents provided to investors in each Offering or in relation to a Transaction (the "Offering Documents" which shall include any Purchase Agreements (as defined below)), and on information available from generally recognized public sources in performing the services contemplated by this Agreement without having independently verified the same; (b) does not assume responsibility for the accuracy or completeness of the Offering Documents or the Information and such other information; and (c) will not make an appraisal of any of the assets or liabilities of the Company. Upon reasonable request, the Company will meet with Rodman or its representatives to discuss all information relevant for disclosure in the Offering Documents and will cooperate in any investigation undertaken by Rodman thereof, including any document included or incorporated by reference therein. At each Offering, at the request of Rodman, the Company shall deliver such legal letters, comfort letters and officer's certificates, all in form and substance satisfactory to Rodman and its counsel as is customary for such Offering. Rodman shall be a third party beneficiary of any representations, warranties, covenants and closing conditions made by the Company in any Offering Documents, including representations, warranties, covenants and closing conditions made to any investor in an Offering.

E. Related Agreements. At each Offering, the Company shall enter into the following additional agreements:

- a. *Underwritten Offering.* If an Offering is an underwritten Offering, the Company and Rodman shall enter into a customary underwriting agreement in form and substance satisfactory to Rodman and its counsel.
- b. *Best Efforts Offering.* If an Offering is on a best efforts basis, the sale of Securities to the investors in the Offering will be evidenced by a purchase agreement ("Purchase Agreement") between the Company and such investors in a form reasonably satisfactory to the Company and Rodman. Prior to the signing of any Purchase Agreement, officers of the Company with responsibility for financial affairs will be available to answer inquiries from prospective investors.
- c. *Escrow and Settlement.* In respect of each Offering, the Company and Rodman shall enter into an escrow agreement with a third party escrow agent, which may also be Rodman's clearing agent, pursuant to which Rodman's compensation and expenses shall be paid from the gross proceeds of the Securities sold. If the Offering is settled in whole or in part via delivery versus payment ("DVP"), Rodman shall arrange for its clearing agent to provide the funds to facilitate such settlement. The Company shall bear the cost of the escrow agent and shall reimburse Rodman for the actual out of pocket cost of such clearing agent settlement and financing, if any.
- d. *FINRA Amendments.* Notwithstanding anything herein to the contrary, in the event that Rodman determines that any of the terms provided for hereunder shall not comply with a FINRA rule, including but not limited to FINRA Rule 5110, then the Company shall agree to amend this Agreement (or include such revisions in the final underwriting agreement) in writing upon the request of Rodman to comply with any such rules; provided that any such amendments shall not provide for terms that are less favorable to the Company.

F. Confidentiality. In the event of the consummation or public announcement of any Offering or Transaction, Rodman shall have the right to disclose its participation in such Offering or Transaction, at its cost of "tombstone" advertisements in financial and other newspapers and journals.

G. Indemnity.

1. In connection with the Company's engagement of Rodman as Offering and/or Transaction agent, the Company hereby agrees to indemnify and hold harmless Rodman and its affiliates, and the respective controlling persons, directors, officers, members, shareholders, agents and employees of any of the foregoing (collectively the "Indemnified Persons"), from and against any and all claims, actions, suits, proceedings (including those of shareholders), damages, liabilities and expenses incurred by any of them (including the reasonable fees and expenses of counsel), as incurred, (collectively a "Claim"), that are (A) related to or arise out of (i) any actions taken or omitted to be taken (including any untrue statements made or any statements omitted to be made) by the Company, or (ii) any actions taken or omitted to be taken by any Indemnified Person in connection with the Company's engagement of Rodman, or (B) otherwise relate to or arise out of Rodman's activities on the Company's behalf under Rodman's engagement, and the Company shall reimburse any Indemnified Person for all expenses (including the reasonable fees and expenses of counsel) as incurred by such Indemnified Person in connection with investigating, preparing or defending any such claim, action, suit or proceeding, whether or not in connection with pending or threatened litigation in which any Indemnified Person is a party. The Company will not, however, be responsible for any Claim that is finally judicially determined to have resulted from the gross negligence or willful misconduct of any person seeking indemnification for such Claim. The Company further agrees that no Indemnified Person shall have any liability to the Company for or in connection with the Company's engagement of Rodman except for any Claim incurred by the Company as a result of such Indemnified Person's gross negligence or willful misconduct.

2. The Company further agrees that it will not, without the prior written consent of Rodman, settle, compromise or consent to the entry of any judgment in any pending or threatened Claim in respect of which indemnification may be sought hereunder (whether or not any Indemnified Person is an actual or potential party to such Claim), unless such settlement, compromise or consent includes an unconditional, irrevocable release of each Indemnified Person from any and all liability arising out of such Claim.

3. Promptly upon receipt by an Indemnified Person of notice of any complaint or the assertion or institution of any Claim with respect to which indemnification is being sought hereunder, such Indemnified Person shall notify the Company in writing of such complaint or of such assertion or institution but failure to so notify the Company shall not relieve the Company from any obligation it may have hereunder, except and only to the extent such failure results in the forfeiture by the Company of substantial rights and defenses. If the Company so elects or is requested by such Indemnified Person, the Company will assume the defense of such Claim, including the employment of counsel reasonably satisfactory to such Indemnified Person and the payment of the fees and expenses of such counsel. In the event, however, that legal counsel to such Indemnified Person reasonably determines that having common counsel would present such counsel with a conflict of interest or if the defendant in, or target of, any such Claim, includes an Indemnified Person and the Company, and legal counsel to such Indemnified Person reasonably concludes that there may be legal defenses available to it or other Indemnified Persons different from or in addition to those available to the Company, then such Indemnified Person may employ its own separate counsel to represent or defend him, her or it in any such Claim and the Company shall pay the reasonable fees and expenses of such counsel. Notwithstanding anything herein to the contrary, if the Company fails timely or diligently to defend, contest, or otherwise protect against any Claim, the relevant Indemnified Party shall have the right, but not the obligation, to defend, contest, compromise, settle, assert crossclaims, or counterclaims or otherwise protect against the same, and shall be fully indemnified by the Company therefor, including without limitation, for the reasonable fees and expenses of its counsel and all amounts paid as a result of such Claim or the compromise or settlement thereof. In addition, with respect to any Claim in which the Company assumes the defense, the Indemnified Person shall have the right to participate in such Claim and to retain his, her or its own counsel therefor at his, her or its own expense.

4. The Company agrees that if any indemnity sought by an Indemnified Person hereunder is held by a court to be unavailable for any reason then (whether or not Rodman is the Indemnified Person), the Company and Rodman shall contribute to the Claim for which such indemnity is held unavailable in such proportion as is appropriate to reflect the relative benefits to the Company, on the one hand, and Rodman on the other, in connection with Rodman's engagement referred to above, subject to the limitation that in no event shall the amount of Rodman's contribution to such Claim exceed the amount of fees actually received by Rodman from the Company pursuant to Rodman's engagement. The Company hereby agrees that the relative benefits to the Company, on the one hand, and Rodman on the other, with respect to Rodman's engagement shall be deemed to be in the same proportion as (a) the total value paid or proposed to be paid or received by the Company pursuant to the applicable Offering or Transaction (whether or not consummated) for which Rodman is engaged to render services bears to (b) the fee paid or proposed to be paid to Rodman in connection with such engagement.

5. The Company's indemnity, reimbursement and contribution obligations under this Agreement (a) shall be in addition to, and shall in no way limit or otherwise adversely affect any rights that any Indemnified Party may have at law or at equity and (b) shall be effective whether or not the Company is at fault in any way.

H. Limitation of Engagement to the Company. The Company acknowledges that Rodman has been retained only by the Company, that Rodman is providing services hereunder as an independent contractor (and not in any fiduciary or agency capacity) and that the Company's engagement of Rodman is not deemed to be on behalf of, and is not intended to confer rights upon, any shareholder, owner or partner of the Company or any other person not a party hereto as against Rodman or any of its affiliates, or any of its or their respective officers, directors, controlling persons (within the meaning of Section 15 of the Securities Act or Section 20 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), employees or agents. Unless otherwise expressly agreed in writing by Rodman, no one other than the Company is authorized to rely upon this Agreement or any other statements or conduct of Rodman, and no one other than the Company is intended to be a beneficiary of this Agreement. The Company acknowledges that any recommendation or advice, written or oral, given by Rodman to the Company in connection with Rodman's engagement is intended solely for the benefit and use of the Company's management and directors in considering a possible Offering or Transaction, and any such recommendation or advice is not on behalf of, and shall not confer any rights or remedies upon, any other person or be used or relied upon for any other purpose. Rodman shall not have the authority to make any commitment binding on the Company. The Company, in its sole discretion, shall have the right to reject any investor or strategic counterparty introduced to it by Rodman.

I. Limitation of Rodman's Liability to the Company. Rodman and the Company further agree that neither Rodman nor any of its affiliates or any of its respective officers, directors, controlling persons (within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act), employees or agents shall have any liability to the Company, its security holders or creditors, or any person asserting claims on behalf of or in the right of the Company (whether direct or indirect, in contract, tort, for an act of negligence or otherwise) for any losses, fees, damages, liabilities, costs, expenses or equitable relief arising out of or relating to this Agreement or the services rendered hereunder, except for losses, fees, damages, liabilities, costs or expenses that arise out of or are based on any action of or failure to act by Rodman and that are finally judicially determined to have resulted solely from the gross negligence or willful misconduct of Rodman.

J. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of New York applicable to agreements made and to be fully performed therein. Any disputes that arise under this Agreement, even after the termination of this Agreement, will be heard only in the state or federal courts located in the City of New York, State of New York. The parties hereto expressly agree to submit themselves to the jurisdiction of the foregoing courts in the City of New York, State of New York. The parties hereto expressly waive any rights they may have to contest the jurisdiction, venue or authority of any court sitting in the City and State of New York. In the event Rodman or any Indemnified Person is successful in any action, or suit against the Company, arising out of or relating to this Agreement, the final judgment or award entered shall be entitled to have and recover from the Company the costs and expenses incurred in connection therewith, including its reasonable attorneys' fees. Any rights to trial by jury with respect to any such action, proceeding or suit are hereby waived by Rodman and the Company.

K. Notices. All notices hereunder will be in writing and sent by certified mail, hand delivery, overnight delivery or fax, if sent to Rodman, at the address set forth on the first page hereof, e-mail: notices@rodm.com, Attention: Head of Investment Banking, and if sent to the Company, to the address set forth on the first page hereof, fax number: _____, Attention: Chief Executive Officer. Notices sent by certified mail shall be deemed received five days thereafter, notices sent by hand delivery or overnight delivery shall be deemed received on the date of the relevant written record of receipt, and notices delivered by fax shall be deemed received as of the date and time printed thereon by the fax machine.

L. Conflicts. The Company acknowledges that Rodman and its affiliates may have and may continue to have investment banking and other relationships with parties other than the Company pursuant to which Rodman may acquire information of interest to the Company. Rodman shall have no obligation to disclose such information to the Company or to use such information in connection with any contemplated transaction.

M. Anti-Money Laundering. To help the United States government fight the funding of terrorism and money laundering, the federal laws of the United States requires all financial institutions to obtain, verify and record information that identifies each person with whom they do business. This means we must ask you for certain identifying information, including a government-issued identification number (e.g., a U.S. taxpayer identification number) and such other information or documents that we consider appropriate to verify your identity, such as certified articles of incorporation, a government-issued business license, a partnership agreement or a trust instrument.

N. Miscellaneous. The Company represents and warrants that it has all requisite power and authority to enter into and carry out the terms and provisions of this Agreement and the execution, delivery and performance of this Agreement does not breach or conflict with any agreement, document or instrument to which it is a party or bound. This Agreement shall not be modified or amended except in writing signed by Rodman and the Company. This Agreement shall be binding upon and inure to the benefit of both Rodman and the Company and their respective assigns, successors, and legal representatives. This Agreement constitutes the entire agreement of Rodman and the Company with respect to Offerings and Transactions and supersedes any prior agreements with respect to the subject matter hereof. If any provision of this Agreement is determined to be invalid or unenforceable in any respect, such determination will not affect such provision in any other respect, and the remainder of the Agreement shall remain in full force and effect. This Agreement may be executed in counterparts (including facsimile counterparts), each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

In acknowledgment that the foregoing correctly sets forth the understanding reached by Rodman and the Company, please sign in the space provided below, whereupon this letter shall constitute a binding Agreement as of the date indicated above.

Very truly yours,
